SPANISH PROBLEM SEEN NEAR BOILING-POINT

N. B. Plans 10 Million Public Works Program

Will Prolong Adjournment At Easter

OTTAWA, Ont., April 14 —(Special) — Prime Minister King hopes to persuade the Commons to pass both the British Loan Bill and the Canadian Citizenship Bill before the Easter adjournment three days hence.

With these two major pieces of legislation cleared away, members of the Cabinet, particularly Finance Minister Ilsley, will have more time at their disposal to concentrate on the adjourned Dominion-Provincial conference which resumes its sittings here on April 25.

Prolonging of the Easter adjournment as forecast on Saturday will not only allow members from east and west coasts to spend more time with their families, but will give federal and provincial leaders three days for deliberations without interference by sessions of the House.

Maritimers Active

Members from the Maritime Provinces have led the way this session in expediting passage of bills which have come before the House during the past month. While active on standing and select committees of parliament the P. E. I., Nova Scotia and New Brunswick delegations have taken little part in actual House debates, nor have they cluttered up the order paper with resolutions whose usual fate is, to be talked out and shelved.

Already Parliament Hill is speculating as to whether sessional business can be wound up early this summer so that members will not be forced to remain in the capital in the hot days of July and August. J. M. MacDonnell, K. C., M.P. for Muskoka, Ontario, and chief opposition financial critic has told the Government plainly that he proposed to lead a much more searching probe into government expenditures and expenses than

Future Of National Registration Cards To Be Debated

OTTAWA, April 14—Future of national registration cards which Canadians have carried since 1940 likely will be decided when Labor Department estimates come before the Commons. The estimates for the current fiscal year provide $324,625 for the expense of continuing the registration through recording new registrations of persons reaching the age of 16, changes of address and deaths.

While the registration was designed as a war measure, finding its greatest usefulness in providing a basis for military call-ups, the little certificates have acquired an unexpected use for identification purposes.

The provinces have utilized the cards in their system of controlling liquor permits, individuals have utilized them for identification when cashing cheques and police welcomed the new and more positive means of identification.

The matter, however, is expected to be the subject of some debate and there will be opposition to continuing it both on the grounds of expense and a feeling it is a form of regimentation not warranted in peacetime.

Coming Events

**Movies at Borden to-night. 2-25-M-tf.

**To arrive soon, one car of oats and one car of wheat. Wiltshire Dairying Co. 4-15-21.

**Book your orders for grass seeds and oats now. Cars arriving in ten days. Good prices. G. C. Green. 4-15-17-22-24-tf.

**Tyrone Telephone Co. will hold their annual meeting on Monday, April 15th. All interested please attend. 4-15-16-21

**Collecting Hogs for Davis and Fraser Ltd., every Tuesday. Write or phone collect. R. N. Dawson, Crapaud. 3-23, 25, 30, 1, 6, 8 tf.

**Annual Meeting Charlottetown Tennis Club will be held in City Hall, Tuesday evening, 7:30, April 16th. 4-13-21.

**Loading Hogs for Davis & Fraser Ltd., at St. Peters until train time each Tuesday. Roddie Frost. 3-18-19-17-M T S tf.

**Unloading car 2 C.W. oats today. Last car available. Also seed oats. W. Aubrey Outcliffe. 4-15-11

**Unloading car of oats today. Car of wheat to follow. J. R. Driscoll, Mt. Herbert. 4-15-11

FREDERICTON, April 14 — (CP) —Bills to authorize $5,000,000 for hard-surfaced roads, another $5,000,000 for permanent roads and $500,000 for permanent bridges were introduced in the New Brunswick Legislature Saturday by Provincial Secretary-Treasurer J. J. Hayes Doone. The $10,500,000 program will be started this year.

With the Legislature likely to adjourn Wednesday or Thursday until fall, 14 Government bills were introduced yesterday.

One would provide $85,000 for extensions to the provincial hospital at Fairville. The measure is believed to have no connection with another bill, now awaiting royal assent, to authorize $1,500,000 for new buildings for care of mental patients. The site of this new hospital has yet to be announced.

Education Minister C. H. Blakeny revealed yesterday that more than $1,000,000 will be spent on vocational education in New Brunswick during the next two years.

The municipalities committee approved a Saint John bill to impose a household tax, replace the business tax in that city with a turnover tax and increase the poll tax from $5 to $6. The committee threw out a measure to authorize sale of the market building at Saint John.

Manitoba House Is Prorogued

(By The Canadian Press)

WINNIPEG, April 14—The first session of Manitoba's 22nd Legislature—a session Premier Stuart Garson characterized as one called mainly for voting of supply—prorogued Saturday night after sitting 53 days.

While the Throne Speech forecast increased services in the Departments of Public Health and Welfare and Education, expansion of the activities of the Provincial Mines and Resources Department and extension of the rural electrification program, Premier Stuart Garson said the uncertainty of the terms of Dominion-Provincial financial arrangements had put the Government in a position "as awkward as any I can recall during my 19 years in the House."

If it were not for the fact it was necessary to vote supply, he said, he would not have called the session.

After the House voted down 36-12 a C. C. F. want-of-confidence amendment to the Throne Speech, the major debates sprang from private members' resolutions covering everything from international affairs to local problems.

One of the most heated discussions centred around a resolution by L. St. G. Stubbs (Ind.-Winnipeg) that the Legislature deplore "red-baiting" and the spread of anti-Soviet propaganda. A reference made by him to Winston Churchill as "the world's number one red-baiter was credited with assisting heavily in the defeat of the motion 44-7.

Another resolution, introduced by Wilbert Doneleyko (CCF-St. Clements) sought the abolition of the Winnipeg Grain Exchange to end speculative trading in grain futures. Disposal of human food supplies, he said, shouldn't be based on a "gigantic gambling device."

The House finally endorsed a resolution favoring the retention of both the Exchange and the Canadian Wheat Board as marketing agencies.

Joseph Cohen, K. C., of Montreal, who is attorney for Fred Rose, Labor-Progressive M. P., charged with violation of the Official Secrets Act.

250,000 Fire At Toronto Park

TORONTO, April 14 — (CP) — Fire today wrecked the big wooden grandstand at Exhibition Park with loss to offices and stored equipment in the structure of about $250,000. No one was hurt.

The stands, which accommodated about 16,000 people at spectacles held in connection with the Canadian National Exhibition, had been used for military purposes since the annual exhibition was suspended early in the war. Damage was believed chiefly due to loss of regimental supplies.

The spectacular blaze at the big park on the lake front in Western Toronto was visible from downtown office buildings three miles to the east. The cause was undetermined.

Firemen from several halls were unable to save the old structure but were kept on duty hours after the fire to prevent any new flare-ups. Three alarms had been sent in before the blaze was checked.

U. S. Car Industry Swamped With Orders

(By The Associated Press)

DETROIT, April 14—The United States car industry is being all but buried under a huge demand for new passenger automobiles.

Orders are piling up faster than cars are being made. On hand and in immediate prospect is a demand for more vehicles than the assembly lines can produce in the next two years. At the same time, thousands of cars and trucks are dropping off the road each month from obsolescence, further enlarging the demand.

Meanwhile the industry, seeking to retain a profitable export market as well as supply the big domestic need, has made only about 30,000 passenger vehicles in nearly 10 months. Every manufacturer is ear-marking a percentage of his total output for export.

If the car builders could fill the schedules they have set for the remainder of the year they probably would turn out 3,000,000 passenger units between now and Dec. 31. But few, if any of them, expect to fill the schedules. Most of them will be surprised if overall output between now and the year's end exceeds 2,000,000 cars.

Lift Price Ceilings On Long List Of Articles

OTTAWA, April 14 —(CP)— The Prices Board tonight announced suspension of price ceilings on some 12 categories of goods varying from surgical and dental equipment to certain sea foods.

The suspensions were additions to a list established Feb. 1 following an announcement by Prime Minister Mackenzie on price control policy.

Today's order removes ceilings on a lengthy list of specific articles which include a wide range of office supplies, custom-built furniture, a few minerals and chemicals, polishes, razors, household articles of cast aluminum and electric light bulbs.

Two types of services—repairing, maintenance and installation of electric wiring and equipment and welding—are removed from ceiling restrictions.

The complete list of articles on which price ceilings are removed in the new order follows:

Thermometers; barometers; magnetic compasses; caskets and casket hardware; dog sleighs; dog collars and leads;

Surgical and dental instruments, apparatus and accessories of all kinds, including sterilizing equipment of all types; physiotherapy equipment; Surgical needles; clinical thermometers; hypodermic syringes and needles of all types; X-ray apparatus and accessories; anaesthetizing equipment; glassware and other scientific apparatus for laboratory work in hospitals or clinics; surgical and dental furniture and equipment designed especially for use in hospitals or by physicians or dentists in offices or laboratories; hospital and surgical utensils of stainless steel or enamelled steel, including pus basins, urinals, bed pans, catheter trays and instrument trays, but not including kitchenware and veterinary instruments of all kinds.

Articles produced from glass tubing, but not including containers for products for resale; cements as follows: stove, roofing, linoleum; fertilizers and pesticides as follows: humus, muck, manure, sphagnum moss, peat moss.

Office supplies: Arch and clipboard files and arches for same; cups and trays for clips, sponges or pins; typewriter and pencil carbon paper but not including continuous form or fanfold; copy holders and list finders; paper clips, including florists' type; desk pads; inks pads; hand paper cutters; desk-size paper punches; paper weights; inked typewriter and business machine ribbons; hand type envelope sealers; manual pencil sharpeners; erasing shields; staple removers; hand type rubber or steel stamps; telephone indices; thumb tacks; drawing and draughting boards and draughting instruments.

Furniture: Wooden or upholstered when sold at retail and built to the specifications of the buyer and wooden medicine cabinets.

Industrial minerals when ground: mica; sapstones or talc; limestone; silica (silex or flint); feldspar; barytes and ochres.

Chemicals: essential oils and

Bracken Expands Specialists Idea

OTTAWA, April 14—(CP)—John Bracken, Progressive Conservative leader, is expanding on the idea he proposed last year of having men within his party serve as specialists in dealing with problems arising in the federal sphere of administration, it was learned Saturday.

Mr. Bracken, who last year introduced the idea of having men behind him who could reply to the Government's Cabinet Ministers, has made a switch so he will have an expert in matters of reconstruction.

Howard Green (PC-Vancouver South), who last year was the defence expert for the opposition, has been chosen to handle reconstruction. Mr. Green, a veteran of the First Great War, has been succeeded as defence expert by Maj.-Gen. G. R. Pearkes, V.C., (PC-Nanaimo), a veteran of the two Great Wars.

Other members selected to handle special departments:—

External Affairs, Gordon Graydon (PC-Peel); Justice and Dominion-Provincial affairs, John Diefenbaker (PC-Lake Centre); Veterans Affairs, A. J. Brooks (PC-Royal); Agriculture, Mark Senn (PC-Haldimand); Labor, Arthur Smith (PC-Calgary West); Trade and Commerce, Joseph Harris (PC-Toronto Danforth); Finance and Taxation, J. M. Macdonnell (PC-Muskoka-Ontario); Natural Resources, J. R. MacNicol (PC-Toronto Davenport) and Social Security and Housing, Donald Fleming (PC-Toronto Eglington).

Members of the 66-man party caucus meet regularly and discuss the legislation that is before the Commons or which is forthcoming and they decide the stand the party should adopt. As in the case of the Government, Mr. Bracken indicates his views and a common ground for discussion is established.

Liner Pasteur Back Under French Flag

SOUTHAMPTON, April 14—(Reuters) — Sailing under the French flag for the first time since 1940, the 29,253-ton liner Pasteur left here for Marseilles Saturday.

The Pasteur's maiden voyage from Bordeaux to South America was cancelled with the outbreak of war, and her first run was in August 1940, from Brest to Halifax, with French gold.

She was taken over by British authorities at Halifax and has since sailed 400,000 miles with 255,000 Allied troops. For the next two months she will carry troops between Marseilles and Dakar, West Africa.

Farm Machinery Prices Up 12.5%

OTTAWA, April 14—(CP)—Price ceilings for Canadian-made farm machinery have been increased 12½ per cent, effective Saturday, the Prices Board announced.

The board said a survey had shown that, with the swing-over from war production, unavoidable cost increases had arisen which no longer could be met without an upward revision in the retail price.

Officials said the companies had done their best to maintain production of the greatest possible quantity and variety of farm equipment. The increase should mean that the supply of vitally needed farm implements would be produced "to the maximum that materials and labor supplies permit."

The price increase will be less than half that requested by the industry. The board's announcement said the new price should be competitive with prices for similar products imported from the United States which have been free of war exchange tax and customs duties since July 1, 1944.

Following are the general categories of machines affected by the order: Planting, seeding and fertilizing machinery; plows; tillage implements and cultivators; haying machinery; harvesting machinery; machines for preparing crops for market or use; farm power machinery; farm wagons, trucks and sleighs; dairy machines and equipment; spraying equipment and dusters; domestic water system and pumps; barn and barnyard equipment and miscellaneous equipment.

Atomic Research Station In Spain?

LONDON, April 15 —(Reuters)— The Communist Daily Worker reported in a Paris dispatch today that existence of a German staffed atomic research station in Bilbao, Spain, had been "established" by information available in Paris.

In an article from its Paris correspondent the paper said that the factory, which was kept protected from all prying eyes, was built on an almost inaccessible hill, and was guarded night and day by special security police "the majority of whom the villages report to be German speaking."

The report added that some 20 miles away from the factory was the port of Solario, "which served as a secret supply base for German submarines during the war."

Presents U. N. Council With New Worry

(By The Canadian Press)

The long-simmering question of Generalissimo Francisco Franco's falangist regime in Spain came to a near-boiling point during the week-end and presented the Security Council of the United Nations with a new and serious problem.

With the Russian-Iranian crisis still before the Council, the question of Spain jumped into the forefront with new developments on the charges and denials that German scientists were working on the atomic bomb in Spain.

Although Spain is not a member of the United Nations, Poland brought the charge concerning the German scientists before the Security Council in New York. Poland charged that Spain is endangering world peace and is harbor-

New Inter-Island Steamship Company Formed Last Week

Furniture Destroyed In Fire Last Night

A fire in a garage back of 241 Grafton Street destroyed the garage and a large amount of furniture stored in it, the property of Mrs. D. R. McCormick's Furniture Exchange, Prince Street. The firemen poured water from two lines of hose on the burning building from 10.45 until approximately 11.30 last night.

At 7 o'clock yesterday evening they were called to 159 Dorchester Street, but that fire was quickly extinguished.

Torso Slaying Probe Continues

HAMILTON, Ont., April 14 — (CP)—Investigation into the bizaree torso slaying of 40-year-old John Dick entered a new phase late yesterday, when police arrested the parents of his widow, Evelyn, on charges of vagrancy and announced they are held for questioning in the slaying.

The 26-year-old widow and John Bohozyk, 27-year-old athlete, already are charged with murder in the death of the bus driver whose limbless and headless body was found by children on the Hamilton mountain four weeks ago.

Announcement of the arrest of Mr. and Mrs. Donald MacLean was made by Inspector Charles Wood of the Ontario Provincial Police. It followed a flood of recent rumors that some new development was imminent.

Inspector J. A. Thompson of the city police said the arrests were planned some days ago.

"Mr. and Mrs. MacLean are being held for questioning purposes only in connection with the slaying of their son-in-law, John Dick", he said. "We believe they may have information which is vital to the police."

The couple will be arraigned Monday on the vagrancy charges and it is expected an application for bail may be made then. In the meantime, they remain in jail.

The 61-year-old MacLean has been out on bail on a charge of theft from his former employer, the Hamilton Street Railway Company. When the charge was laid police said it had no connection with the Dick death. But in a routine search of his home during their investigation they said they found some $3,500 in street railway tickets and a considerable amount of cash.

Mrs. MacLean is 56.

Their daughter and Bohozyk are on remand until April 24 in two charges of murder. In addition to being charged in Dick's death they face another charge of murder in the death of a new-born infant whose body was found in a cement-encased suitcase in a cupboard in the home where Mrs. Dick lived.

The new steamship service between Prince Edward Island and Newfoundland will be inaugurated a month in advance of the original date set, it was announced yesterday by Mr. D. A. Clarke, Montreal, president of the Clarke Steamship Company and Quebec Airlines.

Originally scheduled to commence the latter part of May when "The Island Connector" reaches here from the Pacific Coast, Mr. Clarke found in consultation with local business men that there was an immediate desire and need to get the service under way. Montreal was contacted and the 2000 ton ship will reach here in ballast April 24, take on cargo and leave two days later for St. John's.

Capitalized at half a million dollars the Inter-Island Steamship Company was set-up here last week during the visit of Mr. Clarke. The directors consist of nine members, five of whom are from this Province. They are Messrs. H. C. Burke, Walter Hyndman, Walter Pickard, J. Andrew Likely, L. H. Poole. Other directors include Lieut.-Colonel Stanley Clarke, son of Mr. D. A. Clarke, and Mr. S. C. Annett. Two additional directors are yet to be appointed.

The firm of Buntain and Bell has been appointed local agents of the company.

"My feeling is that the new service should further develop export trade between Prince Edward Island and Newfoundland and also trade between the Island Province and the Province of Quebec," Mr. Clarke stated.

He saw possibilities of expansion in the service especially in the light of trade with Saint Pierre, Miquelon and stated that in connection with the services to Newfoundland this would be augmented particularly in the spring and fall seasons should circumstances dictate.

During his three-day visit to Charlottetown Mr. Clarke had an interview with Premier J. Walter Jones, who had been instrumental in interesting him in the possibilities of the P. E. I. - Newfoundland service.

Mr. Clarke, accompanied by Mr. S. C. Annett, left on return to Montreal yesterday.

Two Burned In Vancouver Fire

VANCOUVER, April 14 —(CP)— Two persons died in separate rooming house fires in Vancouver during the week-end.

Mrs. Earla Valair, about 24, of Vernon, B.C., a saleslgirl, was found lying in bed in her room on the second floor of a West End rooming house after the wooden structure was gutted by fire early today. She was pronounced dead on arrival at hospital. Sixteen other persons escaped unharmed.

A Chinese, Louis Yuen Yip, was found dead Saturday night in his flaming room in an East End roominhouse, with knife wounds in his throat and abdomen.

Chang Moon Kim, proprietor of the rooming house, told police he saw Yip coming down a stairway carrying a bundle of burning paper. When Louis saw him, he dashed back into his room. Chang said he was unable to follow because of smoke and flames issuing from the room. Firem quickly extinguished the blaze, which was confined to the one room.

FAVORED FISH

BERALA, Australia — (CP) — Anxious that his 600 goldfish should be well-cared for, the owner of a cottage in this New South Wales town made their purchase a condition of the leasing of the cottage. There have been several offers for the fish—said to be worth more than the £100 ($450.) asked.

Sailor Arrested For Stunt In London

Fish Holdings In Storage Increase

OTTAWA, April 14 — (CP) — Cold storage holdings of fish on April 1 were recorded at 18,437,184 pounds compared with 17,886,932 pounds March 1 and 16,719,499 pounds on the corresponding date of last year, the Dominion Bureau of Statistics reported Saturday. Stocks on April 1 this year included 17,122,661 pounds of frozen fresh and 1,314,523 pounds of frozen smoked fish.

Mobs Run Wild In Butte, Mont.

BUTTE, Mont., April 14—(AP)—One person was wounded and property valued at thousands of dollars was wrecked Saturday night and early today when apparently-organized gangs of hoodlums including some women—roamed Butte and its suburban areas terrorizing neighbors without check.

At least 10 private homes suffered damage ranging from a few broken windows to uncontrolled invasion and smashing of doors, glass, mirrors, dishes and furniture in an orgy of lawlessness that has had no parallel in this city of 40,000 or more.

The systematic wrecking which started Friday night with a few reports of rock-throwing at houses, reached its peak last night when police and sheriff's officers received more than 200 calls from persons whose homes were damaged or who were frightened by the mobs.

First "Gusher" In Saskatchewan

REGINA, April 14—(CP)— The first "gusher" well in the oil history of Saskatchewan was reported tonight from the Lloydminister field on the Saskatchewan-Alberta boundary with more than 1,000 barrels of oil recovered in the first 15 hours of production.

The well, five miles from Lloydminister on the Saskatchewan side of the border was drilled between March 2-10 and ores indicated highly saturated oil sands at 1,872 feet. It blew in when the cement plug was drilled out Saturday and brought to seven the number of producing wells in the Province. All others are pump wells.

To Remain Dominion Day For Ontario

TORONTO, April 14 —(CP)— The Dominion's national holiday —July 1—will remain Dominion Day to Ontario no matter what the ultimate fate of the bill which has been passed by the House of Commons and now goes to the Senate to change the name to Canada Day.

This was announced Saturday by Premier Drew of Ontario in an address to the Young Progressive Conservative Association of Ontario after the convention had passed a resolution condemning the proposal for the change of name.

Says Hitler's Population Plan Successful

BY JOHN A. PARRIS

LONDON, April 14 —(AP)— Adolf Hitler was "entirely successful" in his master plan for enlarging the German occupation, liquidating European Jewry, and reducing the birthrate in non-German countries, the first comprehensive account of the results of the war has disclosed.

In a 14-page report based on official Allied documents and captured German files, the international committee for the study of European questions said Saturday night that while Hitler was successful in his plans for internal Germany, the Allied victory defeated his intention to establish surplus Germans in occupied territory.

The report said that under Hitler's "breed for the Fatherland" campaign, Germany's population increased 1,566,000 during the first seven years of his regime.

It added that Hitler, in seeking to reduce the birthrate in non-German countries, was able to keep 11,000,000 to 12,000000 men and women separated from normal marriage relations for five years and was "successful to a large extent" in lowering the population in countries neighboring Germany.

More than 6,000,000 Jews, the report said, were liquidated by the Germans so that "the greater part of the Jewish population in Europe had been wiped out since 1939.

Civil Service Group Holds Annual Meeting

OTTAWA, April 14—The professional institute of the Canadian Civil Service wound up its two-day annual meeting here Saturday by passing a number of resolutions outlining its stand on matters of salary and working conditions in the service generally.

The institute elected Dr. Cecil R. Twinn, entomologist of science service, in the Agriculture Department, as president. Other officers elected were vice presidents Maj. A. R. Whittier, Dr. C. R. Johns and Dr. O. Hall, all of Ottawa, and honorary secretary treasurer W.H. Van Allen.

Sunken Treasure Galleon Located

MIAMI, Fla., April 14 — Re-discovery of the long lost Spanish trader galleon Santa Rose, reputedly with 30,000,000 in stolen Aztec gold aboard, was announced Saturday night by Erwin A. Williamson, sea diver.

Williamson said he found the coral-sealed hulk of the Santa Rose in 146 feet of water off Key West.

"We removed the three identification marks which we put on the wreck in 1940-41 before the war halted our further attempts to locate the treasure," Williamson said.

HALIFAX, April 14 — Weather synopsis issued by the Dominion Weather Office at Halifax at 9 p.m. Sunday:

Clear and milder weather was experienced over more of the forecast district today except in the Cape Breton region where it continued cool with temperatures near freezing. Continued mild weather is expected Monday. A storm in the Great Lakes region is causing scattered thunderstorm activity and it should result in increasing southerly winds in the northern portion of the district Monday night.

Forecasts, valid until midnight Monday:

Prince Edward Island —Clear, becoming cloudy Monday evening. Somewhat milder. Light winds becoming moderate southwest 15 m.p.h. Monday afternoon and increasing to strong 20 m.p.h. by evening. High Monday at Charlottetown 50.

High tide this morning at 10.20 and tonight at 10.47.

Sun sets this evening at 6.45 and rises tomorrow morning at 5.15.

Full moon April 16th, 5.47 A. M.

Summerside tide eighteen minutes later than Charlottetown.
