Great Distress in Cardiff and Mining Towns of Wales. Help Needed

(Canadian Press.) LONDON, March 13—Conference between the British coal mine owners and delegates of the strike miners, under the auspices of several members of the cabinet and presided over by Premier Asquith were resumed this morning.

In that country practically the life of the people depends upon the output of the coal mines.

In the city of Cardiff alone the chief constable reports 700 families in immediate need of relief and in all the mining towns, now that the strike pay of the miners is cut down by the mine's union, there will be need of assistance unless a settlement of the dispute is quickly reached.

It is for this reason that Roosevelt is going on the stump. His managers announced that he would not only attack the Taft administration but would outline a platform of his own, featuring his theory of the recall of judicial decisions announcing his intention if nominated to begin at once a war for more drastic labor laws to shorten the hours of labor, and a plan that will aim to ameliorate the conditions of the poor all over the country.

SAYS DAUGHTER IS ALL RIGHT IN ENGLISH PRISON.

"I would wish people would let this matter drop," he said. "Alice has committed no crime. THE BUDGET SPEECH OF 1912 READ

Hon. W.T. White Presents Statement—A Large Surplus

(Special to The Guardian.) OTTAWA, Mar. 13—Hon. H. T. White, Minister of Finance, delivered his first budget speech, presenting to the House a financial statement showing for the current fiscal year the magnificent surplus of thirty-nine million dollars.

The speech was one of the most lucid and comprehensive expositions of national finances ever given in parliament. The budget contained no special features beyond the announcement of a surplus.

There are to be no tariff changes and the steel bounties are not to be restored so far as the present session no alterations in the tariff would be considered at present.

The revenues for the Dominion are buoyant and Hon. Mr. White generously attributed a share of the credit to the late administration in power during part of last year.

The total revenue for the current fiscal year, including the estimate for the returns yet to come in is estimated more than that paid already given as \$136,000,000 and the expenditure on consolidated funds and accounts is \$97,000,000. The amount going to the sinking fund is \$1,150,000. "We have," said the finance minister.

Under the recent judgment of the judicial committee of the Privy Council the first installment of \$10,000,000 by which the G. T. P. Bond issue must be implemented must be paid. This amounts to five millions and the minister explained was to be treated as the railway subsidies has been treated and charged to capital account. \$22,500,000 will go to the Transcontinental Railway, bringing the total up to \$118,000,000.

Another hundred million will probably be needed.

Favorable arrangements were made in London in connection with refunding the loan of \$5,000,000 executed are required and will be replaced by a short term loan coming due in May. Another falls due in October and will be met. Thereafter only two loans will fall due till 1930.

A. J. McLean followed criticizing the government and claiming credit for the successful year to the Liberal government.

Supplementary estimates for the current year totalling \$2,624,769.47 were brought down by the Minister of which \$2,242,485.25 is chargeable to consolidated funds, \$18,632,000 to capital and \$198,642.27 in unprovided items of 1910-11.

Under the military and defence item \$31,319.13 is to replace articles issued for fire sufferers in Campbellton, N. B., and Porecupine, Ont.

Other appropriations include \$60,000 for improvements to Rideau Hall, L. C. B. \$500,000, Soulanges Canal \$183,632, Mail Service \$425,000.
