

Don't Experiment

Diarrhoea and Dysentery are too dangerous for you to trifle with untried remedies.

Refuse any of the dangerous or worthless diarrhoea compounds that may be offered you instead of Dr. Fowler's Extract of Wild Strawberry

Dr. Fowler's Extract of Wild Strawberry for the past half century has had phenomenal success in curing Diarrhoea, Dysentery, Cramps, Cholera Morbus, Summer Complaint, and all kinds of complaints of young and old.

Both the medical profession and the people have given it their endorsement as the only reliable and safe remedy for these distressing diseases.

There are some unscrupulous persons, though, who hope to profit by the merit and popularity of Dr. Fowler's Extract of Wild Strawberry. They put up a so-called "STRAWBERRY COMPOUND," and sometimes succeed in selling it to druggists and general merchants representing it is the genuine. Even the wrapper is yellow in color, like Dr. Fowler's, so as to deceive the very elect if they can.

If you want to be on the safe side, if you don't want to experiment or take chances as to results, refuse any and every diarrhoea mixture or compound that may be offered you, and insist on the old reliable and genuine Dr. Fowler's Extract of Wild Strawberry, and every honest druggist and medicine dealer will give you what you ask for.

TERRIBLE SLAUGHTER IN CHINA

TRAMP! TRAMP!

The Heavy Tread of Feet!
—They are Marching for China—It's not the "Absent-Minded Beggars."

But People Who Have their Wits About them, and Know that the ONLY Place to get Real VALUE in the China Line is at

DODD & ROGERS

KRUPP'S WORKS.

Provide Work for 46,679 People.

5,000 TONS COAL A DAY

Consumed Daily in the Furnaces—Where the Guns Are Made.

WASHINGTON, D. C., Sept. 7, 1900.—Consul-General Guenther, at Frankfurt, in a communication to the state department, gives an interesting account of the great Krupp iron works, taken from the annual report of the chamber of commerce for the district of Essen. The Krupp works comprise cast steel works at Essen; Krupp steel works, formerly F. Asthorer & Co., at Annen, in Westphalia; the Gruson works, at Buckau, near Magdeburg; four blast furnaces at Duisburg, Neuwied, Engers and Rheinhausen (this latter consists of three furnaces with a capacity for each of 250 tons per 24 hours); a foundry at Sayn; four coal mines Hanover, Saelzer, Neuck and Hannibal, with interest in other coal mines; more than 500 iron mines near Bilbao, in northern Spain; shooting grounds at Meppen, with a length of 10 1/2 miles and a possibility of extension for 15 miles; three ocean steamers, several stone quarries, clay and sand pits, etc. In addition, the firm of Frederick Krupp operates the Ship and Machine Stock Company, Germania, at Berlin and Kiel, under contract.

The most important articles of manufacture of the cast-steel works at Essen are cannons (up to the end of 1899, 38,478 have been sold), projectiles, percussion caps, ammunition, etc., gun barrels; armor plate and armor sheets for all protected parts of men-of-war, as also for fortifications, railroad material, material for shipbuilders, parts of machinery of all kinds steel and iron plates, rollers, steel tools and other purposes.

The steel works in 1899 operated about 1700 furnaces, forge fires, etc., about 4000 tool and work machines, 132 steam hammers of from 200 pounds to 5000 metric tons force, more than 30 hydraulic presses (among them two of 5000 tons each, one of 2000 tons and one of 1200 tons pressure), 316 stationary steam boilers, 497 steam engines, with an aggregate of 41,213 horsepower, 558 cranes of from 400 to 150,000 tons lifting power. During the last year the iron mines yielded an aggregate of 1877 tons of ore per day.

The coal production from the mines belonging to the Krupp Company (excepting the Hannibal) amounted, on an average, to about 3738 tons for every working day.

The consumption of coal and coke in 1899 as follows: In the cast steel works at Essen, 952,365 tons, in the other works and on the steamers of the company, 622,118 tons in all, in round numbers 5000 tons per day. The consumption of water at the cast-steel works in 1899 was 15,018,156 cubic meters, which equals about the consumption of the city of Frankfurt with 229,279 inhabitants. The consumption of gas in the steel works at Essen was 18,536,050 cubic meters in 1899.

The electrical power plant of the works at Essen has three machine houses with

Mania for Operations

Among the Doctors. No Need of the Knife to Cure Piles. A Surer, Cheaper Easier Way, Dr. Chase's Ointment.

Dread of the surgeon's knife causes multitudes of people to suffer on year after year with piles, when they could be cured without risk, expense, or danger of an operation by using Dr. Chase's Ointment, the only preparation guaranteed to cure any case of itching, bleeding, or protruding piles.

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:—"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I used three boxes, and am almost entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Dr. Chase's Ointment is the only positive and actual cure for every form of piles, 60 cents a box, at all dealers, or Edmondson, Bates and Co., Toronto.

six distributing stations, and supplies 877 arc lights, 6724 incandescent lamps, and 179 electric motors.

For the traffic of the works, railroad tracks of standard gauge of about 36 miles are laid, which connect with the tracks of the main railroad station at Essen. Sixteen locomotives and 707 cars are operated on the grounds. In addition, there are narrow-gauge tracks of 28 miles, with 26 locomotives and 1209 cars.

The telegraph system of the steel works has 31 stations, with 58 Morse telegraphic instruments and 50 miles circuit. The telephone system has 328 stations, with 335 telephones and a circuit of 200 miles.

On April 1, 1900, the total number of persons employed in the different works was 46,679, viz: 27,462 at Essen, 3,475 at the Gruson works at Buckau, 3,450 at the Germania works at Berlin and Kiel 6,164 in the coal mines, and 6,123 at the blast furnaces and on the testing grounds at Meppen, etc.

PRINCE EDWARD ISLAND

And its Attractions to Tourists.

Prince Edward Island's summer climate is delightful, and the scenery is beautiful and quietly picturesque. Surrounded by the Gulf of St. Lawrence, it enjoys all the coolness of the sea breeze, and the advantages that can only be derived from sea bathing, at about 65 degrees.

Charlottetown has over 12,000 inhabitants, and is the capital. It has many great retail stores, besides a large wholesale trade. It has a Gas Light and Power Company, two Electric light plants, and a street railway in embryo. It has a first class water works and sewerage system. It is famed for its wide and shaded streets, its many pleasant drives, the principal of which is the new Park Boulevard, its attractive surroundings, pure water and clear, cool and bracing air. It is widely known as one of the healthiest cities in Canada. It has two hospitals, many churches and a large and elegant new Opera house. It also has several fine public buildings and a market which is one of the chief sources of the citizens' here. It has one of the largest and best equipped pork-packing establishments in the Dominion. On its west side Victoria Park—a favorite summer resort—while on the east are the magnificent new Exhibition Buildings and Driving Park. Chief among its public squares is Queen Square in the centre of the city, beautifully laid out with blooming plants of every description, fountains, and well arranged walks, and enlivened with a band of music during the summer evenings. The rural scenery in the vicinity of Charlottetown is charming, and horses for driving are abundant at very low prices. Boats can also be hired, and steamers run regularly on the bays and rivers, affording most pleasant excursions. The principal hotels are Davies, Queen, and Revere.

Summerside has about 3000 inhabitants. It is situated on beautiful Bedouque Bay. It has the largest and finest departmental store in the Maritime Provinces, besides having other large retail stores. It has an Electric Light Plant, and a water works system and sewerage are being agitated. The hotels are—Clifton, Queen, Russ Strathcona and Campbell.

Georgetown and Souris have a population of about 1,000 each. In the former are the Aitken, and Tapper hotels and in Souris the Sea View.

At Cape Traverse, a very pleasant summer resort, is the Landsdowne hotel; in Alberton, the Albion Terrace and Wisner; in Tignish the Railway and Bellevue; in Kensington, Clark's and Commercial; in Montague, McDonald; and in Mount Stewart, Clark's and Manson's.

The following hotels open for the summer season: At Hampton, Pleasant View; at Stanhope, Mutch's and Cliff; at Brackley Point, Shaw's; at Rustico, Sa side; at Malpeque, North Shore; at Tracadie Beach, Acadia; at Alberton, Seafort; and at Powna, Florida.

In addition to those already mentioned there are other towns and villages in the Province with hotel accommodation, while many farm houses prepare for the reception of tourists. The rivers and streams teem with trout, the bays with mackerel, while game of every description

Botha May Take His Seat.

CAPE TOWN, Sept. 7.—The attorney-general, after considering the evidence in the case, has declined to prosecute Mr. Botha, the colleague of Mr. Sauer, ex-commissioner of public works, on the charge of high treason. Mr. Botha will now attend the sessions of parliament.

A TINY HEROINE.

Dragged Heavy Ties Off the Track.

SAVED TRAIN WRECK.

Wheels Cut Off Her Fingers and She Fainted—Passenger's Gratitude

NEW YORK, Sept. 10.—Nine-year-old Katie Cecco, of Bound Creek, N. J., is a heroine. In saving a fast express train from being wrecked on the Lehigh Valley trestle, near the Bound Brook Woolen Mills, she lost four fingers from her left hand, and her right hand was badly crushed.

Several little girls had been gathering sticks of wood and worn out railroad ties and had piled them across the track of the Lehigh road Saturday morning. Little Katie was one of the girls. She heard the whistle of the 8 o'clock express coming up the long grade to the west, and she thought that there would be a wreck nerved her to action.

The ties were piled on the rails of the bridge near the end. There was not a moment to lose. With her little arms she pulled one after another of the sleepers from the track and threw them into the water.

STUCK BRAVELY TO HER TASK.

Her companions shouted frantically to her to run, but she paid no attention. There were two more of them, and the engine was not more than a hundred yards away.

The engineer had seen her but could not tell what she was doing. Now as the train going at high speed was almost upon her he saw what her brave work meant. His hand that grasped the whistle hesitated.

The girl had one of the last tie in her little arms, and was pushing it off the rails. If he blew the whistle now it might frighten her into dropping the tie and a few seconds after the whole train with its load of precious lives might go over the bridge to death.

It was their lives or hers, as the engineer looked at it. He caught sight of the little girl's white face as the end of the log went over into the water, and then he shut his eyes.

As the great engine swept over the spot the engineer heard a faint cry. He had already reversed the engine, and the train, came to a stop and backed to the bridge.

MAIMED BY THE WHEELS.

With wonderful presence of mind the child had thrown herself flat on the outer edge of the ties, but had instinctively grasped the rail with her hands to keep from falling. The wheels of the engine had cut off and mangled the fingers. The little girl now stood up and walked off the bridge to the embankment, where she was met by the sympathetic passengers and the engineers.

A purse was made up, and some of the men walked with her to the woollen mills, where the employees came out and bound up her hands. Then the train went on. She was carried home in a faint and physicians dressed her wounds.

The little heroine sat up in bed and told her story to a World reporter yesterday. Her father, Louis Cecco, is out of work and the child was collecting firewood. Many called yesterday to see her, and Bound Brook is proud of her bravery.

TWENTY YEARS STANDING.

Trouble of a Norwich Farmer who was Relieved by Dodd's Kidney Pills.

NORWICH, Sept. 10.—For twenty years Mr. Wilbert Woodward, of Willow Dell, has suffered with backache. He grew so feeble that he was confined to his bed two days out of a week. His farm suffered for the lack of the eye of its master, and Mr. Woodward made every effort to find a cure for his trouble.

He says "I tried everything I ever heard of, but no cure. Last fall I heard about Dodd's Kidney Pills, and I bought three boxes of them from Mr. Bannon, of Norwich, and I am happy to say they have done me more good than all the other medicines put together that I got from the doctor. My wife takes Dodd's Kidney Pills also, for lame back and rheumatism and finds them grand. I hope any persons suffering as we did will try these remedies. I would willingly pay two dollars a box rather than be without Dodd's Kidney Pills in the house."

A 5 cent plug of "Patriot Twist chewing tobacco is 20 per cent larger than formerly

What's The Price Of this Hat?

Was the question asked of one hat man by a gentleman who stepped into our store yesterday. He had picked up one of our beautiful new 'Christys' and was examining it.

\$2.00 SIR

Answered the clerk. Well, well, well, have you got one to fit me? Oh, yes sir, here it is, as the clerk handed him a size 7.

IT FITS PERFECTLY

Said the gentlemen. Our hats always do, answered the hat man. Well send it up and here's your \$2.00. I just saved 50c on that hat. We know it, answered the hat man, in fact all our customers do the same.

NOW A QUESTION.

If the gentleman saved 50c and we made 25c, how much profit does our competitor who sells the same hat at \$2.50 make; you'll answer 75c, of course. Oh, but he doesn't, because we buy them cheaper than he does—See the point?

We sell swell Hats.

We buy them cheaper than others can.

PROWSE BROS.,

The Stylish Hatters.

BEST BUY IN ROSSLAND

Big Four

Consolidated Gold Mining

Company.

Non-Assessable, and Non-Personal Liability. Capital \$250,000, in Ten Cent Shares. Four Claims, all Crown Granted, with No Debts or Liabilities. One Mile West of Rossland. Over 600,000 Shares in Treasury for Development.

The Properties of this Company are situated directly west and 600 feet lower in elevation than the famous Le Roi No. 1 and Le Roi No. 2 that are now shipping 10,000 tons a week. The Workings consist of a Shaft and Two Tunnels, driven to tap the ore body on three separate and distinct veins. No. 1 Tunnel on this vein is over 100 feet, and No. 2 Tunnel on this vein has reached a depth of 112 feet, with three and one-half feet of shipping ore in sight, and forty feet of the ledge to cross-cut. The ore is identical with the Le Roi ore, the High-Grade Gold Cooper Ore of the camp. The No. 3 Vein has been opened in five places for 2000 feet, which dips to the L. X. L. ad-junction, which is now shipping the highest-grade ore in British Columbia. Several buildings are on the ground, with two blacksmith shops and large boarding house, etc., with water and timber in abundance.

Our assays have averaged from \$5.00 to \$800 in Gold, Copper and Silver; and the shipping facilities are the best. The Great Northern Railway run three times through the ground, three smelters close at hand, and reduced charges of \$4.50 per ton for shipping and smelting, and we are now ready to start shipping ore.

The shares in this Company have been strictly pooled, and we will issue Pooled Receipts only until the Pool is dissolved. We need money, and will send you 100 shares for \$7.00, 1,000 for \$60.00, 5,000 for \$275.00, and 10,000 for \$500.00. Address
