*...the wider price range of
McLaughlin-Buick products*

MARQUETTE and the three series of McLaughlin-Buicks now cover a price range so wide as to bring within the reach of hundreds of thousands of motorists those extra-value features that lead Canadians to buy far more McLaughlin-Buicks than any other fine car.

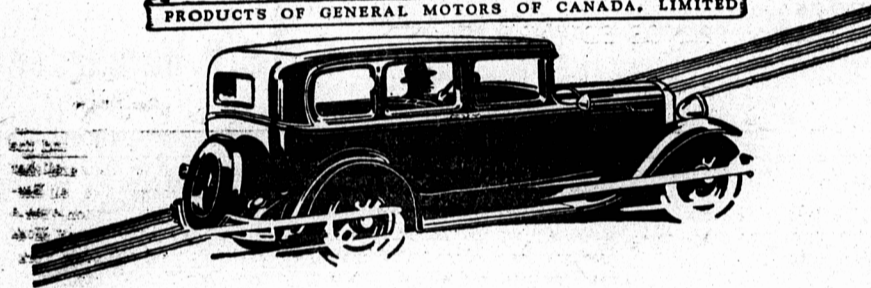

McLaughlin-Buick has won and held its remarkable popularity solely because it is a better car than any other at or near its price. And Marquette is marked by the same recognized McLaughlin-Buick qualities of performance... sturdy endurance... and high value.

You owe it to yourself to see and drive the McLaughlin-Buick or Marquette that best meets your requirements. At the wheel of McLaughlin-Buick you will discover all that has been accomplished by such advances as the new Frictionless Steering Gear with Road Shock Eliminator, the new double-acting Lovejoy Shock Absorbers and the improved Weather-proof Mechanical Four Wheel Brakes. And at the wheel of a Marquette you will experience the thrill of performance that has never hitherto been approached in the moderate price field.

The demonstrators in our showrooms are at your service. Use them. And, should you so desire, use also the G.M.A.C., General Motors' own deferred payment plan, to facilitate your purchase.

It is natural to want the best. Public preference invariably follows the arrival of a superior product.

And there is a best. Always, there is some manufacturer unwilling to be satisfied with an average result.

In motor cars, one manufacturer who insists upon a superior product is Nash.

No manufacturer has finer facilities to produce fine cars than Nash. None lays down any more rigid standards for materials and craftsmanship.

The Twin-Ignition Eight, the Twin-

Ignition Six, and the Single Six represent three cars in three popular price fields as fine as money can build or buy.

CHRYSLER

**Chrysler does on the road
what others do on paper**

ONE RIDE in a Chrysler quickly clears up all confusing claims about motor cars. The dictionary is everybody's property. Words are free. On paper it is a common thing to see motor car performance referred to as "dashing" and "amazing" and "thrilling"—but a ride in a Chrysler quickly proves that Chrysler performance is the real thing. Don't take your ride on paper—but on the road. Get behind the wheel of a new Chrysler and let the car supply its own adjectives. Let a Chrysler show you the vast difference there is between merely claiming fine performance and actually having it. It's the unmatched quality of Chrysler performance—it's the fact that Chrysler does on the road what others do on paper that keeps Chrysler firmly in its leadership. Don't let high-sounding adjectives mislead you.

The Queen manages to pass almost unnoticed on her shopping expeditions in London for there is nothing to distinguish the Royal Car from any other. It is a dark shade of green with out any crest or coat of arms and the chauffeur and footman are in plain liveries to match.

Mr. J. A. Clark, M. S. A. of the Experimental Station spent the last week end with Mrs. Beverley Sheerwood in Ottawa.

Mr. J. A. Moore, who is at present in the P. E. I. Hospital, received many kind messages and remembrances on Thursday on the occasion of his birthday.

Mrs. F. J. E. Wright entertained very pleasantly at bridge at her home in Summerside this week.

Mrs. Walter Callbeck gave a charming little bridge party for a few of her friends at her home on Spring Street, Summerside on Tuesday evening.

Senator and Mrs. John McLean of Souris entertained in Ottawa at luncheon Monday in honor of Major and Mrs. T. A. MacLean, of Antigonish, N. S.

The Misses Marjorie and Evelyn Green Ottawa, entertained delightfully at bridge and tea Thursday afternoon for a number of seasonal visitors in the city. Mrs. Benjamin Rogers, Jr. of Summerside presided at the tea table, which was prettily adorned with a silver basket of Spring flowers and pink tapers and the tea was set by Miss Marjorie Sanderson.

You should let some of your hair show beneath your hat this spring. A little right in the middle of the forehead and a little down over the ears. But don't show too much. A

little is plenty. Transparent horsehair braid and lacy hats are to be had for dinner wear this spring. If your hair is golden, get one. Nothing could be prettier than gleaming hair showing through a transparent crown.

Dressy two and three eyelet oxfords are very good with the new dress-maker suits, classic pumps are good if you can wear them comfortably.

The georgette blouse is back, with neck ruffles and frilly details for wear with either blue or black suits.

A white chiffon blouse for an older woman has narrow tucks that run vertically to fashion a little front vestee.

Vionnet uses red suede for a young girl's spring coat, making it with fitted lines and an effective gray fox collar.

A semi-sheer green crepe suit has three-quarter sleeves that have puffs of the blouse's sleeves coming out from under them.
