LAURA LA PLANTE MARRIES DIRECTOR ASHER IN PARIS

PARIS, June 21.—Laura La Plante, blonde heroine of countless films, was married here today to Irving Asher, director of Warner Brothers' London studio, in a five-minute ceremony at the City Hall.

James J. Walker, former Mayor of New York, and his wife, the former Betty Compton, film actress, attended the wedding, Walker serving as Miss La Plante's official witness.

The newly-weds, accompanied by the Walkers, had flown here yesterday, but were delayed in marrying because of French laws. Pierre Wertheimer, an old friend, served as best man for Asher.

Mr. and Mrs. Asher will spend a brief honeymoon in Paris while the Walkers will fly back to their home in England immediately. Miss Compton is acting in a picture there.

Miss La Plante has been appearing in London films which Asher directs. They had been friends for several years

MARKET GOSSIP

(By Johnston and Ward's Special Wire)
MORNING MARKET LETTER

NEW YORK, N. Y., June 22—The market fluctuated aimlessly just above the previous day's close until the afternoon when on some increase in supply prices receded moderately.

The silver stocks were quite strong in the morning as a result of the statement from the Treasury that the government would continue to buy silver and apparently expecting a very gradual increase in the price. The issuance of silver certificates, it is generally believed, will have little effect on the total currency in circulation while confidence in the dollar remains firm.

Prices are now at about the level where support was encountered on the previous reaction. The breaking of this level would be an unfavorable development.

Laidlaw and Company.

FINANCIAL SERVICE SAYS

MONTREAL, Que., June 22—An amount of $40,000,000 spent on construction over the next year or so is not a large amount.

"Construction contracts in May amounts to $17,000,000". Nevertheless the indirect stimulation to other forms of building should materially aid the upswing of an industry on which over a million people are dependent for their livlihood.

Stocks of newsprint paper at Canadian mills are figured at 42,459 tons at the end of May and at United States mills 20,637 tons making a combined total of 62,796 tons compared with 58,451 tons on April 30, 1934.

D. G. MacKenzie, General Manager of Rogers Majestic Corp. states that the company is back-ordering at the present time on washing machines and is running through new production to meet the demand. This indicates that the sales division handling washing machines is actually exceeding its quota and this business is coming in at profitable figures.

BANON SAYS

NEW YORK, N. Y., June 22—While market action of the last few days cannot be viewed as pronouncedly bullish. Nothing has as yet occurred to indicate that the current dip is anything mors than a normal correction in a trend which is still headed irregularly higher.

On weakness continue to buy stocks recommended.

MINING

TORONTO, June 22—The mining market moved by fits and starts today perking up hopefully between periods of sagging movements. Secondary golds and some of the high-priced issues had gains in the early afternoon but they were unsettled by the last hour slump on the New York board and lost most of the advance. Volume was under 700,000 shares.

Traders were inclined to pay some attention to the more cheering outlook for gold as a result of the proposals recently advanced at Ottawa for revaluation. Heavy buying appeared in several of the issues whose properties are heading toward early production. The day's best prices in these however were not maintained entirely. Little Long Lac rebounded smartly to 5.25, up 25 cents and held there but stocks recording net declines of 2 5 cents after showing midday gains included Sylvanite, San Antonio, Lake and Siscoe. Gunnar Gold dropped 7.

Brisk Afternoon Session On Montreal Exchange

(C. P. By Guardian's Special Wire)

MONTREAL, June 22.—Contrasted with their behaviour of the past few days, building issues declined on the Montreal Stock Exchange today. Declines were suffered by the majority of stocks, losses being from a fraction to two points.

Trading took a brisk turn during the afternoon session, volume picking up with the selling. The turnover was approximately 11,500 shares in comparison with 10,361 shares yesterday.

Dominion Bridge reversed its upward trend, declining two points at 31½. Consolidated Smelting was also off two points at 148. National Steel Car lost a full point at 14½. International Nickel dropped 80 cents at 25.10.

Bank stocks were weaker, with the Bank of Montreal losing a point at 189 and the Royal Bank easing ½ at 148. Banque Canadienne Nationale was also off ½ at 137.

Brazilian Traction, B. C. Packers, B. C. Power "A", B. C. Power "B", Bruck Silk, Canadian Car Preferred, Canada Cement, Canadian Pacific Railway, Dominion Steel and Coal "B." Hamilton Bridge, Massey Harris, Montreal Power, Shawinigan Power, Southern Canada Power, St. Lawrence Paper Preferred, Viau Biscuit and Winnipeg Electric were all down fractions.

Bell Telephone, one of the few exceptions to the downward trend gained 2⅝ at 119. The Canadian Bank of Commerce advanced a point at 147. Hollinger at 17.45 was up 15 cents.

Fractional gains were made by Canadian Car, General Steel Wares, Goodyear Preferred and St. Lawrence Corporation.

Among issues to remain unchanged from their previous closing levels were Bathurst, Canadian Northern Power, Cockshutt Plow, Foundation Company, Gurd, Lake of the Woods, McColl Frontenac, National Breweries, Power Corporation, St. Lawrence Corporation Preferred and St. Lawrence Flour.

QUEEN'S STARTS WORK ON $80,000 PROGRAM

KINGSTON, ONT., June 21.—The Kingston city council and the Ontario Government have reached an agreement that is expected to result in expenditure of $80,000 on a works scheme at Queen's University.

Fifty men started to work on the project today under direction of George C. Wright, who has been appointed superintendent of the work.

The Dominion Government was to have participated in the scheme, but decided against such a course.

Spray Your Currant And Gooseberry Bushes

(Experimental Farms Notes from the Charlottetown Experimental Station.)

Are the leaves of your currant and gooseberry bushes being eaten? If so, it is probably the work of the currant worm. These worms are white at first but turn green and become covered, as they develop with many black spots. If at all numerous they will soon strip a bush of its leaves, first skeletonizing it then eating out the ribs and finally devouring the latter.

CONTROL:—A spray of arsenate of lime, one ounce to one bucket of water, will control these insects. To prevent burning of the foliage add a small handful of slaked lime to each bucketful of spray. If there is danger of poisoning the fruit near picking time, hellebore may be used at the rate of two ounces to one bucket of water (2½ gallons).

ABOUT THE POULTRY YARD

With the hatching season completed and spring work on the farm easing up, it is well to check up on those odd jobs around the poultry yards.

Mating pens may be broken up and the male birds kept in separate pens. All males not required for future breeding work should be set aside for early disposal.

If incubators have been used, thoroughly clean and disinfect these before storing. If hatching has been done by the hns, remove, cleon and disinfect nests, destroying the old nesting material.

Watch chicks for head lice. If these are found, dip the finger in kerosene and rub carefully the top of the head of each chick, and also treat the mothering hen with a good louse powder.

Clean and disinfect all breeding and laying quarters, spraying roosts, etc. with kerosene or fuel oil. Scrub walls and ceilings and then apply a good coat of whitewash.

Seek New Market For Nfld. Fish

ST. JOHN'S NFLD., June 21 (CP): In its campaign to promote the sale of Newfoundland's fish products, the new commission government has enlisted the aid of the island's Board of Trade.

Sir John Hope Simpson, British representative on the governing Commission, asked the Board to name a committee to seek new outlets. With a wider marketing range, he pointed out, the fishermen should be able to dispose not only of more codfish, but also more caplin, herring and canned fish.

Sir John, Commissioner for Natural Resources, indicated he would nominate two or three members to act on the new committee with the Board's representatives.

BLONDES AND REDHEADS ALMOST EXTINCT

CHICAGO, June 22.—Such gentlemen as prefer blondes had better get busy, if a commercial survey of 302,000 American girls is not amiss in its implications.

Sponsors of the examination announced today that both blonde and auburn types are approaching extinction. Third and fourth generation Americans, they said, are distinctly darker than their forebears.

And, as if loss of the blondes were not enough, the surveyors found that girls now get gray "four or five years earlier" than their great-grandmothers did

FRENCH HEAT WAVE HOTTEST IN HISTORY

PARIS, June 21. — The hottest June weather in the history of the capital sent Parisians scurrying for shelter and iced drinks under the spreading awnings of the cafe terraces today. The mercury climbed to 93.3 in the shade.

Reports from the provinces indicated that the high temperature and drought conditions there continued. Crops were reported seared and unlikely to yield more than half their normal harvest.

Lightning Causes Rock Slide

Lightning, striking the crest of this 150-foot cliff between Tobermory and Cabot's Head, near Owen Sound, Ont., ripped off the huge pile of rocks seen at the base of the cliff. The white scar in the upper left-hand corner shows where the bolt struck.
