

New Hair
 Ayer's Hair Vigor makes the hair grow because it is a hair-food. Feed the hair-bulbs, and the hair grows. That's nature's way, and that is all there is to it. Strong and healthy hair stays in, keeps soft and smooth, and grows thick as a heavy. Then aid nature with Ayer's Hair Vigor. A little of it often does great things. There's genuine comfort in a handsome head of hair!
 J. C. Ayer & Co., Lowell, Mass.

SATURDAY Subscribers can tell when their subscriptions expire by the date on label. To avoid the loss of an issue please renew one issue before expiring date as the paper will discontinue promptly. The Saturday issue is only 30c per year.

An Advertising Agency has been established in connection with this paper. Thus any persons or firms desiring advertising in any newspaper outside of this city, are having same placed by The Guardian. They can thus secure the same rates as if they placed their order direct, and have each advertisement checked to see that it gets the proper number of insertions and appears as desired.

In a recent number of the Montreal Illustrated Standard, there is a large picture group of members of the gymnastic classes of the Charlottetown Y. M. C. A. photographed by J. A. S. Bayer of this city. The picture was taken in the Y. M. C. A. Gymnasium at the close of the basketball season in April last. Judging from the activity around the Y. M. C. A. and the number of young men joining this fall, every way points to a most successful fall and winter season's work in all departments.

BIRD LIFE, their homes and habits is an intensely interesting study, and yet many know very little of it. Frank Edgar Johnson of Youkers N. Y. who has spent two summers on the island studying our bird life, and who has spent 30 years in studying birds and secured a collection of over 1000 stuffed birds, will lecture in the Y. M. C. A. Hall next Tuesday night on experiences in P. E. I. bird life. Mr. Johnson has secured photographs of over 40 species of our birds in their natural haunts. These will be given by stereoscopic Tuesday night with an interesting account of the homes and habits of the birds. In order that no one may be barred on account of the price, the Y. M. C. A. have decided to only take a silver collection.

It is always a pleasure for The Guardian to note success in any line of work but when that success is achieved by a Charlottetownian the pleasure is all the greater. Seven years ago Harry Ritchie, son of Geo. W. Ritchie of this city entered the Bank of Nova Scotia as a clerk, and today he is manager of the Antigonish N. S. branch of the same institution. He remained four years in the Charlottetown office, and three years ago was transferred to St. John's, Nfld. Less than a year and a half later he was ordered to Montreal, remaining there until a few days ago when he was summoned to the Chicago office. This was however but temporary as the services of so capable an official were required in Antigonish whither he went last week. Harry's rapid promotion is the result of his faithfulness, honesty and constant application, and all young men can be just as successful if they care to do likewise. He works early and late, ever mindful of the interests of the institution with which he is connected, and never taking pleasure until he has accomplished all that he possibly can in connection with each day's duties. His many friends everywhere will rejoice with him in his deserved success.

KING'S COUNTY readers of The Guardian should not fail to read the first instalment of Mrs. Brooks' article on the settlement of Murray Harbor, which appeared in the magazine page of last Saturday's Guardian. This paper was read at the recent celebration held by the descendants of the Brehaults. The article will be concluded in next Saturday's Guardian.

YOU MAY BE SICK TO-NIGHT.

Without a moment's warning pain springs upon us. At the outset it is instantly cured by Nerviline. Surprising what fifteen drops of this marvelous medicine will do. It's external action is so less certain than its wonderful effect when taken internally. Of course Nerviline is powerful or it couldn't be so penetrating. But not irritating or caustic. There are other pain remedies, but when you use Nerviline you see the difference. The difference is this,—others relieve, but Nerviline does cure sprains, strains, swellings, earache, toothache, neuralgia, lumbago, in fact all muscular pains. Large bottles 25c at all dealers.

More pretty dress trimmings have come to hand this morning and we shall be very pleased to show them to you.—MOORE & McLEOD. 10-11dim
