DECK BUSTLES WITH FLOWERS

HOLLYWOOD, April 5 —As if things weren't bad enough already, comes now Ilyana — that's all, just Ilyana — Beverly Hills' dress designer who predicts that the newest style will be bouquets or potted plants in milady's bustle. That's what she said, in the bustle

She said bustles ever now are being manufactured with receptacles to hold fresh flowers, or even greenery. Ilyana seems quite pleased about it.

"Flowers and ferns worn in the bustle will call attention to skirt detail," she said, approaching the situation conservatively.

NOAH'S ARK

The first ship of which we have any description was Noah's ark. Assuming a cubit to be 18 inches, the ark was 450 feet long, 75 feet wide and 45 feet deep.

Annear and Llewellyn restaurant was the scene of a lovely hockey girls banquet with Misses Rena Reynolds, Charlotte Fraser and Rose Llewellyn as guests of honor. Gifts were tendered the three R.N.'s who are employed at the King's County Memorial Hospital. The girls will shortly be leaving for British Columbia where they have accepted employment. The banquet, which took place in the beautifully decorated dining hall, was attended by all the members of the girls hockey team and their guests. The girls have had a very successful season, and have provided the fans with a great deal of enjoyment during the year.

The funeral of the late C. Herbert Poole, who passed away in the King's County Memorial Hospital early Thursday morning, was held at the United Church Saturday afternoon, April 3rd, with Rev. A. S. Adams officiating. The late Mr. Poole was formerly a resident of Lower Montague for many years, moving to Montague a few years ago. He was beloved by all who knew him for his geniality, quiet companionship, and love for his fellow-man. The church was filled with those who had come from near and far to pay their last respect to a dear departed friend and relative. During the funeral service the choir rendered Unto the Hills and Rock of Ages. A solo "In the Sweet By and By" was beautifully rendered by Mrs. William Garrick. Besides his sorrowing widow (nee Etta Thompson), he leaves to mourn two daughters, Miss Martha Poole, Charlottetown and Miss Bessie Poole, Montague. The pall bearers were Messrs. A. C. MacKay, A. P. Campbell, Clarence White, John Annear, Chessel Annear, and William Johnston. Interment took place in the Montague Community Cemetery.

Travel on the Montague ice has been quickly brought to an end with the river now being open to Shaw's point from the new bridge. Some crossings are still being made near Lower Montague, but travellers are becoming more wary as all are aware that the ice is by no means safe. This has been made amply clear on the break through of one horse giving the owner a great deal of difficulty in extricating him. Travel on the main highways for heavy vehicles has been stopped, but all bus schedules are being carried on by lighter vehicles. The dirt roads provide very difficult travel since the roads are muddy and washed out in deep ruts, but farmers are expecting this situation to be remedied in the near future. Government snow plows have been called in, and it is hoped that the road scrapers will soon make an appearance to lessen travelling difficulties.

Enthusiastic fishermen in this community are busy getting rods, reels and tackle ready for the opening of the fishing season which opens the middle of April Last year the season opened with some splendid catches, and bets are already being laid on the line on this year's catch. Although in some provinces the fishing season has already opened, there is some discussion here for a later opening of the season, and the two weeks extended in September. Fishermen feel that this would give them two weeks of ideal fishing rather than trying to reel in a trout with half-frozen hands. However fishermen are looking forward to the beginning of the season and soon the typical fisherman's tale of "the big one that was lost" will be heard coming from all sides.—Lan.

NOT SMALL NATION NOW

PRAGUE, April 4—(CP)—Premier Klement Gottwald said Saturday that Czechoslovakia has ceased to be a small nation.

"We have become an essential part of a Slav fraternity of 250,000,000 persons, so in international affairs attained a position of great strength and dignity," Gottwald told a youth council meeting.

TRURO, N. S., April 4 — (CP) — A verdict of accidental death was returned by a coroner's jury today in the case of William Foster, 41, who died in hospital a week ago from stab wounds in the throat.

Mrs. Foster testified that her husband had attacked her in bed with a butcher knife after he had wakened from "a drunken sleep." He had threatened "to cut her heart out."

Foster had slipped on the floor and had fallen against the knife.

Mt. Stewart

Mr. Charles Bradley, St. Teresa was on a business trip to Mt. Stewart Friday. —Mt. Stewart.

Dr. Roach has returned to his office in Mt. Stewart having spent a week visiting his parents in New Glasgow, N. S.

Mrs. Allen Swan has returned to her home in York having spent a few days with her mother, Mrs. Lloyd Jay.

A welcome visitor to Mt. Stewart Friday was Mr. Elmer Farnell of Amherst, N. S. Mr. Farnell is an uncle to Miss Audrey Farnell, well known singer. Mr. Robert McKay was with Mr. Farnell.

The fishing season is coming around despite the cold weather and fishermen are busy building traps and repairing nets. There is still heavy ice off the North Side. The fishermen in this district are very handicapped by the lack of refrigeration. There is a time in the month of July and August when bait is not obtainable and the fishermen have to land their gear, and look for employment elsewhere. If there was a central plant in Mt. Stewart especially for bait it would do away with this trouble. A lot of fish imported from Nova Scotia and elsewhere could then be landed here at the plant and bought here and would also give employment. Interviewing several of the shippers in Mt. Stewart and vicinity they stated that the refrigerator car situation was anything but good. They intimated that there were hundreds more applications for cars than there were cars avilable for the shipping of Prince Edward Island products. There was an acute shortage last fall but near the end of the year and early in January it had cleared up. Shippers claim that with milder weather coming on now they will be able to ship in the ordinary box car but will have to paper the walls and doors and put about two feet of straw over the car floor to protect the potatoes from draft.

SHY AND SLOPPY

Franz Schubert, although a great composer, was prevented from attaining real success because of his excessive shyness and Bohemian slovenliness.

COURAGE, HEALING, LIFE ITSELF... TO OTHERS

Worthy indeed of generous giving is the nation-wide work of the Canadian Red Cross. There are many thousands of ill and disabled veterans needing comfort and courage . . . isolated Canadian communities depending on Red Cross Outpost Hospitals . . . men, women and children needing life-saving emergency blood transfusions. And these are but a few of the deeds of mercy *you* do when you give to the Red Cross.

TWO EXERCISES TO SLIM WAIST

Does your waistline measurement tally with fashion's new tiny-waisted look? If it doesn't, get rid of those fleshy pads around the waist which defeat smartness.

Calculated to do the trick are these two exercises:

One is the "barrel roll." For it, you lie on your tummy on the floor with legs and arms outstretched Now, the trick is to lift shoulders and move arms sideward and backward as though you were swimming the breast stroke. But for this waistline-trimmer, you raise legs from the knees, grasp toes with your hands, and rock back and forth.

Do this exercise an increasing number of times each day.

For the second waistline-whittler, sit on the floor with legs outstretched and lean on your hands with arms back of you.

Bringing your right arm forward, touch left toes and swing arm back to position. Then, while supporting your weight with your right hand, bring your left arm forward and touch your right toes with your left hand.

Do this exercise 10 times at first and daily increase the count.
