FINE ADDRESSES AT LODGE
MEETING—Some very fine ad-
dresses were heard by members of
Summerside I. O. O. F. who at-
tended the regular meeting of the
club on Thursday evening. The
addresses were given by the follow-
ing members from Charlottetown
who were guests: Past Grand Mas-
ter George Ryan; District Deputy
Master G. H. Brothers; Stewart
and Macdonald; and Macdonald.
George Sheen, N. G. of the
club lodge presided. After the
meeting a social hour with refresh-
ments was enjoyed.—S

ATTENDED SERVICE—Many
old Summerside friends were
present at the Masonic service for
the late T. B. Brady which was held
at the graveside at the family plot
in the People's Cemetery, Sum-
merside. Among those attending
were members of Prince Edward
Lodge I. O. O. F., Summerside. S

INVESTIGATE BREAKS—Several
places in Summerside were
broken into during the early hours
of Friday morning including the
station and the branch office of M.
F. Schurman and Co. The R. C. M. P.
are investigating the matter and
some developments are expected in
the near future.—S

DEATH OF MRS. H. A. STEW-
ART, HAMILTON—There passed
away at Hamilton in the home of
her son, Mr. Percy Stewart, Mrs. H.
A. Stewart, in her 84th year after
an illness of some weeks. Mrs. Ste-
wart was formerly Miss Black of Be-
deque but had resided in Hamilton
since her marriage, where she was
most highly esteemed for her many
fine qualities of heart and mind.
She leaves to mourn besides her
son, three daughters, Mrs. Charles
Stewart and Miss Alma of the
homestead and Mrs. Lea Owen of
Hamilton to whom much sympathy
is extended. The funeral took place
yesterday afternoon from her late
residence and was largely attended
by friends and neighbours, who
came to pay their last respects to
a dear friend.—S

CHRISTMAS CHEER—The
spirit of Christmas is now abroad
and there is a friendly hustle and
busle about town which is al-
ways to be seen at this season of
the year. The stores have put
on their Christmas dress and vie
with each other in friendly riv-
alry for the best window display.
Their array of gifts is more at-
tractive than ever and there are
presents that will please old and
young and elastic enough in price
for every purse. The Town Coun-
cil have decorated the streets
with Christmas trees with a very
special one in the town hall square
which is to be lighted up for
Christmas. The Community Chest
Fund have organized and it looks
as if everyone is going to have a
really happy day. But whether
that will include everyone depends
quite often on the generosity of
those more fortunate ones, who
should always remember there are
always some unfortunate people,
young and old, whose Christmas
would be very drear if kind-
hearted citizens forgot them.
When making out your Christmas
list make a place for some extra
gifts for those unfortunate ones
and your own Christmas will be
the happier for having done your
bit.—S

SHOWS AT 3:30 - 9:10

Charlie Chan At The Olympics

Charlie Chan, one of the screen's
favorites in detective roles ap-
peared last night at the Capitol
Theatre Summerside in Charlie
Chan at the Olympics.

The picture is a new record for
Charlie and the audience was
thrilled and over again with Char-
lie when he defies a death dealing
ring of international spies, who
with terror into the Olympic sports
arena, strike at Charlie through
his number one son Keye Luke in
their bold efforts to seize a secret
radio control device from the Gov-
ernment. When death fires the
starting gun, the wily Chinese
sleuth is off on his greatest case,
a 20th century Fox hit featuring
Warners Oland in the title role.

The screen play by Robert Ellis
and Helen Logan, based on an
original story by Paul Burger, was
directed by H. Bruce Humberstone,
with John Stone as associate pro-
ducer, and marks the fourteenth
in the highly popular series fea-
turing the adventures of Charlie
Chan.

OUT AGAIN—It is pleasing
to report that Mr. L. B. Crue is

suffering with the sprain but is
able to use the arm a little.—S

Y'S MEN'S CLUB HOLD
MEETING—The Summerside Y's
Men's Club held their regular
weekly meeting on Thursday with
a very good attendance. An in-
teresting feature was the induc-
tion of six new members. The
President, Mr. W. A. Currie pre-
sided over the supper and also
the induction ceremony. New
members inducted into the club
were Rev. J. B. Wilson, Dr. W. B.
Howatt, Corp. Tex Lines, R. C. M.
P., Reginald Muttar, Albert
Huestis, Lloyd Gorrill. The new
members were cordially welcomed
by the older members after their
initiation. Some very instructive
talks were given by Mr. Currie,
Dr. Clark, W. E. Darby, R. L.
Molton and R. S. Hinton. The
speeches were mostly on the in-
ternational aspect of the Y's
Men's Club. At a short business
session the Club decided to give
the fullest cooperation to the
newly organized Community Chest
Fund and a substantial cash con-
tribution was contributed by mem-
bers present. The next meeting
of the club will be on December
30th.—S

DEC. 14—Watched Japanese
throughout city looting. Saw one
Japanese soldier who had collected
\$3,000 after demanding civilians in
safety zone give up at bayonet
point. Reached north gate through
streets littered with dead humans
and horses. Saw first Japanese
car enter gate, skidding over
smashed bodies. Finally reached
waterfront, boarded Japanese de-
stroyer, told Panay had been sunk.

DEC. 15—Chinese thankfulness
siege over became despairing dis-
illusionment. Went with embassy
servant to look for her mother.
Found her body in ditch. Embas-
sy's office boy's brother also found
dead. This afternoon I saw some
of the soldiers I helped disarm
dragged from houses, shot and
kicked into ditches. Tonight saw
group of 500 civilians and disarm-
ed soldiers, hands tied, marched
from safety zone by Japanese car-
rying Chinese "big swords". None
returns. Many Chinese seized, led
away despite Japanese flags placed
in houses and huts.

DEC. 16—Before departing for
Shanghai, Japanese consul brought
"no entry" notices, which posted
on embassy property. Enroute to
the river, saw many more bodies
in the streets. Passed a long line
of Chinese, hands tied. One broke

That Body of Hours

XRAY TREATMENT OF ACNE—
PIMPLES

Notwithstanding the successful
results obtained by viosterol in
the treatment of acne—pimples,
and also by the injections of the
anterior pituitary extract, there
are some cases that do not clear
up. Even with the use of the
X-rays—considered the best single
treatment—there are cases that
persist.

There has been a great amount
of study and investigation of acne
because it not only disfigures the
individual but lowers his morale
by making him conscious of his
appearance at all times.

Naturally as most cases begin in
the early teens—puberty—it is be-
lieved that the gland system of the
body is at fault in that it seems
unable to handle certain foods
successfully and there are also
changes in the oil glands of the
skin which makes the oil thicken
and harden instead of pouring out
on the surface and making the
skin soft and pliable. Thus the
use of gland substances—pituitary
and others—viosterol, diet, ultra
violet ray, and Xray have one and
all been found to help a certain
percentage of cases.

These methods may help by
stimulating the circulation of the
blood, making the oil more fluid,
killing the organism (acne bacillus),
and causing certain foods to act
differently.

While the Xray is still consid-
ered the best single treatment, Dr.
Erwin P. Ziesler, in Archives of
Physical Therapy, states that the
Xrays should not be used in
"every" case of acne, that Xray
should not be used in youngsters
in their early teens, and that it
should be recognized that many
cases can be cured by proper
hygiene combined with proper
diet, regulation of the bowel, and
application of certain salves or
ointments. And even when Xrays
are used the dosage and treat-
ments should be reduced to the
smallest possible amount and
number necessary to achieve per-
manent results. Dr. Ziesler has
found that since reducing the dose
of Xrays, given just four treat-
ments (one each week), by using
sun and ultra violet light treat-
ment with vaccines, he gets better
results.

With this treatment—Xrays
once a week for four weeks or
followed by light, diet, and general
hygienic treatment—it is seldom
necessary to continue treatment
more than three months. And the
percentage of relapses has been
less than with other treatments.

BOATS MACHINE-GUNNED

SHANGHAI, Dec. 17—(AP)—Sur-
vivors of the Japanese attack on
the United States gunboat Panay
and three other United States ves-
sels asserted today with graphic
detail that open boatloads of
wounded were machine-gunned af-
ter Japanese warplanes delibe-
rately bombed and sank the Yangtze
river gunboat.

Lieut. J. W. Geist, engineer offi-
cer, said a Japanese motorboat
machine-gunned the sinking Panay
although an American flag was
painted on the side of the ship
from which the attack came.

Capt. John Mender, of the Stan-
dard Oil boat Meiping, said Japa-
nese with fixed bayonets prevent-
ed his men from fleeing the craft
while Japanese planes bombed the
Meiping again and again.

King Denies

export of power. There has been no
agreement or understanding of any-
sort by the present administration
with regard either to this matter,
or to the larger question of the St.
Lawrence waterways.

The government's decision with
respect to the applications made in
recent months was based solely up-
on the desirability of deferring ac-
tion until the matter had been con-
sidered by parliament.

At no time, so far as I am aware,
has the United States government
sought to bring pressure to bear
upon the government of Canada to
secure the co-operation of Ontario
in the development of the St. Law-
rence waterway. Likewise, at no
time has pressure been brought to
bear by the government of Canada
upon the province of Ontario, or
upon any other province, with re-
spect to the St. Lawrence water-
ways.

The further allegation that an
agreement exists between Ottawa
and Washington that Ontario
should not be allowed to develop
more power at Niagara Falls until
the province becomes a party to all
St. Lawrence development, is also
wholly without foundation.

The present legal position with
regard to the use of St. Lawrence
waters, whether at Niagara or else-
where, is based upon the provisions
of the boundary waters treaty which
was concluded in 1908. In that
sense, the question of diversion and
use of water is governed by the
terms of the treaty between the two
countries. The terms of the treaty
necessarily become a subject for
consideration on the part of all
governments concerned in any plans
or modifications of existing ar-
rangements respecting boundary
waters.

Successive Canadian governments
have consistently taken the posi-
tion that the provinces, as well as
the Dominion, are vitally interest-
ed in the question of the develop-
ment and use of the waters of the
Great Lakes and St. Lawrence. In
the particular aspects of this ques-
tion, which are of direct and vital
interest to the provinces, it has, at
all times, been the policy of Cana-
dian governments to co-operate
with the provinces with due regard,
of course, to the protection of Do-
minion interests.
