Tonight the City School Board will meet for the first time in their new quarters in the Queen Square School, having removed from their former office in the Newson Block. The new offices are on the first floor of the school, the first room on the right on entering. This room was formerly occupied as a primary department, but is now divided into one large Board room and another room for the secretary's office. The Board room is beautifully carpeted and the tasteful papering and painting, so nicely set off by a handsome mantle on one side, gives the room an appearance of quiet elegance. It is lighted by a very attractive electric bronze four light hanger. The Secretary's office is well equipped and neatly furnished and fitted also electrically lighted. The new offices are commodious and will afford much more convenience for both the Secretary and the members of the Board to all of whom much credit is due for taking a step which at the same time tends toward economy, improves school property and facilitates the work of the Secretary and the Board.

Dr. Dougherty, at a recent meeting of Court Northumberland, read a letter from a Recording Secretary of the I. O. F. in Maine, to the effect that Brother H. S. R., of Maine, states that Mr. Walker is better, and will be able to sit up in a few days. His sister and relatives in P. E. After the ceremony about eighty guests repaired to the dining room where a dainty supper was served. The large number of costly gifts testify to the popularity of both bride and groom.
