THE REMOVAL OF THE BOATS.

The one thing most vital to the welfare, convenience and satisfaction of the people of Prince Edward Island that the Government can do is to keep open and free our communication with the mainland.

There is not now and has not been any reason known to the shipping community why the winter boats have been taken away except it be the caprice of those having control.

It is not now and has not been any reason known to the shipping community why the winter boats have been taken away except it be the caprice of those having control.

At least one boat might have been left to carry the freight and passengers if only three times a week.

A WHITE MAN'S COUNTRY.

It is but a few years since the phrase "the white man's burden" was much in vogue, and the wise ones were puzzling their brains to make out how the "pore-said white man would civilize, Christianize and generally regulate his black and brown brother.

because one of the brown families, and only a small one, too, opened the twentieth century by thrashing one of the biggest of the white families by land and sea.

And when we came to count noses the problem looks grave enough, for there are 850,000,000 of brown men in Asia and 150,000,000 of black men in Africa.

The London Times, historically the greatest of the world's newspapers, has changed hands after being the property of the Walter family for 123 years.

The Condensed Milk Factory is one of Charlottetown's most valued industries, alike to the city and the farmers of the surrounding country.

Canada bought much more largely of British manufactures last year than for years before, sold 23,500,000 bushels of wheat in the British market.

There is a somewhat prevalent impression that Mr. Hughes, M. P., is a factor in the removal of the winter steamers from this port.

Losing Muscular Power

The First Sign of Mental Decay--The Warning of General Break-Down.

Changes in the nervous system manifest themselves slowly. They show themselves by a feeling that the brain is getting away, or by a fullness in the head that indicates approaching apoplexy.

These symptoms may grow very quickly if they are not treated by Ferruzone. You must build up the nervous system. This can be accomplished in no other way and permanently.

Natural circulation quickly follows, and the fullness in the head, so disturbing and alarming, too, quickly passes away.
