PRODUCE
MONTEAL, Aug 11—Butter features in the Montreal dairy and produce markets today by recording further gains. The wholesale carlot market for No. 1 was quoted 15c to 15 1/2c per lb as the day came to a close. This was a gain of 1/2c to 1c as compared with the day before. Some one in the trade was reported to have received word that the Dominion stocks of butter are 130,000 boxes less than a year ago. The Ottawa announcement of stocks has been expected daily. Receipts of butter at Montreal were again light, being only 141 boxes. Production is falling throughout the country according to reports received by the trade. The market is away above an export level, but it seems now Canada will not have the butter available to export any more this year.

THE MARKETS
(By Claude A. Jagger, Associated Press Financial Editor.)
NEW YORK, Aug 11—While some of the security and commodity markets lagged today, the cause of more prosperous prices was vigorously advanced in bonds and in cotton and silver.
A selling in various speculative quarters that the advance in stocks may have been proceeding too rapidly, particularly without benefit of more favorable signs from such barometers as Electric Power Consumption and Freight Car loadings, brought further flurries of profit-taking, but a few issues managed to make headway in the face of it.
The bond market, however, surged up in the most active buying since October of last year. Many issues, particularly in the rails, advanced 1/8 to 3/8 per cent, with a few issues making even wider gains. The turnover reached the high total of \$19,250,000 par value.
