**Views Of U.S. Senators On Post-War Days**

WASHINGTON, April 18—(AP)—Thirty-two senators oppose committing the United States at this time to post-war participation in an international police force to preserve the peace.

Twenty-four senators, one fourth of the senate, favor such commitments.

Thirty-two additional senators have not reached either a definite "yes" or "no" decision on the question. This group, together with eight senators who could not be reached in an Associated Press poll completed today, apparently will decide this important issue.

To determine sentiment the Associated Press asked this question: "Do you favor committing the senate and country now to a post-war course of preserving the peace through an international police force?"

**explains various points about Victory Bonds through this simple question and answer method**

**? In what denominations are Victory Bonds available?**  
The longer term Victory Bonds, which are the kind most people buy, are available in denominations of \$50, \$100, \$500, \$1,000 and larger amounts. Short term bonds, which are bought for the most part by business firms and corporations, are available in denominations of \$1,000 and larger amounts.

**? Must I pay cash for Victory Bonds?**  
Not necessarily. Victory Bonds may be purchased for cash or on a regular installment plan. Many employers make it easy for their employees to buy bonds through a salary deduction plan. Or you may arrange to pay the instalments through your bank.

**? Can Victory Bonds be sold easily?**  
Yes, you can sell your bonds in a ready market at any time. All you have to do is take them to any investment dealer, bank, stock broker or trust company. You will be able to get your money while you wait.

**? Where should I put my bonds for safe-keeping?**  
As Victory Bonds in bearer form can easily be sold by anybody, you should keep them in a safety deposit box in a bank. If you have not a box of this kind, any bank will keep your bonds for you for a small annual charge.

**? What is a VICTORY BOND?**  
A Victory Bond is a document containing proof that you have loaned money to your country to help win the war, and containing your country's promise to return your money to you in a specified number of years, and, in addition, to pay you interest every six months on your money until it is repaid.

**? When will Victory Bonds be paid off?**  
The money you invest in a bond will be paid back to you by your country when the bond reaches its maturity date, in the same way as Victory Loan Bonds of the First World War were paid. The maturity date of each bond is clearly stated in the wording of the bond.

**? Is a Victory Bond a safe investment?**  
A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest when due.

**? Can I borrow money on Victory Bonds?**  
Yes, it is very easy to obtain a loan at reasonable interest at any bank by using your Victory Bonds as security. In this case the interest on the bonds still belongs to you. It will pay a large part of the interest charges on your loan.

**? How is interest paid on Victory Bonds?**  
Interest on all bonds is payable each half year. The dates on which interest is due are stated in the wording of the bond.

**? Where should I put my bonds for safe-keeping?**  
As Victory Bonds in bearer form can easily be sold by anybody, you should keep them in a safety deposit box in a bank. If you have not a box of this kind, any bank will keep your bonds for you for a small annual charge.

**? What is the difference between a Bearer Bond and a Registered Bond?**  
Bearer Bonds may be sold at any time by any person holding them, and the interest coupons attached to these bonds are payable to any person who presents them for payment. In short, bearer bonds are almost as liquid as dollar bills.

**? If you own registered bonds, your name and the numbers of your bonds are kept on record at Ottawa. Registered bonds are of two kinds—(a) those registered as to principal, (b) fully registered bonds, that is, bonds registered as to both principal and interest.**

**? In the case of a bond registered as to principal, the bond can only be sold if you sign a transfer form. However the interest coupons on these bonds are payable to any person who presents them for payment.**

**? In the case of a fully registered bond, the bond can only be sold if you sign a transfer form. Further, no interest coupons are attached to the bond. The Government pays the interest on these bonds by mailing you a cheque each half year.**

**? Bearer bonds of any denomination may be registered as to principal, and in the case of bonds of \$500 or larger amounts, bearer bonds can be exchanged for fully registered bonds. Similarly, registered bonds can be exchanged at any time for bearer bonds.**

**? The main difference between bearer bonds and registered bonds is that registered bonds give you better protection in the event that bonds are lost, stolen or destroyed.**

**? Safe-keeping arrangements can also be made with many trust and loan companies.**

**? If it is not convenient for you to place your bonds for safe-keeping with one of these institutions, be sure to keep them in a safe place at home, and be sure to keep a record of the serial numbers of the bonds in another place. These numbers will be valuable should the bonds be lost or destroyed at any time.**

**? In any event if you keep your bonds at home or at your place of business, it is safer to have them in registered form.**
