

WIN A YEAR'S SUPPLY!

Here's All You Do! Try FAB for all your family washing. See how FABulous FAB washes everything Faster And Better than anything you have ever used!

Then read below why Canadian women prefer FAB. Check off the one reason you think is most important. Mail your entry form today—along with a FAB boxtop or facsimile—to FAB, TORONTO, 4.

100 WINNERS

The first 100 correct entries drawn from all entries received by April 1st, 1949. EACH WIN A YEAR'S SUPPLY OF FAB

The reason chosen by the majority of entrants will be considered the correct entry for the purposes of this contest. Each entry must be accompanied by a FAB boxtop or reasonable facsimile. Decision of judges is final.

FAB-Colgate's NEW WASHING DISCOVERY

with SUPER-WETTING ACTION!
HERE ARE THE REASONS WHY WOMEN PREFER FAB

- FAB washes dirtiest clothes—even greasy overalls—faster, cleaner than any soap!
- FAB, in hardest water, does twice as much family wash as any soap!
- FAB washes everything! You need no other laundry soap!
- FAB gives more suds—longer lasting suds—than any soap known!
- FAB leaves no bathtub or sink ring—no scum in washes or dishpan!
- FAB washes clothes so white they need no bluing, no bleaching!
- FAB makes white clothes whiter—no soap film to gray or yellow your clothes!
- FAB makes greasy pans, dishes, glasses sparkle, in half the time!
- FAB keeps woollens soft, like new, without stiffening or matting them!
- FAB has a pleasant perfume—gives your clothes that sweet, "fresh-air" fragrance!
- FAB washes dirtiest clothes, yet is so gentle it makes a beautifying bubble bath!

Contact open to residents of Canada only. Employees and agents of Colgate-Palmolive not eligible. Contest closes April 1st, 1949.

Preparing For Community Drama Course Here

Preparations are going ahead for a course on "Community Drama" to be held in Charlottetown March 6th to 12th inclusive. The course will be conducted by Mr. Michael Melkjohn, B. Sc., M. B. E., of Ottawa who is on the staff of the Physical Fitness Division of the Department of National Health and Welfare.

THE WEEK'S PROGRAM

The program, as outlined will open with two lectures, "The Drama Group in the Community," (its organization—need for leadership—choosing a play—casting the play), and "The Leader Prepares for the Production of a Play." In the evening of the opening day "discussion groups" will be held concerning preliminary problems of presenting a play.

Plays to be considered are, "The Royal Touch," "The Courtship of Marie Tervrin," and "Pipistrelle of Aquitaine."

On Tuesday instruction will open with a lecture on "Blocking out the Play" followed by demonstration and practice in stage grouping and the principles of stage emphasis. There will be two other lectures dealing with stage costume and the principle of color design and the principles of stage movement.

Wednesday's program will include a lecture on "Early Rehearsals"—characterization, audibility and learning the lines. Demonstration and practice—the actor's body, the actor's voice. In the afternoon a lecture will be given on "The Components of the Stage"—curtains and flats. A demonstration, the making and painting of the stage flat will be followed by discussion groups.

Thursday's schedule will be devoted to a lecture on "Polishing the Play"—pace-emphasis-team work—telling the story. In the afternoon there will be a lecture on "Simple Stage Lighting," and a demonstration and practice—acting games, charades, play readings. In the evening, discussion groups on "Polishing the Play" will be held.

Friday sessions will open with a lecture on "The Final Rehearsals"—handing the play over to the cast. Demonstration and practice—group acting, crowds. In the afternoon stage properties will be gone into and demonstration of stage make-up given. Another discussion group will close the day's program.

On Saturday a lecture will be given on the "Performance"—"Festival" and "Adjudication." A discussion reviewing the course will conclude the program.

HAD WIDE EXPERIENCE

Michael Melkjohn for the past twenty years, has been active in the development of drama in Canada and has interested himself particularly in the encouragement of the writing of Canadian plays for Canadian audiences.

Mr. Melkjohn has appeared as an actor in more than sixty roles with the Ottawa Drama League and is one of their regular play producers. His productions for this organization include "The Cherry Orchard," "Stage Door," and "Guest in the House." He was co-producer of "Blithe Spirit," the Ottawa Drama League's entry in the Dominion Drama Festival in 1947 and co-producer and principal actor in the Ottawa Drama League's Workshop presentation of "Bones at Breakfast."

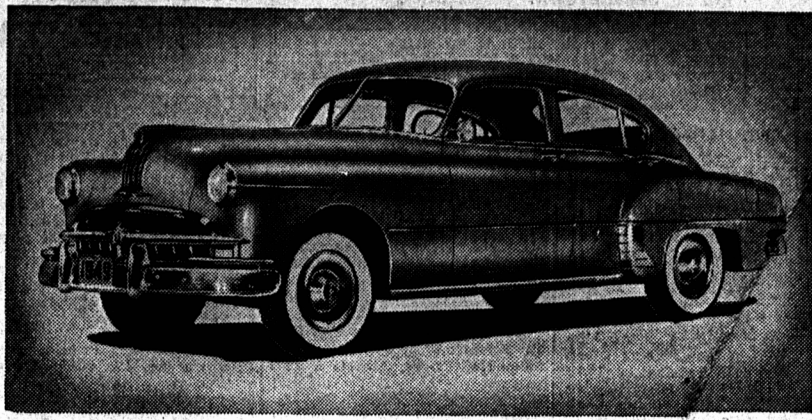

The play by Robertson Davies of Peterborough, Ontario, won the Fulford shield for the best presentation of a one-act play in the Eastern Ontario regional festival at Kingston in 1948 and the Barry Jackson Trophy for the best play by a Canadian author in the Dominion Drama Festival in May, 1948.

In 1937, he was one of the founders of the Ottawa Drama League Workshop, whose annual play-writing contest now attracts entries from every province and is the most important contest of its kind in Canada.

A governor of the Dominion Drama Festival, Mr. Melkjohn is also a director of the Ottawa Drama League and vice-president of the Eastern Ontario regional Drama Festival. He has worked extensively with rural community drama groups in Eastern Ontario. He has conducted courses on drama as a part of the recreation leadership courses given by Carleton College, Ottawa.

Mr. Melkjohn will arrive in the city on Sunday, March 6th. He will open his course on Community Drama on Monday afternoon and sessions will continue through until Saturday, March 12th.

Pontiac Offers Restyled Car

THE NEW 1949 PONTIAC is available to Canadian motorists in four series—Chieftain, Streamliner, Fleetleader Special and Fleetleader Deluxe. Shown here is the Streamliner four-door sedan, which like the Chieftain, is available on 120-inch wheelbase with a six or eight-cylinder engine. The Fleetleader Special and Deluxe are both available on 115-inch wheelbase with a six-cylinder engine. Completely redesigned, the 1949 Pontiacs offer an entirely new concept of functional beauty. They are wider and lower than any model yet offered in the Pontiac line. GM's Hydra-Matic Drive is available as an option at extra cost on certain Pontiac models.

OSHAWA: A completely restyled motor car available with a choice of six or eight cylinder engines in certain models, the new 1949 Pontiac was announced here today by E. J. Umfrey, Director of Sales, of General Motors Products of Canada Limited.

Pontiac offers Canadian motorists four series for 1949. The Chieftain series is an entirely new concept of functional beauty distinguished by its ultra-style overall pattern. The Streamliner series is an extremely advanced rendering of the flowing design factors originally popularized by Pontiac. The Fleetleader Special and Fleetleader Deluxe Series offer completely redesigned body styles which are wider, lower and more distinctive than anything yet offered in this series.

Both Chieftain and Streamliner Series use a 120-inch wheelbase. The Fleetleader Special and Fleetleader Deluxe are mounted on a 115-inch wheelbase.

The Chieftain series offers a sport coupe and 4-door sedan, the latter with either deluxe or standard equipment, with the option of a six or eight-cylinder engine in the Deluxe.

Available in the Streamliner series are a 2-door sedan coupe, and a four-door sedan coupe in a standard or deluxe, with again the option of six or eight-cylinder engines in the Deluxe.

The Fleetleader Series offer (Special or Deluxe) sport coupe, 2-door sedan, 4-door sedan, 2-door coupe and business coupe (Special only) with the six-cylinder engine.

The famed GM Hydra-Matic Drive is again available as an option at extra cost on certain Pontiac models.

A direct front view of the 1949 Silver Streak Pontiac epitomizes massive grace and unity of design. Marrying in its novelty is the dual bumper effect, created by the massive centre grille, highlighting the radiator grille ensemble. The grille assembly is distinguished by a vertical centre grille bar support, flanked on either side by four narrow vertical spacers. At the intersection of the massive central grille bar and its central vertical support is a Pontiac Indian head medallion against a circular background of Indian red enamel. Tucked neatly between the tips of the central and lower grille bars, the parking lamps add a distinct touch of functional beauty. The grille is substantially protected by a pair of graceful, chromed bumper guards.

In silhouette, the new Pontiac appears lower and heavier. The contour of the front fender skirts has been carried straight back to the rear fenders. Lowering of the hood and roof lines by two and one-half inches accents the litheness of the new Pontiac model. The style feature, rear fenders are formed integral with rear body panels, eliminating the joint between wheelhouse and fender, and presenting a much trimmer appearance.

Definite applications of chromium trim to all models adds sparkle and personality to the new Pontiacs. There is no cluttering of body lines just for the sake of novelty, but rather a calculated use of trim and identification to emphasize an over-all graceful appearance.

All new Pontiac models have chromium belt line moldings and chromium trim along the lower edge of the front fender skirts and door sills. Windshields and rear windows of all models, with the exception of the Fleetleader Special series, are framed in chromium. Fully protected by substantial fender-wrapping bumpers, Pontiac's lower silhouette is the very embodiment of modern, stylish motor car design.

Pontiac's new styling sweeps back to enclose a generous luggage compartment. A massive rear bumper curls forward to protect rear fender skirts. Rear deck appearance is enhanced by the retention of the dual semaphore type tail lamps with chrome plated circular rims.

Yesterday, despite the storm, three of the new Pontiacs were unloaded at the railway yards and made ready for display today at the showroom and garage of Allison MacLeod, 128 Cumberland Street.

The three models on display are DeLuxe sedan coupe, Fleetleader four-door sedan and the Fleetleader two-door sedan.

WEST AFRICAN LIVESTOCK

AKASA, Nigeria (CP) — A mission from the United Kingdom has been appointed to visit West Africa to investigate the livestock industry in Nigeria and the Cameroons with particular reference to meat production.

BETTER WEATHER

(Continued from Page 1)

"Some citizens are complaining that the plows are filling in the sidewalks they have just shoveled out. This cannot be avoided because of the extent of the drift in some places."

The City Clerk spoke of as left on the streets, which hold up the clearing operations considerably. "Most people are cooperating with us and keeping their cars clear of the road, but a few are not. In these cases we'll have to prosecute," concluded Mr. Fullerton.

One of the City plow was in for repairs last night.

Plows Resume Today

Twenty-four government plows, including six tractors, will strike into the rural areas first thing in the morning, said Mr. Clifford Sherron, of the Department of Public Works and Highways. Reports from some areas state that the cuts through last week-end's drifts are only partially filled. Horse trac is impeded but not impossible.

Mr. Walter Cox stated that milk deliveries for their company (Pure Milk) were three to four hours late. All deliveries were covered but one and three men were required with each team. Both the quid and horses were completely exhausted when finished. Other companies had similar experiences.

Most of the milk arrived yesterday morning by train. Out of the 30 producers delivering to the Pure Milk plant, five were unable to make delivery. There may be a shortage of sweet cream, as this product comes from farther out of town. There is sufficient milk on hand to start this morning, and deliveries are expected during the day, concluded Mr. Cox.

Schools To Resume

Schools, which were closed yesterday, will open "as usual if the storm abates," said Dr. Ira Yeo, chairman of the School Board.

Mr. Warren Burns, weather observer, Experimental Farm stated last evening that six to eight inches of snow had fallen within the 24 hours. Temperature at 9 p.m. was 17.5 degrees above.

Last year the greatest monthly snowfall was 37 1/2 inches in December. The greatest this year was 3 1/2 inches in February with a total of 83 ins. to date.

The mean temperature in February this year was 20.8 degrees—much warmer than the 12.6 degrees in 1948. The coldest day in February this year was zero on the 3rd—last year it was 16 below on the 10th.

Precipitation was very much higher this year with 4.32 inches as against 1.97 in February last year, and there was considerably less sunshine and more wind.

U.K. PORK IMPORTS

Imports of pig meat (bacon, ham, pork and offal fresh, frozen or canned) by the United Kingdom during the period January-September 1948, amounted to 2.9 million cwt., which was nearly equal to that of the same period in 1947. In 1938, the quantity of the same products reached 69 million cwt. Canadian bacon was the largest single item imported in the nine-month period of 1948 with nearly 1.1 million cwt., and Danish bacon was second with 447 thousand cwt.

INDIA GOES AHEAD

NEW DELHI (CP) — India's industrial production during 1948 showed a 15 per cent increase over pre-war levels. But it was short of the peak figure reached during 1934-44.

Skin Itch Fought in 7 Minutes

It's your skin thatches and burns because of Blackheads or Acne, making you embarrassed, worried, and miserable. Here's the solution. Three way action works fast. 1. Soothes itching, burning and smarting skin. 2. Kills many germs and parasites, often responsible for skin disorders. 3. Helps heal the skin. Ask your druggist for Miltex today. Money back unless Miltexer satisfies you.

Ottawa Journal Sale Announced

OTTAWA, March 2 (CP)—P. D. Ross, 91-year-old publisher who acquired the Ottawa Journal 62 years ago with an initial investment of \$4,000, today announced the sale of the newspaper to a group of associates.

The transaction, which took effect last Feb. 19, was disclosed in a front-page story and editorials. The amount of money involved was not disclosed, but the announcement said all the shares of the Journal Publishing Company of Ottawa Limited standing in Mr. Ross' name have been sold to chief associates.

They have been purchased "for cash at a preferred price" by E. Norman Smith, vice-president of the company, and M. Gratian O'Leary, for many years associate editor. Mr. Smith was Mr. Ross' junior partner for 32 years.

In turn, considerable blocks of stock have been transferred to T. G. Lowrey, managing editor; V. M. Kipp, I. Norman Smith and Bryan White, associate editors; E. S. Planta, general manager, and T. H. Johnstone, advertising manager. All have been directors of the company for several years.

At the request of the new owners, Mr. Ross will remain as president. In a signed editorial, Mr. Ross told how he bought into the Journal a few months after it was started in 1887 when he was a press gallery correspondent for a Montreal newspaper.

CLEANS as it polishes

No other furniture polish does so much—so fast!

Johnson's Cream Wax cleans as it polishes. Buffs easily. Dries dry! Deposits no oily film to catch dust. Leaves your things gleaming, wax-protected. Try it! By the makers of JOHNSON'S WAX.

OUR BOARDING HOUSE

LIVESTOCK

MONTREAL, March 2 (CP)—Early offerings were dull and prices generally were unchanged from yesterday's close on the two Montreal livestock markets today. Mid-morning offerings were two cattle, 99 hogs and 17 calves.

Tuesday's total receipts on the west-end Montreal market were 240 cattle, five sheep, 1,466 hogs and 440 calves.

The few cattle offered brought steady prices. Medium cows were 13.50-14.50; common 12.25-13.25; canners and cutters mostly 11-12 and common bulls 14-16.50.

Veal calves were 27-28 for good quality, 23-26.50 medium, and 18-21 for common ones.

There were no early sales reported on hogs, with sellers asking \$1 for grade A. Sows brought 25 dressed.

Monoton grade A hogs 29.75; sows no. 1 21.75, no 2 20.75, hot dressed weight delivered.

Charlottetown grade A hogs 29; sows no. 1 20.50, no 2 19.50 (fob). Best cows and bulls 14. Good calves 20. Grade A lambs dressed delivered 43.

PRESERVE TRAFALGAR PRIZE

LONDON (CP) — The warship Implacable, captured from the French at the Battle of Trafalgar, is to be surveyed to see if she can be towed from Portsmouth to London as a show ship.

Y. M. C. A. MEMBERS
