TEXT OF RESOLUTION

Whereas from Press reports it has been brought to the attention of the Charlottetown Board of Trade that a resolution of the Pictou Municipal Council has expressed dissatisfaction with the proposal of the Federal Government to establish a ferry service between Caribou in Pictou County, Nova Scotia and Wood Islands in Queens County, P. E. I.

And whereas the Government of this Province by unanimous resolution of its Legislature endorsed the proposal;

And whereas this Board of Trade has also expressed approval of the proposal and hereby again places itself on record as supporting the project;

And whereas by supporting the proposed new service Charlottetown will be deprived of the existing direct connection with Pictou, and thus stand to lose certain advantages; nevertheless this Board feels that the matter should be looked at from the standpoint of the greatest good to the greatest number;

And whereas the short water trip made possible by the proposal will facilitate traffic between the two provinces by avoiding several round trips per day at a fraction of the cost per car and per passenger of the existing service and thus make it possible for freer and more satisfactory exchange of goods, products, and a greater opportunity than heretofore provided for our people to get acquainted, and thus promote the mutual good will that should exist between the peoples not heretofore prevailing because of the difficulty and expense of the trip;

And whereas the existing Charlottetown-Pictou Ferry because of its cost and inconvenience was really supplying an extremely limited service, as can be readily seen by an examination of the records of the traffic handled;

And whereas it is quite reasonable to assume that a ferry such as now proposed with rates based on the rates for autos and passengers with those in effect on the Borden-Tormentine route, and with three round trips or more each day that the traffic increased many times the existing traffic;

And whereas this traffic will be new traffic either landed or embarked in Pictou County it is difficult to see how it should be unwelcome there;

And whereas at present there is absolutely no truck movement of commodities between this Province and Nova Scotia;

And whereas the proposed ferry will make it possible for the people of Prince Edward Island to take by this route the surplus produce now shipped by other routes to Nova Scotia, and for the merchants and dealers of Nova Scotia to send to Prince Edward Island their supplies which we now buy elsewhere, and both provinces profit by the freer exchange of products. It, therefore, seems unreasonable that the Municipal Council of Pictou County should attempt to prevent the development, on the ground that the farmers of Pictou County would find their markets destroyed; such a conclusion were correct, it is only evidence, we submit, to prove the need of just such a service as is proposed, and further it would prove real benefit to Prince Edward Island, and also to the consumers of Pictou County and elsewhere in Nova Scotia;

And whereas it would seem that another reason why the Pictou Municipal Council feels called upon to condemn the project is that "it will create a harbor where none now exists";

And whereas there is in this statement a very important truth, and one which without any further elaboration will fully justify the undertaking, because successive

Bennett Charges

(Continued from page 1)

"I can give you as many as you want," retorted Mr. Bennett, "but I am not going to do it now. What is more, I know of levies being made in connection with the Canadian National Railways."

"That was under a Manion," shouted a back-bench Liberal, referring to the Conservative Minister of Railways.

"No, it was not," shot back Mr. Bennett. "It was in the last few months. Let us have no misunderstanding about that."

"The leader of the Opposition," interjected Mr. Howe, "has said either too much or too little. These must be threshed out."

"It can be threshed out anytime you want," retorted Mr. Bennett, "and before any committee of this House that you desire to go into the matter."

The Conservative leader led off the address late today after the address in reply to the speech from the Throne was moved by J. N. Francoeur (Lib. Lethbridge) and R. M. Warren (Lib. Renfrew North.)

The Rowell Commission

The Rowell Commission came in for criticism from the Conservative leader who said he had been opposed to it from the start. He stated that the Rowell Commission which undertakes to re-define (Constitutional) powers being composed of members of one shade of political opinion.
