

What to Eat in December
 Good nourishing food is required — food which will strengthen and build up tissue and energy. This is especially true of growing children.
 Clark's Pork & Beans are so rich in calories and vitamins that they are one of the best foods for this purpose and should be served several times a week.
 Luckily — Clark's Pork & Beans are one of the most welcome dishes of the year round, in hundreds of thousands of Canadian Homes.

SMILES
 Big Sister: I heard you telling my beau what you wanted for Christmas. What was it?
 Little Sister: I told him I wanted a generous brother-in-law.

TOO SLOW
 She: Do you believe in fairies?
 He: Too slow — I use the flying machine in crossing the river every morning.

THE MIRROR
 "They say the theatre is a mirror of real life."
 "No doubt. Are you going to see that new play called 'Pigs'?"

NOT A JOYFUL JOB
 "Well, Christmas 'bout here and me out a job!"
 "Why don'tcha git one like mine?"
 "You don't look so full o' joy — what is it?"
 "Oh, I'm one o' these here Santa Clauses in a department store."

HAD ALWAYS BEEN ROUND
 Professor: Johnson, can you say whether the earth has always been round?
 Student: It's never been away since I've known it, sir.

Women's Daintiness
 Under the most trying hygienic handicap now assured, NEW way offers true protection — discards like tissue.

LIGHT frocks, sheerest gowns...
 wear them now any day, any time, anywhere, without a moment's doubt or fear!
 The uncertainty and insecurity of the old-time "sanitary pad" has been ended.
 Most women now use "KOTEX" — a new and remarkable way. 5 times as absorbent as ordinary cotton pads.
 Deodorizes, thus ending ALL danger of offending.
 Discards as easily as a piece of tissue. No laundry. No embarrassment.
 Obtainable at all drug and department stores simply by saying "KOTEX." You ask for it without hesitating.
 Costs only a few cents. Proves old ways a needless risk. 12 in a package. In fairness to yourself try.

CONFIDENCE
in the Right of Way

THE engineer at the throttle of his thundering steed maintains his running schedule without fear, for he knows that he is continually moving through zones of safety, protected and controlled by train dispatchers behind him and ahead of him.

The train dispatcher, with his Northern Electric telephone before him, can communicate with all other stations through their telephones, and, in emergencies, can be reached instantly by train crews and track inspectors miles away.

telephone, creating and maintaining zones of safety within which the rushing locomotive and its train are constantly travelling, is daily evidence of electricity's varied service to mankind.

All of the equipment used in telephone train dispatching on the Canadian railroads is manufactured by the Northern Electric Company. Another instance of the wide scope of the Northern Electric's activities.
