Town Council Reveal Small Deficit For Year

Annual Financial Statement Presented By Coun. R. L. Mollison.

The annual statement was brought down last night at an adjourned meeting of the Summerside town council, the finance chairman, Councilor R. L. Mollison, declaring a \$280.18 deficit. Mayor Campbell gave a review of the activities of the council during the year. Councilor T. D. Morrison gave the year's report for the year ending December 31st, over six thousand dollars was not yet two months past due having been incurred in October, November and December and over a thousand dollars was less than six months old of the whole sum only approximately three thousand dollars was incurred previous to 1939.

"We have made an analysis of each outstanding account and find that over three thousand, three hundred dollars of the total amount was not due at December 31st, over six thousand dollars was not yet two months past due having been incurred in October, November and December and over a thousand dollars was less than six months old of the whole sum only approximately three thousand dollars was incurred previous to 1939."

With both teams skating at a fast clip all the way through with hard but legal bodying taking place the fans saw the squads put up a spirited fight all the way with goals giving their opponents lots of anxious moments only to be stopped at the last line of defence by the great work of the Freetown goalie. Six minutes and three seconds had gone by in the first period before Maple Leafs opened the scoring, Burns scoring on a pass from McParlane; at 16:28 and fighting desperately Kensington tied the score at 1-1 all as McAusland, starry centre man for the home forces beat Paynter cleanly on a typical one dash down the ice.

Maple Leafs scored the only goal of the middle canto McParlane making the red light flicker as he drove home M. Deacon's pass with less than three minutes of the session remaining.

Both teams started off at a terrific pace as the final session got underway. Playing wide open hockey despite their one-goal lead Maple Leafs increased the lead to 3-1 three minutes after the start on McParlane's second goal; Clow from A. Deacon made it 4-1 and as the Kensington team gambled desperately threw all forwards onto the ice for the latter part of the game Freetown broke away from the game attacks for two additional counters McParlane getting his third goal on a pass from Burns with Stavert winding up the scoring for the night on a pass from V. Clow.

MAJOR CAMPBELL'S REPORT
I regret that I cannot show a small surplus instead of a deficit on current account of \$239.16 but in view of the facts which I will enumerate I think you will agree that this Council have done remarkably well in keeping the deficit as small as it is. Mayor J. E. Campbell said in his annual report.

"We have this year (in addition to keeping up the ordinary town work) increased the provision for depreciation on our electric light plant by the amount of thirteen hundred dollars over what was provided in any previous year and we have also set up a reserve of three hundred dollars for estimated loss on Poll Tax judgments which was never done before."

"If the practice of previous years had been followed and these extra amounts not placed in reserve a surplus of some three hundred dollars would have been shown."

"In addition to this we have provided out of revenue, sinking fund and interest amounting to five thousand seven hundred and forty-three dollars on new debture issues without any increase in our rate of taxation."

"I therefore, feel that this Council should be proud of their record in being able to finish this year with such a small deficit."

Electric Accounts
"Regarding the outstanding electric light accounts, you will notice an increase in this amount and at first glance it appears that we have fallen down on this part of our work but again an analysis shows that the Committee have improved the situation considerably."

"From the revenue you will notice that there has been an increase of some five thousand four hundred dollars in the amount of electricity sold to the consumer. The increase was small during the early months of the year but increased rapidly in the latter months until as shown it is over twelve per cent above 1938."

Brings New Pep and Energy Makes you feel fine

The proficient worrier is running on high all the time, wearing himself out. There is a way to overcome worry. Many have profited by it. Others are so obsessed by worry and gloomy forebodings that they cannot decide to use it. We refer to Dr. Chase's Nerve Food. You don't worry when the blood and nerves are in healthy condition and Dr. Chase's Nerve Food is a great help in restoring richness to the blood and nerve force to the exhausted system. The mineral substances and Vitamin B₁ contained in Dr. Chase's Nerve Food are the accessory foods required for the relief of nervous disorders. Many have proven this to their entire satisfaction. Why not benefit by their experience?

Dr. Chase's Nerve Food FOR NEW PEP AND ENERGY

Second choice goes to Paynter the Leafs goalie, he gave an exhibition of goal tending that was second to none and deserved on his work a shutout, but such was not to be.

Third choice is given to McNally Kensington defenceman who played outstanding hockey throughout breaking up many plays, with good clean checking, and making many sensational rushes. This boy for his first year in this league is certainly going places and if he keeps on improving will be an outstanding man when the season closes.

Glad to see Dan Baker out around again after his recent illness.

Congratulations to Mr. John Thompson and his assistant Mr. Walter Thompson on the excellent sheets of ice they always have.

Canada's Field Crop Value Is Increased
OTTAWA, Jan. 19—(CP)—Gross value to Canadian farmers of field crops harvested in 1939 was \$634,130,000, some \$84,061,000 more than in 1938, the Dominion Bureau of Statistics reported today in its third estimate of 1939 yields.

Sugar beet, another product given particular attention since the war, suffered from scarcity of sugar from West Indian raws in the first few weeks of hostilities, also increased. The crop in 1939 was placed at 605,000 tons and valued at \$3,673,000, an upturn of \$200,000 over 1938.
