Record Altitude In Himalayas

People of a Mongolian Type Found at a Height of 10,000 Feet - People Not Much Above Animals in Many Respects.

PARIS, May 13.-Dr. and Mrs. Bullock Workman, well-known for their explorations at the great altitude, are now in Paris on their way to London from India, where they made an effort to unveil the mystery of the Himalayas. "Last summer," said Dr. Workman, "we camped at the highest altitude attained by man, 21,303 feet. This was in the unexplored Minkam range in the province of Sura, Kashmir. From our camp on a snow plain, surrounded by seven towering peaks, we ascended to a height where I stopped to take photos, as the mist was increasing, while Mrs. Workman climbed to a peak 23,300 feet above the level of the sea."

AFRICAN WONDERS BEEN REVEALED

LONDON, Eng., May 14.-More of Africa's hidden wonders are explained to the outside world by Mr. H. Vischer, one of the Protectorate residents in Bornu, who has just journeyed across the Sahara desert from Tripoli to Lake Chad. In the mountains of Gharjan, he told a Reuter's correspondent, he found people living in subterranean dwellings. Their entrances 10 yards long and one yard broad he came upon a square courtyard, which was in reality a great hole open to the sky. Upon all this the rooms and stables converged. The rooms were very dark and there were no windows, but the most absolute cleanliness prevailed. Round the courtyard was a wall protecting the dwelling underneath.

FORTY MEN MAY HAVE PERISHED

HALIFAX, May 11.-News comes from St. Pierre, Miquelon, of what is believed to be one of the great sea tragedies in the history of the unfortunate French colony at the entrance of the Gulf of St. Lawrence. Two fishing vessels carrying crews totalling forty men are believed to have gone to the bottom in the storms of April. On the 21st of April four schooners, fully manned, left St. Pierre for the fishing banks. Among the number were the Lablanche, Capt. Girardin and the Ste. Marie, Capt. Lefevre. Since then nothing has been heard of these two vessels or their crews. The other crafts returned shortly after their departure, both having encountered severe storms, in which all their gear was lost.

SOCIETY SMILES AT TALE OF PORT

LONDON, May 14.-A delicious story is going the rounds of society, making everybody laugh. But the person who made it known refuses to tell whether it concerns the Duke of Portland, Lord Portington or Lord Portman, the only noblemen whose names begin with "Port."

PAUPER'S HOME IS LIKE A PALACE

LONDON, May 14.-It cannot be said that there is any lack of solitude for the welfare of the British pauper. This fact has been strikingly evidenced as a result of the investigation conducted by the local government board in the matter of the poor law expenditure, to-day it reached a point of sheer amazement during an inquiry, at the instance of the Ratepayers' Association, into the cost of the new workhouse and infirmary in the London borough of Hammer-smith.

MADMAN ATTACKS PRIEST ON ALTAR

PARIS, May 11.-A despatch from Maureillas, in the Ceres district, to the Temps gives an account of a startling incident which occurred in the village church. Just as the mass was about to begin a peasant, named Peyfavi, who had come mad, rushed into the church bearing a four-pronged fork. He made for the altar, with the evident intention of attacking the priest, Abbe Pia.

ADVERTISING IS BROAD.

Advertising in itself means publicity and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupier of space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagant.

PORTUGUESE FIND HIDDEN TREASURE

LONDON, Eng., May 14.-The recent earthquake tremor in Portugal has been responsible for a remarkable find of wealth. At the fishing village of Nazareth, in the province of Estramadura, the earth tremor was followed by a tidal wave. The latter washed away great portions of the shore. When it had receded, to their astonishment and delight, the villagers found the ground strewn with a multitude of treasures.

\$5,000,000 For Fast Service

Laurier's Imperial Road - Making Scheme Will Cost This For Ten Years Proposal To Colonial Conference Endorsed - Committee Appointed.

HARD LUCK OF SYDNEY GIRL

North Sydney, May 11.-Fire tonight was discovered in a trunk which contained the wedding trousseau of Miss Nellie Brochie, of the Brochie. The fire is believed to have been caused by a spark from a flue which passed through the room. Very little damage was done beyond the furnishings in the room.

Of this a total of \$2,250,000 is said to be allocated to the Atlantic service. British ministers, especially Mr. Lloyd-George, express themselves as most sympathetic towards the general end in view, and ask time for consideration of the details. They attach the greatest importance, as Sir Wilfrid does, to the fact that Lord Strathcona, with his large experience and Canadian business associations, is himself prepared to stake \$300,000.

No particular port or contract enters into the proposals at the present stage. Both Lord Strathcona and the Canadian administrators make it clear they are committed in no shape or form to the Blackfoot Bay or Galway or any other scheme. Their only immediate concern is to secure adequate state support upon the basis of which the contractors may work to provide what is essential, namely, a service at least equal to anything on the New York route, which shall bring England within four days of Canada. And twenty days of Australia via Canada - and also greatly lessen the time to the Orient.
