

Hair Brushes And Combs

There has been a great increase in the cost of Hair Brushes and Combs during the last few months. It is hard to get anything in this line at a reasonable price today.

We just received a lot which were bought before the rise and are clearing them out at a special price. The brush retails at 75c—the comb 35c—and for a short time our price for both will be 79c—Get in on this—it's a snap.

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in collaboration with experts on the staff of the Dominion Experimental Farm.

WATERING

There is always the danger of watering vegetable crops over abundantly. Ontario has been fortunate this spring in the amount of natural watering that the gardens have received but this does not necessarily apply all over Canada. A city garden should never be watered in the heat of the sun. In any event, the water should be applied in as fine a spray as it is possible to obtain. Foggy will wash out the seeds, flatten the soil, expose the roots to the sun's rays and thus cause the wilting of the plant. As the seeds are first breaking through the ground should be gently watered in the evening with the watering can. The hose is destructive is used too soon after planting. It is necessary to stir the soil after planting. It is necessary to stir the soil after each rain or watering in order to conserve the moisture.

Particular care must be taken in the watering of transplanted vegetables. It is a good plan to put a little water in the holes before the plants are put in them. Or, on the other hand, the watering may be done immediately after planting while the soil is still loose. This will prevent the plants from wilting.

OFFICIAL ACCOUNT OF GERMAN AND SINN FEIN INTRIGUE FOR REVOLT IN IRELAND

LONDON, May 27.—(via Reuter's Ottawa agency)—Germany's untiring offerings to foment revolution in Ireland with the aid of the Sinn Fein are laid here in a statement from the official Press Bureau, reviewing this phase of the Irish political situation since the beginning of the war.

After the abortive rebellion of Easter week in 1916, plans were made for a revolt in 1917, but this miscarried because of America's entry into the war and Germany's inability to send troops to Ireland. An uprising in Ireland was planned for this year, after the German offensive in the West had been successful and when Great Britain presumably would be stripped of troops.

Concerning the recent arrests in Ireland, the statement says that facts and documents, for obvious reasons, cannot be disclosed at this time, nor can the means of communication between Germany and Ireland.

One phase of the enemy plan called for the establishment of submarine bases in Ireland. In the present circumstances it is added, another course was open to the Government, "if useless bloodshed was to be avoided, and its duties to the Allies fulfilled, but to intern the authors and abettors of this criminal intrigue."

The statement from the Official Press Bureau follows: "The revolutionary movement in Ireland has culminated in the arrest of a considerable number of persons last week, consisting of two closely relative series of activities—attempts by the German Government to foment rebellion in Ireland; preparations in Ireland to carry these attempts into action.

"The story of the active connection between the leaders of the Sinn Fein movement and the Germans, as disclosed by documents in possession of the British Government, falls into two parts: The period prior to and the period since the abortive Irish rebellion of Easter 1916. "The events of the first period can be told in some detail, but the second period, which concerns recent events, permits of no more than a summary as a full statement of the facts and documents in possession of the Government would disclose the names of persons who stood by the Government, also the channels of communication through which the German Government was acting and which it would not be in the public interest to reveal at present.

"The story begins as early in the war as November 6, 1914, when Herr Zimmerman transmitted through Count von Bernstorff a message from Sir Roger Casement (later captured in Ireland and executed) asking that a messenger, a native American if possible, be sent to Ireland with word that everything was favorable. He was to carry no letters for fear of arrest. Casement also asked that an Irish priest should be sent to Germany with the assistance of the German legation in Norway to work in prison camps to corrupt Irish prisoners of war. The priest was a certain Father John T. Nicholson, an American citizen of Irish birth. He reached Germany safely and we find him in January, 1915, transmitting messages to America.

"According to a report of Captain von Pape (German military attaché in Washington) dated December 5, 1914, verbal assurances were sent in response to Casement's request that an excellent impression had been produced in Ireland. In the beginning of 1916 the plot ripened and on February 10, of that year, Count von Bernstorff sent to a covering address in Rotterdam a despatch signed with the name of Skal, one of his principal American agents.

"On June 16 von Bernstorff already had sent a despatch giving an account of the rebellion as far as his information went, and stating that one thousand pounds had been provided for the rebellion of Casement. On July 25, he sent a long message giving further news from Ireland and explaining that the work of re-organizing the rebels was making good progress and that their lack of money had been remedied by him.

"On this occasion the Government was to fix the time, and as an inducement, the advantage of having submarine and zeppelin bases in west Ireland was insisted upon by von Bernstorff. It was having difficulty with his tools, for on October 24, he warned his Government not to allow the Sinn Fein to be organized in America since his letters were apt to go to the wrong people. Later Capt. Boehm was arrested by us in British waters. "We again find von Bernstorff on December 4, attaching a note surreptitiously to a message passed by the American Government in which he mentioned that the Irish leaders in America were pressing for an answer to their proposal of September 8. He seems to have followed this on Christmas day with a message which is missing, for on the last day of 1916, Foreign Secretary Zimmerman informed him of quantities of munitions which it was proposed to land between February 21 and 25, 1917. He added that it was impossible to send German troops.

"On January 18, 1917, Bernstorff replied that his Irish committee declined the proposals, as without German troops a rising would be useless.

"After America's entrance into the war in April, 1917, the line of communication between the German Government and the leaders of the Sinn Fein was broken temporarily, though there was no reason to believe that messenger service between America and Ireland designed by John Devoy, was effected. "A clew to the new line of communication was obtained subsequently and has been followed up actively. The effect of this new speech of the Sinn Fein leaders during this period.

"For example, Prof. de Valera, addressing the convention of the Irish Volunteers on October 27, 1917, said: "By proper organization and recruiting we could have five hundred thousand fighting volunteers in Ireland. That would be a big army but without the opportunity and means for fighting it could only be used as a menace. There already has been too much bloodshed—without success, and I would never advocate another rebellion without hopeful chance of success. We can see no hope of that in the near future except through a German invasion of England and the landing of troops and munitions in Ireland. We should be prepared to leave nothing undone toward that end."

red thousand fighting volunteers in Ireland. That would be a big army but without the opportunity and means for fighting it could only be used as a menace. There already has been too much bloodshed—without success, and I would never advocate another rebellion without hopeful chance of success. We can see no hope of that in the near future except through a German invasion of England and the landing of troops and munitions in Ireland. We should be prepared to leave nothing undone toward that end."

"On another occasion in January of this year de Valera said: 'As long as Germany is the enemy of England and England is the enemy of Ireland, so long will Ireland be a friend of Germany.'

"The British authorities were able to warn the Irish command regarding the probable landing of an agent of Germany from a submarine. The agent actually landed on April 12, and was arrested. "The new rising depends largely upon the landing of munitions from submarines and there is evidence to show that it was planned to follow a successful German offensive in the west and was to take place at a time when Great Britain presumably would be stripped of troops.

"It will thus be seen that the negotiations between the executive of the Sinn Fein organization and Germany have been virtually continuous for three and a half years. At first a section of Irish Americans was the intermediary for most of the discussions, but since America's entrance into the war communication with the enemy has tended to be more direct. A second rising in Ireland was planned for last year and the scheme broke down only because Germany was unable to send troops. "This year plans for another rising in connection with the German offensive on the western front were maturing and a new shipment of arms from Germany was imminent.

"An important feature of every plan was the establishment of submarine bases in Ireland to menace the shipping of all nations. "In the circumstances no other course was open to the Government if useless bloodshed was to be avoided and its duty to its Allies fulfilled but to intern the authors and abettors of this criminal intrigue."

Parkeville, N. B., May 29.—Here is a cheerful letter from a man who was greatly broken in health and much discouraged. Fortunately he found in Dr. Chase's Nerve Food the treatment he required and was fully restored to health and vigor. As a blood builder and invigorator of the nervous system, this food cure of Dr. Chase's has a most remarkable record. You can prove this for yourself by reading the letters published in this paper. Mrs. W. A. Rudolph, Liscombe, N. S., writes: "Some time ago I was so run down I could not walk any distance without getting out of breath. When I went to bed at night I could not rest, my heart was so bad and my breath so short. I had begun to think I would have to give up working, when I saw Dr. Chase's Nerve Food advertised, and read of how other people suffering as I was had been helped. I sent for four boxes, took them, and now, thanks to Dr. Chase's Nerve Food, I am feeling well again. I am able to do a good day's work, and can rest well at night. I hope someone who is suffering as I was may see this letter and be induced to try Dr. Chase's Nerve Food, as I feel sure they will obtain speedy relief from this treatment. "This is to certify that I am acquainted with Mrs. Rudolph, and believe her statement regarding Dr. Chase's Nerve Food to be true and correct."—Mr. W. A. McDermid, Postmaster.
