SAYS AUSTRIA ELUDED BREAK WITH ITALY

Vienna Paper Declares Danger Averted by Minister's Apology.

VIENNA, Nov. 26.—The newspaper Der Morgen says today that Austria narrowly escaped a rupture of diplomatic relations with Italy, and an invasion by 60,000 Fascists early in October because of the speech made in the Chamber of Deputies by the Socialist deputy, Ellenbogen, in which he attacked Premier Mussolini of Italy.

The weekly journal Oesterreichische Volkszeitung asserts that Foreign Minister Mataja saved the situation arising from Ellenbogen's speech only by making a formal apology to the Italian Government.

The alleged threats of a Fascist invasion, coupled with the closing of German schools in that part of the Tyrol, which has been annexed by Italy, and the withholding of Austrian mails destined from South to North Tyrol, has led to the presentation of a memorial to the Vienna Government by North Tyrol, demanding that the League of Nations intervene in the face of the "growing Italian menace" to the province. All Tyrol, it is claimed, is apprehensive that the Fascists may find a pretext any day to invade the country.

Speculation As To Cabinet Make-up

(Special to The Guardian)

OTTAWA, Ont. Nov. 26.—At the Liberal headquarters the belief is that they will have sufficient Progressive support to hang to power. Cabinet making is the daily pastime now. Ministers have been selected for several portfolios and the senate vacancies have been promised.

It is rumored that Mr. E. R. Chevrier, former Ottawa member who was defeated by Dr. J. L. Chalmers at the last general election, is slated for a portfolio in the King ministry. This course is only a rumor but Mr. Chevrier's name is mentioned with persistency.

Had Furniture Packed To Move; Thieves Get Lot

TRURO, Nov. 26.—A remarkable story of a daring robbery comes from down the bay shore. A lady living near Parraboro was about to move to Amherst. She had packed all her furniture and household goods, intending to have them moved the following day. That night she spent with friends at a nearby house.

During the night thieves removed every article in the house and when she went to see about getting her things moved she found the house in the same shape as the late cupboard owned by the late mother Hubbard of history fame.

It is believed that the robbery was perpetrated by men who carried the goods away in one or more motor trucks.

Such a complete and sweeping robbery is without precedent in the province in recent years at least.

No clues to the perpetrators have been found and the whole affair is clouded with mystery.

Does Not Wish To Proceed With Any Contracts

(Special to The Guardian)

OTTAWA, Nov. 26.—Premier King does not wish to proceed with any contracts just now as the problem is how such contracts should be dealt with. Several contracts have to be decided one way or another as too long a delay might involve the government in litigation but the Premier states that the country should be committed to no expenditures until parliament has had its say. This is one of the main reasons why parliament is called so early this year.

Charge Premier Has Avoided Clear Precedents

VANCOUVER, Nov. 26.—Criticism of Premier McKenzie King for retaining office after his Richmond Hill speech was voiced by Hon. W. J. Bowser, former Premier of British Columbia, in addressing the annual meeting of the Vancouver Conservative Association here.

"MacKenzie King is today much lower in the estimation of the Canadian people than he was on Oct. 29," Mr. Bowser said. "Not only has he failed to carry out his Richmond Hill declaration, but he has avoided two clear precedents—that of Sir William Hearst in Ontario, in 1919, who was in the same position with the second largest group, and resigned, and the case of Premier Baldwin, who in 1923, although he had the largest group in the British Parliament had resigned because he did not have a majority."

Mr. Bowser added: "We will soon have a new Premier. Rt. Hon. Arthur Meighen, and I believe he will appeal to the country for endorsement before July."

CAR STRUCK BY A SHUNTER AT JAIL CROSSING

Three occupants had a narrow escape from injury and probably death yesterday, when the automobile in which they were driving was struck by a train at the jail crossing and carried along the track for about a hundred yards.

The accident occurred about three o'clock in the afternoon. The occupants of the car, Mr. E. C. Johnston, with his son, and Mr. James Coffin, all of Fortune Bridge, were returning home from the city. The car was completely closed in by the side curtains and it is supposed that it was on this account that the occupants did not hear the warning bell ringing or see the train. The automobile was almost on the track before the train, consisting of an engine and some freight cars it was backing into the yards, was noticed. The first freight car hit the automobile squarely on the side and then pushed it down the track for a distance of about a hundred yards. The blow snapped off the wheels, and the body to slip more and more freely along the rails without turning over, and it is to this circumstance that the passengers of the auto probably owe their remarkable escape, suffering nothing more than a shaking up. The car was badly wrecked.

The trainman directing the movements of the shunter from the end car, saw the automobile and tried to warn the driver, but was unable to make himself heard.

TO HAND GOLD RECEPTION TO MUSSOLINI

(Canadian Press)

LONDON, Nov. 26.—Premier Mussolini of Italy is assured of an unfriendly reception from followers of the Independent Labor party and Socialist wing of the Labor movement if he comes to London on December 1 for the signing of the Locarno security pact.

The national council of the party has issued a warning to the Government that any official visit by Mussolini would be resented by all sections of the public which respect liberty. It called upon workers to be prepared to express their condemnation of the cruel suppression of the Labor and Socialist movement in Italy by united and effective protests should it be necessary.

A London despatch Tuesday said the foreign diplomats might not go to the British capital but delegate their ambassadors to sign in view of the death of Queen Mother Alexandra.

May Make An Appeal To The Privy Council

SYDNEY, Australia, Nov. 26.—Should the application for the release of Tom Walsh, and Jacob Johannesen, respectively president and secretary of the Australian Seamen's Union, in connection with the habeas corpus proceedings begun last week and adjourned until November 30, not succeed in the higher court, their counsel says he will appeal "direct to the privy council" in London against the New South Wales full court sur-rendering the case to the high court.

This means that if the high court refuses the application on behalf of Walsh and Johannesen next Monday, they will be deported under the Deportation Act for their active connection with the seamen's strike, but if the appeal to the privy council is successful then they will be returned to Australia, where the New South Wales full court will consider the very point previously settled by the high court.

Invention To View Bodies Moving At High Speed

PARIS, Nov. 26.—Stroboscope is the name of a new apparatus shown to the Academy of Science by George Claude.

The new instrument, the invention of the two brothers, Seguin, projects powerful lightning-like flashes from a tube of neon gas. These flashes when directed on anything which is rotating rapidly, even in full daylight, make the rotating article appear to be completely still, or if it is so desired, to be turning very slowly.

The industrial world will find the apparatus of importance in permitting the examination of rapidly moving bodies while in full action. An airplane propeller, making 1200 revolutions in the minute, appeared to be absolutely motionless. A lot of string fastened to one end of a propeller blade, also appeared motionless in place, but assumed a peaceful curve under the air pressure.

Gets Further Lease Of Life

(Canadian Press)

HARTFORD, Conn., Nov. 24.—Governor Trumbull consented last night to stay the execution of Gerald Chapman until March 31, 1926 which was the date agreed upon yesterday afternoon by States Attorney Alcorn and Joseph A. Freedman counsel for the condemned man to allow time for the Supreme Court of United States to decide whether Chapman's refusal yesterday to accept President Coolidge's commutation of his 25 years federal sentence nullified the commutation.

CRISIS ARISES IN THE IRISH FREE STATE

LONDON, Nov. 26.—A crisis, the gravity of which is universally realized, has arisen in the Irish Free State consequent on the resignation of John MacNeill from the Ulster Boundary Commission, and it is feared that the stability of Cosgrave's government will be imperilled as a consequence. It is also accepted both in Belfast and Dublin that the work of the commission will go by the board, although official circles are still debating whether a report signed by only two of the commissioners would be valid, the opinion generally being that it would be so.

The reasons for MacNeill's resignation have some elements of mystery. Up to a few weeks ago it is known that the work of the commission was proceeding satisfactorily, compromise adjustments along the frontier being agreed upon and the chief difficulty being what to do with Newry. MacNeill wanted Newry to come into the Free State, but the other two members of the commission opposed this and decided to leave it with Ulster.

The Morning Post recently published what purported to be the gist of the commission's findings, in which all the key towns were given Ulster and only strips of valueless land in Armagh, Tyrone, Donegal and Donegal were allotted to the Free State. Other reports said that Donegal had been awarded to Ulster. Members of the Dail started protesting as soon as these reports were published, and Cosgrave's position became desperate and this was followed by MacNeill's resignation, as a matter of course.

There is not the slightest doubt that the Morning Post obtained its information from Ulster sources which have been kept well informed on the work of the commission, although not represented thereon.

Premier Cosgrave's charges that political pressure has been brought to bear on the commissioners is warmly resented by Judge Peetham of South Africa, the chairman, and Joseph Fisher, the third member of the commission, and the charges only served to add fuel to the flames.

Mussolini's Appeal Meets With Response

MILAN, Nov. 26.—Milan has responded in the heartiest way to Premier Mussolini's appeal for contribution of \$1,000,000 for war debt payments to the United States. Everywhere posters urge citizens to give one dollar (25 lire) each, and the million will be subscribed several times over by December.

Women's organizations especially are joining in the campaign, stressing their gratitude for Mussolini's support of the women's municipal suffrage bill, which former governments systematically had rejected. Factory hands, unable to give dollars, are contributing half a day's wages. In fact, never since the first war loan was launched has Italy shown such whole-hearted energy for shouldering a financial burden. The attitude is quite irrespective of class or party.

Roberto Farinacci, secretary general of the Fascist Party, went to Cremona and held a meeting for the benefit of the fund, charging a dollar admission; other Fascist chiefs are following his example.
