UIGG, CROSS ROADS, ALEXANDRA.—Services for Sunday, October 30th. Uigg 11 A. M. Cross Roads 3 P.M. Alexandra 7.30 P.M. The evening service at Alexandra will be a roll call service and the soloists will be Alecia Jenkins and Sue Jones. Lic. Byron Howlett, Minister.

ENGAGEMENT ANNOUNCEMENT. — Mr. and Mrs. Stanley Baker, Murray Harbour, wish to announce the engagement of their daughter Nettie Pearl to Newton, son of Mr. Newton Williams and the late Mrs. Williams, Murray Harbour. Marriage to take place in the near future.

A.Y.P.A. MEETING — St. Paul's A.Y.P.A. opened their meeting on the 26th, with the hymn, Youth of the World Arise, and prayers which were led by Mary Myers. A short business meeting followed which closed with the singing of "Onward Christian Soldiers." The minutes of the last meeting were read by Ann Worthy, and the Treasurer's report given by David Wood. Members were reminded of the Rally to be held on the 28th, at which the Dominion President, Hazel Journeaux will be present; and also of the Hallowe'en Dance on the 2nd. Recreation was under the direction of Wendell MacKenzie and Jim Ibbott. Lunch was served by the committee in charge and a most enjoyable sing song followed. The meeting was brought to a close with the singing of the A.Y.P.A. song, and the Benediction. Pianists for the evening were Ann Worthy and Jim Ibbott.

"NERVES" She Called It

Losing interest—losing friends—she never went out any more—always too tired. "Nerves", she thought—but it was her kidneys—the filters of her blood—that needed attention. She used Dodd's Kidney Pills at once. The improved action of her kidneys helped to clear away blood impurities and excess acids. Fatigue, backache, headache, lack of energy disappeared. Dodd's Kidney Pills contain essential oils and medicinal ingredients that act directly upon the kidneys—and help restore their normal action. 144

The first canals in Canada were begun along the St. Lawrence river in 1799.

A Feature For Every Friday

Among The Farmers

Federation Of Agriculture News

Potato Situation

So much is being heard and said about the potato situation that it is difficult to appraise it properly.

We know that the situation is serious for those with potatoes in outside storages. We know that the situation has been just as serious in former years. We know that something should and must be done about it. We know that a floor price year after year is not the answer. Your Federation executive and potato officials met recently to discuss the whole situation but it is quite an involved question. Circumstances not only in our province but in other parts of Canada and the United States must be considered as well. All we can say is that everything possible is being done at the present time.

Dealers report that in keeping with good trading methods and in order to maintain future business with the United States markets they have had to lower their contract prices during the past week. How much, we do not know.

Also because of insufficient storage facilities, prices are being held to a minimum which today is away below the cost of production.

What Is The Solution?

Farmers are asking what can be done to prevent such recurrences of this kind in the future.

Although the situation is not exactly the same every year, nor the same with every product, we do feel that the solution is based on the same principle and that is orderly marketing under the control of the farmers themselves.

There is the Prices Support Board to take care of small surpluses.

But, this year in looking at the overall picture it is agreed by officials in the Government and the trade and farm organizations, that there will not be any surplus of potatoes in Canada and the United States.

It is also felt that there will be a greater demand than ever for Prince Edward Island seed. Therefore, the answer seems to be, more storage facilities owned and operated by the farmers to take care of surplus crops and improve grading and packaging methods, then an effective marketing set-up between at least the five Eastern Provinces to distribute those potatoes in an orderly way.

As a result of the planning and recommendations of our Federation we now have machinery and assistance available to carry out both these plans.

We have Provincial and Dominion marketing legislation under which such marketing schemes can be set up. There is also a Government policy under which storage warehouses can be built on a co-operative basis and financially assisted to the extent of 75 per cent of construction costs. The re-payment plan is based on the operating revenue of the warehouse.

The challenge now confronts our Island farmers to get together, study those different problems and organize to a point where we will have some control over this gambling and speculating in the potato business and have some say in the marketing and distribution of our products.

Planning Sessions

The leaders from the local discussion groups and other rural organizations have held several meetings during the week to make plans for starting their Farm Forum meetings with the first program next Monday night.

There is quite a revival of interest in Prince County this year, and indications there point to a very active winter along these lines.

If we really mean business about organization and getting information then Farm Forum seems to be the answer. Anyone wanting to start a discussion group in their district may get literature and information simply by dropping a line to the Federation office.

Meetings Next Week

These planning meetings are continuing tonight at Freetown Hall and Monday night at Vernon River for all the interested people and leaders of the different rural organizations in the surrounding areas.

Federation meetings on marketing and farm organization problems will be held at St. Margaret's Hall Wednesday evening and at St. Mary's Hall, Souris, Friday evening. Special speakers will be attending.

Market Reports Thursday

The Provincial Market Report sponsored by the Department and assisted with information etc, by the Federation will commence next Thursday evening at 9:00 from the Charlottetown Station. The report will be carried through this column in the press on Fridays.

Shipping Fever

Shipping Fever or Hemmorrhagic Septicemia has been causing considerable trouble in both cattle and swine this fall. Farmers have apparently been unable to get direct information about the symptoms and treatment of this disease. We have contacted Dr. Bishop and received the following information from him which we hope will be of value to our members.

He says: "This is the time of year when Hemmorrhagic Septicemia or Shipping Fever commences to take its toll of the live stock of this Province. Unless cattle have been vaccinated in order to boost their resistance to a high level, severe losses are usually experienced once it gets started.

Shipping Fever appears in a number of different forms and is quite difficult to detect in the early stages. The most satisfactory way of detecting it is with a clinical thermometer which every farmer should have in his possession and
