—Rev. H. H. MacArthur of Holywood, and pastor of the Fountain Baptist Church was the speaker on Sunday in the Baptist Church, Summerside. Rev. Mr. MacArthur with his wife are visiting the island. Rev. Mr. MacArthur is a native of the province, and his father John MacArthur was formerly in the employ of the P. E. Island Railway at Summerside.—S

Naval Review

A striking aerial view of the destroyer unit of the British fleet assembled off Spithead for His Majesty's jubilee review.

CAPE BRETON CAPITAL IN GALA ATTIRE

Sydney's Sesqui-Centennial Celebrations This Week.

(C. P. By Guardian's Special Wire) SYDNEY, N. S., July 28—Major F. W. DesBarres, first Governor of Cape Breton, formally proclaimed Sydney the capital of his province in the summer of 1785, and this week people of this steel city, grown into one of Canada's leading industrial centres, will celebrate the 150th anniversary.

A program including the Maritime Amateur boxing championships and the Maritime track and field championships will be officially opened Monday afternoon, but watchnight services will be held in every church in the city tonight.

VISITORS CROWD CITY

Nine months of preparation have resulted in the most elaborate attraction ever attempted on the island, and thousands of visitors are already here for a week of excitement.

One of the features will be the arrival of an aerial armada of 40 American and Canadian planes led by Clyde Pangborn, famous flier who will be piloting a new machine with which he later hopes to circle the globe. First expected on Monday, the armada is now scheduled to arrive about noon Friday.

A historical pageant, depicting a century and a half of progress, will be presented at Victoria Park Monday night, preceded by the crowning of the anniversary queen, Miss Gwen Smith, daughter of Mr. and Mrs. Neil D. Smith.

TO BE MADE CHIEF

A colorful demonstration on Thursday will see Sir Newton Moore, president of the Dominion Steel and Coal Corporation made an honorary chief of the Mic Mac Indian tribe.

A reunion of Maritime War veterans will be held Saturday and Sunday, with Sir Newton presiding. Archdeacon Frederick George Scott of Quebec, noted war padre, will attend.

St. George's Anglican church will celebrate its 150 anniversary during the week. Besides the boxing and track championships, the sports program will include a five-mile harbor swim, baseball games, horse racing, speedboat races and various aquatic events.

however, having been delayed at Cartwright by fog for nearly a week. Handed good weather reports this morning they soared away from the Labrador outpost at 10.30 Newfoundland Daylight Time, and arrived here at 6.45 tonight.

Although they had greeted several fliers crossing the Atlantic by the hazardous northern route, the people of this settlement on the southwest coast of Greenland were greatly excited at the landing and gave Solberg and his wireless operator a warm welcome.

Even To The Sea

Miss Sreecher, the soprano, was relating some of her experiences at the musical "At Home."

"I have had some exciting adventures," she said. "The most memorable of all happened on a voyage from New York. A terrific storm arose, and the captain asked me to sing to calm the terror-stricken passengers. You should have seen the heavy seas running."

"Hm," grunted the unhappy Brown, who had so far suffered her singing in silence, "and I don't blame them!"

Across North Pole to America

LEVANEFFSKY AND MAP OF ROUTE
Taking off at Moscow, Sigmund Levaneffsky, internationally famous Soviet flier, with a co-pilot and navigator, pointed the wings of his freest "mystery" monoplane toward the North Pole and San Francisco. Purpose of the non-stop flight included preparations for establishment of a weather observatory at the pole and an attempt to prove feasibility of rapid contact with America via the transarctic route. The distance is 6,250 miles.

INDUCTION SERVICE AT WOOD ISLANDS

Before the gathering at the Manse broke up a hearty vote of thanks was extended to the ladies for the very dainty lunch served by them. This vote of thanks was very fittingly acknowledged by a number of the ladies.

The induction service was brought to a close with the benediction by the newly inducted minister, Rev. R. Hensley Stavert.

Rev. D. Campbell Passes In Saskatoon

SASKATOON, July 18.—The Rev. Donald MacDonald Campbell, long a resident of the West, died at his home, 615 Avenue C, north, here morning after a long illness. He was born in Prince Edward Island in 1865.

He studied theology at Dalhousie University and was ordained to the Presbyterian ministry in 1893. During 15 years he was a minister of the Church of Scotland in Prince Edward Island and in 1905 came west to serve in many Presbyterian parishes in Saskatchewan.

He leaves two daughters, Mrs. Milo E. Loomer of Saskatoon and Mrs. Jean Winnie, daughters of his first wife who died in 1896. He also leaves a widow by a second marriage, and three daughters, Ruth and Marjory, members of the Dundas school staff, Olive, student at the University of Saskatchewan, and one son, Dr. James M. Campbell of the faculty of medicine at the University of Saskatchewan and a former rugby star.

Claims British Influence In U.S. State Dept.

(A.P. By Guardian's Special Wire) WASHINGTON, July 28.—A charge that the President and state department are dominated by the British Foreign Office was coupled by representative Tinkham (R. Mass.) with a demand for neutrality legislation.

"Both the President and the department of state, dominated and controlled by the British Foreign

Seven Year Program Disclosed

(Continued from Page 1)

and London treaty rules during the seven-year period, the paper says the comparative strength of the British fleet in "in date" ships between 1935 and 1942 will be as follows:

In 1935, 15 capital ships, 50 cruisers, 24 flotilla leader-destroyers, 39 submarines, eight aircraft carriers; in 1942, 14 capital ships, 72 cruisers, 142 flotilla leader-destroyers, 57 submarines and 10 aircraft carriers.

The battle cruiser H. M. S. Hood, although technically outdated, was in 1942, still will be serviceable in 1942.

The program, the Daily Herald says, calls for the building of 3 cruisers, 9 flotilla leader-destroyers, and 3 submarines in 1936 with 5 capital ships, 5 cruisers, 9 destroyers, 3 submarines, and 1 aircraft carrier in 1938.

The Daily Herald says editorially: "This great program is intensely discreditable to the government. It is discreditable because it is a direct sequel to the government's failure to accept, indeed its success in blocking opportunities for, naval disarmament, which in recent years was offered."

"It was Baldwin's government which wrecked the 1927 conference in Geneva by declaring through Jellicoe 70 cruisers were the 'absolute requirement' for Great Britain."

House, Barn Destroyed By Fire

The house and barns of Kenneth MacDonald, Tryon, burned to the ground about nine o'clock on Saturday morning. The fire started from the engine in one of the barns and set fire to a quantity of straw. In spite of willing neighbors who quickly gathered at the scene.

Mr. MacDonald's two barns, bams and implement shed were destroyed. The fire then spread to the dwelling house and all were razed to the ground. The furniture, livestock and farm machinery were saved, also a truck that was in the garage.

It is understood that there was a small insurance.

Although originally the territory called Ethiopia and what is now Abyssinia are not exactly the same, the words have become interchangeable in popular use, and as the news services have adopted Ethiopia as their standard during the present crisis, it will be well to avoid using the other and thus bring news and the comment

Office," he said in a statement, "are opposed to legislation providing for strict neutrality of the United States in the next war, a war which is already beginning to loom on the European horizon."

Tinkham said the House of Representatives foreign affairs committee recently approved a bill providing for the assembling of statistical information on the arms traffic.

But he contended the President, through the state department, opposed an amendment to bar arms exports to any country engaged in a war to which the United States was not a party. The amendment, he said, would have meant "strict neutrality" for this country.

"The British Foreign Office," Tinkham said, "is opposed to such legislation by the United States."

INTEREST KEEN IN BASEBALL LOOP

Interest in local baseball has certainly reached a height which it has not enjoyed for many years. Several of the old timers emphatically state that he present series between the Pioneers and the Red Wings is the closest and has produced the finest ball since the Pioneers, Red Sox and War Vets ended in a three cornered back in 1922. That was at the time when Ernie MacQuarrie, Thunder Doyle and Wendell Monkley were in their heyday as pitchers and it was considered nothing to have as many as 15 strikeouts per game.

Dope Daly was the home run king of this period and has many lusty wallops to his credit which won many a hard fought game.

There are a score of others players which could be mentioned if time and space permitted but we must get back to the present game. A couple of valuable crizes have been put up by prominent citizens for competition among the players for the remainder of the series. One will be decided by a vote of the fans at the final game and will be awarded to the player who think has kept the most valuable to his team during the end of the series. The other

will be awarded to the player who has the highest total of both runs scored and runs batted in during the remaining games to be played. These prizes are well worth winning besides the honor to be gained as well and players are expected to be right on their toes from now on.

Tonight's game should prove the turning point in the close struggle and brilliant ball is expected. Jack Schurman is to be on the slab for the Pioneers while Pony Daly is expected to be the Red Wing choice. The Pioneer ace is in fine shape although he has been working almost as hard and as often as the Dean brothers when they carried the Cardinals to the National League pennant last September. Daly fresh from a week's layoff will be the favorite as the odds will be very slight. Every effort will be made to have the game away at 6.15 so that the full nine innings can be completed.

The bleacher seats around the back stop will be for sale at 10 cent each and the management is hoping to see them filled to capacity every game for the rest of the season.

thereon into conformity. The only development over the week-end has been a protest from Italy against Haile Selassie's "uncompromising attitude." In this, however, the Emperor is but a beginner where Mussolini is a finished artist. As to

Ethiopia's alleged suppression of the slave trade; some time will have to pass before this can be accepted as real. The fact remains that slavery exists throughout the country despite undertakings to abolish it given fifteen years ago.

U. S. Considers Reduction In Wheat Acreage

(A. P. By Guardian's Special Wire) WASHINGTON, July 28.—The United States Adjustment Administration today was reported to be considering slashing 1936 wheat acreage from 15 to 18 per cent below the "base" acreage.

The final decision hinged upon the amount of black rust damage. Officials said that if the damage proves negligible the acreage reduction may be as much as 20 per cent. But Chicago reports the rust spreading.

A 15 to 18 per cent reduction below "base" acreage—the average of approximately 51,000,000 acres planted by contract signers in the 1930-32 period—would compare with a 15 per cent cut in 1934 and 10 per cent this year.

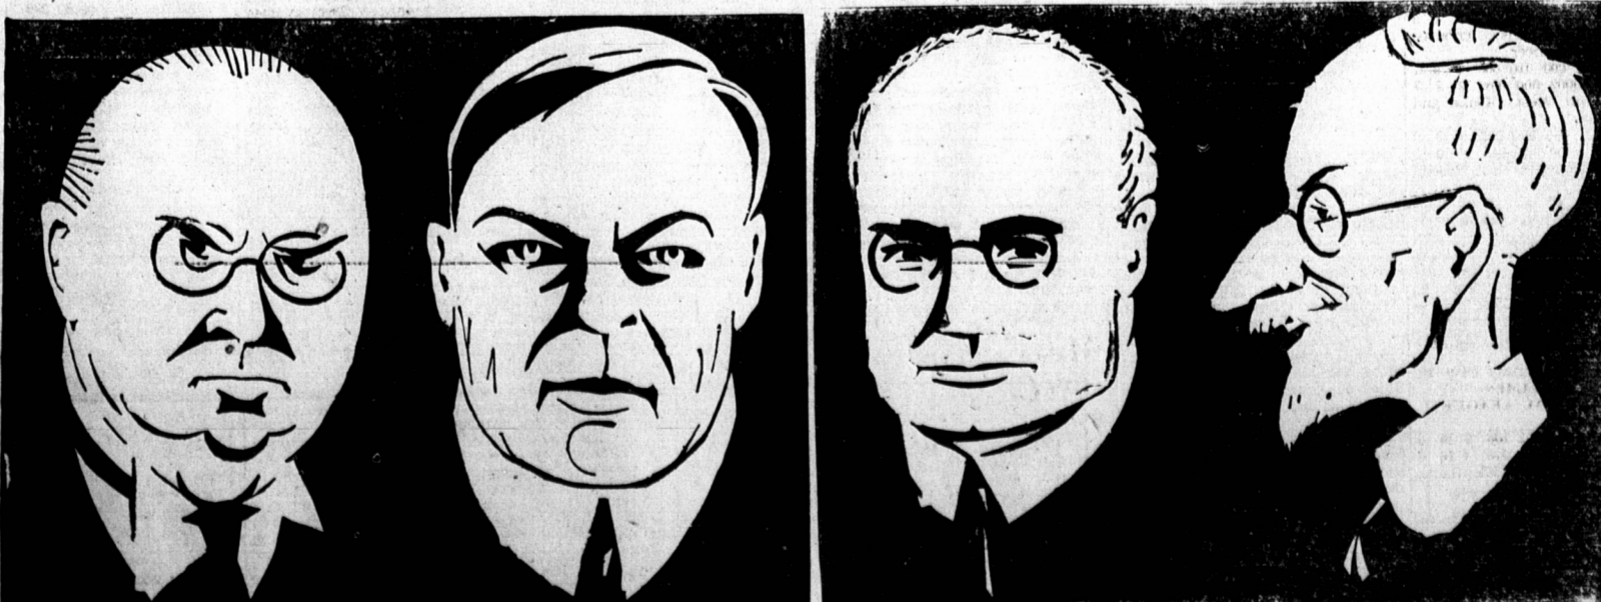

Norway Bound Fliers Reach Greenland

(C. P. by Guardian's Special Wire) JULIANEHAB, Greenland, July 2.—Thor Solberg and Paul Oscanayan, Norwegian-Americans attempting a flight from New York to Norway, brought their big amphibian down here safely tonight after a hop from Cartwright, Labrador.

Favored by fine weather, the adventurous couple completed the 600-mile flight in eight hours and 15 minutes.

They were away behind schedule

These Men Will Occupy Spotlight in Canada For Next Few Months

Rt. Hon. Richard Bedford Bennett

Rt. Hon. Wm. Lyon Mackenzie King

Hon. Henry Herbert Stevens

James S. Woodsworth

These are the four men who will occupy Canada's political spotlight for the next few months prior to the general election, final date of which has not yet been set. Prime Minister Bennett has definitely announced that he will lead the Conservatives into the fray, providing his health holds out. Mr. King, now reported in good health, after a

slight illness recently, is, of course, leading the Liberal forces. Renegade from the Conservative ranks, Hon. H. H. Stevens, former cabinet minister, is heading a new party, the Reconstruction party, launched just a few weeks ago. C. S. Woodsworth is the fiery leader of the Co-operative Commonwealth Federation (C.C.F.), which is the equi-

alent of the Socialist party of Canada. The above sketches are clever "cut outs" done for Central Press Canadian and the Guardian by an itinerant Canadian artist, G.D. Turner. Mr. Turner produced the result shown here with the aid only of a pair of scissors and a razor blade.
