# YESTERDAY'S STOCK and BOND QUOTATIONS

## MARKET GOSSIP

(Johnston and Ward's Special Wire)

New York Stocks Markets closed Columbus Day.

BANON SAYS

MONTREAL, Oct. 12—The averages extended their advance with volume the largest in over two months. Technically, the most bullish feature in Thursday's session was the impressive leadership on the advance and the fact that the rails closed above the peak established on Sept 27 thus confirming the bullish signal already given by the Industrials.

A large number of stocks have been accumulated for months and are now in a position to stage a major bull swing. Clients who have been picking up stocks on my recommendations are not profitably represented in a substantial line of holdings. I suggest very strongly that you sit tight with stocks acquired and let profits run. Additional issues will be drawn to your attention as opportunities develop.

Canadian Industrial Alcohol is beginning to show signs of moving out of its narrow range. A break through to 10 would likely be followed by a move to approximately 14. For speculators willing to exercise patience I suggest that moderate commitments be made at the current level. Another patience stock likely to prove profitable over a period of time is Distillers Seagrams. Buy it at the market and on reactions. Some of the minor golds responded smartly yesterday to reports that further devalution of the American dollar may take place. Stocks, however, like Lake Shore, Dome, McIntyre, and Holly moved up very modestly. Teck Hughes continues to show improvement in its action, suggest a further purchase here and more on a scale down.

Banon.

## Fractional Advances On The Montreal Exchange

(C. P. By Guardian's Special Wire)

MONTREAL, Oct. 12.—With United States markets closed in observance of the Columbus Day holiday, listings on the Montreal Stock Exchange gave a satisfactory exhibition by advancing fractionally.

The opening was on the easy side but after the initial hesitation losses gradually turned into gains. Regular leaders were disregarded by traders who turned their attention to issues which have been lightly traded in recently. Sales volume was of moderate proportions with approximately 18,300 shares changing hands.

Canadian Industrial Alcohol issues were centres of interest today with the "A" stock touching the highest level since last June. Alcohol "A" gained ¾ at 9¾ while the "B" stock rose a full point at 8½. McColl-Frontenac, the active leader, was in heavy demand throughout the session and gained ¾ at 14⅛. Canada Cement preferred rose two points, Canadian Car preferred 1¼ and Bank of Nova Scotia a point.

Steel of Canada Common established a new high for the year at 38¼, where it recorded a gain of ¼. Steel preferred hoved up ¾ at 38. Fractional gains were also scored by Dominion Steel and Coal "B", Massey Harris, Dominion Bridge, Gypsum, Canada Cement, Bank of Commerce and National Steel Car.

Montreal Power was subjected to pressure and eased ¾ at 31. International Nickel at 24¼ and Brazilian Traction were both down ⅛. Canadian Pacific Railway declined ¼ at 12¼. St. Lawrence Corporation preferred, Hollinger and B. C. Power were also down small amounts.

Dominion Coal preferred, Shawinigan Power, Canadian Car, Quebec Power, Bruck Silk and Dryden Paper were among the issues to hold unchanged from their previous closing prices.

Sales 18,314 shares; bonds $9,950.

## Council Accepts City Tender For Work On Streets

### "As You Were" Is Order Of The Day For City Engineer. Councillors Come To What Public Hopes Will Be Final Decision.

After considering tenders for street work at a special meeting, fully attended, of the City Council yesterday, the Council again decided to have the work done by local labor under the supervision of the City Engineer. This is in accord with the decision previously taken after calling tenders, but rescinded at Tuesday night's meeting in favor of calling for further tenders in view of the lateness of the season, the need of giving more employment, and the amount of other city work to be done.

As there has been considerable public interest in this question, the Guardian presents a verbatim report of yesterday's discussion and of the reasons given by the Councillors for their respective attitudes:

Coun. Turner, chairman of the Tender Committee, reported the following tenders received:

On 4 inch asphaltic concrete base with 1 in. sheet asphalt top, per square yard: City, $2.76; H. J. Phillips, $1.87; Warren Paving Co., $2.27; Modern Paving Company, $1.81.

On curbs and gutters, per lineal foot: City, 95 cents; H. J. Phillips, 80 cents; Warren Paving Company, 85 cents; Modern Paving Company, 81 cents.

Totals: City, $3.71; H. J. Phillips, $2.67; Warren Paving Co., $3.12; Modern Paving Co., $2.62.

Coun. Turner moved that the meeting proceed to consider the tenders immediately. The motion carried.

Coun. Turner: "The tender committee have no report to submit for consideration."

Coun. Holman: "I think the tender committee should at least have a report."

Coun. Turner: "There was no report submitted last time."

Coun. Rattray: "To save time I would move that the City proceed with the laying of these streets."

Coun. VanIderstine: "I second the motion."

Coun. Rattray: "If we had time I would explain my reasons, but I will take that privilege the next night of meeting. I need only say that we are doing this to help our unemployed."

Mayor Kennedy: "What are the prospects of having this work completed?"

Coun. Rattray: "I don't know anything at all about that."

Mayor Kennedy: "That should be considered."

Coun. Reardon: "From an employment standpoint we thought better to give the work to the city engineer in the first place. Now that we have quarreled over tenders again, I think we should consider the lowest tender in this case. If our local engineer requires any outside help for the work he is doing I am sure the city will provide the help necessary. I would move an amendment to the motion, that the tender of the Modern Paving Company be accepted."

Coun. Holman: "I agree with Coun. Reardon up to a certain point. The difference in tenders between the city and the contractors is considerable, and we can get a great deal more paving for the amount expended. The figures given here for the Modern Paving Company are $2.62 as against $3.12 for the Warren Paving Company—quite a difference. But we have a local contractor's figure at $2.67; H. J. Phillips, very reputable, one of our own citizens and a man who no doubt can give a good job. I approve of the idea of letting the contract providing the man who gets it can start immediately; that is, tomorrow. We all know Mr. Phillips; he is a large taxpayer; he is going to remain here, and he is not going to tender a job he will be ashamed of. Possibly the Modern Paving Company could do just as good work, but they are an unknown company so far as we are concerned. Mr. Phillips at his price can give us a great deal more streets for the money expended than we can build ourselves: therefore I will move an amendment to the amendment, that the contract be let to H. J. Phillips providing that he starts work immediately."

Coun. Turner: "I would like to explain my position in this matter. It has been from the first that the lowest tenderer should get the work. I still believe that. In this particular case, however, I think that with the very small difference between the Modern Paving Company and our local contractor, the local man should get the preference. But in view of the fact that this work is for relief purposes only, it was decided that the City should do it; and I believe that under the existing circumstances, since we have already procured the material and are prepared to carry on, the general expression of opinion seems to be that the City should continue. I think that under the circumstances, therefore, we should allow the city to do the work."

Coun. Hennessey: "In seconding Coun. Rattray's motion for the City I would suggest that supposing it costs the city a little more for this year, you will save it in the winter. The only object I have is that there should be more men employed. Perhaps Mr. Messervey may find his way clear to put on 150 men. The principal thing is the men. That is the object I had in voting the other way the other night, to see if we couldn't work it some way to get more men employed. If Mr. Messervey can put more men on, I think the City will save in the long run. The Warren Paving Company are higher than the other contrators, but so far as I can see they give an excellent job. The Modern Paving Company is new here. Mr. Phillips is new. We don't know very much about either of them. We have had samples of the City work and I really believe the City should get the tender in this case."

Coun. Rattray: "What I have to say is on nearly the lines that Mr. Hennessey has spoken. They are all excellent companies and I have nothing to say against any of the tenders. But I am taking it from the labour standpoint; not that we are going to save directly by the City in this work, but we are going to save in the long run. We have to consider what the Dominion Government has voted one-third of this cost for; also why the Provincial Government has voted one-third of the cost. They have voted direct relief to the unemployed. I think the best thing we can do is to reach the most unemployable men—I mean men that you and I would not have on a contract. We have to reach them. I could enumerate a lot of such cases that we have on relief today, but that is not necessary. My idea is to give all the labour that we possibly can in Charlottetown. As I said, I have nothing against any of the companies tendering, though I think some of their contracts are high, and I may say the same of the City Engineer's."

Coun. MacDougall: "I think that our own men should get everything available and I will go down to defeat, if necessary, on an issue of this kind."

Coun. Holman: "We are all of the same mind: we are here to do the City business in the best way. My idea in reopening this question the other night was to give more relief. In giving this work to any one of these contrcators it was with the absolute understanding that they would employ local men. By doing so I think we would have at least 100 more men working, because the City Engineer has the storm sewers and other matters whereby he could employ from 40 to 60 men for the next few weeks, while the contractor could employ another 100 men. However, I am quite willing to abide by the majority vote. But I want to state my case clearly. Some rather nasty insinuations were made at the last meeting, which didn't amount to anything; but as there seems to be considerable misapprehension and misunderstanding regarding the attitude of the City Council at our last regular meeting respecting the laying of new streets and the reason as to why the Council rescinded its former motion to have the City build the streets itself, I wish to make the following statements:

"There were three parties concerned to whom this work could be given, first—The City; second—The Modern Paving Co.; third—The Warren Paving Co.

"Now let us analyze the cost of these streets from these three sources:—

"1. The City of Charlottetown offered to do this work at $3.06 per sq. yd. for the paving surface and 95c per ft. for curb and gutter, there were 10,000 sq. yds. of paving and 8,000 ft. of curb and gutter. The City's tender would cost $30,600.00 for the paving and $7,600 for curb and gutter—thus the City's total charge for the work would be $38,200.00.

"2. The Modern Paving Company tendered as follows:—$1.69 per sq. yd. for paving the 10,000 sq. yds. and $1.20 for 8,000 ft. of curb and gutter. This figures as follows—The Modern Paving Company's tender for paving would amount to $16,900.00 and $9,600.00 for curb and gutter or a total of $26,500.00.

"3. The Warren Paving Company tendered as follows:—$1.95 per sq. yd. for paving the 10,000 sq. yds and $0.85 for 8,000 ft. of curb and gutter. This figures as follows—The Warren Paving Company's tender for paving would amount to $19,500.00 and $6,800.00 for curb and gutter or a total of $26,300.00.

"Now let us compare these three totals—City $38,200.00; The Modern Paving Company $26,500.00; Warren Paving Company $26,300.00. From these figures it will be seen that the Warren Paving Company is $11,900.00 less than the bid of the City and $200.00 less than the bid of the Modern Paving Company, it is for this reason in the interests of the city and taxpayers that we have advocated the acceptance of the lowest tender particularly when that bid is made by a concern well known all over Canada and most reliable and thorough in its work.

"Now another important point comes up respecting the men who will be employed on this street work, as in the past when work has been done by contract the contractor when requiring men asks the City Engineer for men and he in turn supplies them, just the same as he would do if employing them for himself. The contractor has no choice of men, that choice is with the City so that every man will get a fair show, further it was also understood that all work be done by hand labor, that no motor trucks be employed instead of local horses and carts and no heavy machinery would be permitted to be used.

"During the work there should be in the vicinity of 100 men employed, all local men with the exception of two or three "key" men.

"If the contract had been let to the contractor before or is let now at a saving of $11,900.00 it practically means that the City can have 50% more streets built with our own labor for the same amount of money that would be expended if the City did the work themselves. In making this statement I do not wish to reflect on our City employees in any way but it has always been a known fact that any Government, whether Dominion, Provincial or Civic doing work in this way always costs a great deal more than if done by contract.

"The members of this Council elected by the citizens have only one thought and that is doing the business of the city in a business way."

Coun. Turner: "I wish to point out that in the figures submitted there, the sidewalk was not taken into consideration. As the sidewalk was part of the old programme it should be included. Take the sidewalk into consideration and there would be a decided difference in the tender of the Modern Paving Company, which figures out considerably lower than that of the other company."

Coun. Holman: "That is just drawing a red herring over the trail. First of all it was decided by motion to let the City build the sidewalks. Then the street and curb tenders were considered. That is all that we are talking about."

Coun. Rattray: "Coun. Holman is all off in that statement. If he wants to delay this meeting we are as ready to explain our side of the situation as he is. But I think we said enough the other night. It is just a matter now of the choice of the Council."

Coun. Holman: "Well, put it to a vote."

The motion that the City do the work was then put, and was carried unanimously.

Coun. Rattray suggested that consideration of the matter of extending water facilities to the Connolly estate, outside the city limits be taken up at a subsequent meeting. This was agreed to and the meeting adjourned.

## Allotment Of Shares For Central Bank

OTTAWA, Oct 12.—The eagerly awaited statement in regard to the basis of allotment for Bank of Canada shares has been announced by the Honourable E. N. Rhodes, Minister of Finance. While considerable work has yet to be done in connection with allotments and while the final details cannot be completed until further information is secured in certain cases, the Minister stated that he was making the announcement this morning in order that persons who had subscribed for Bank of Canada stock would know what their liability on this purchase was going to be and therefore be in a better position to determine what amount of the new Refunding Loan bonds they should buy. It has been represented that some individuals would buy more of the bonds if they know how much their subscription on the stock offering was to be cut down.

"No more than fifteen shares will be allotted to any one applicant," said Mr. Rhodes. While some slight changes may still have to be made as a result of further analysis of the applications, Mr. Rhodes stated that the following table would represent the general plan of allotment.

| Shares applied for | Shares to be allotted |
|---|---|
| 1 share | 1 share |
| 2 shares | 2 shares |
| 3 " | 3 " |
| 4 " | 4 " |
| 5 " | 5 " |

## Propose Advisory Board for Manitoba

(C.P. By Guardian's Special Wire)

WINNIPEG, Oct. 13—Involving establishment of a new department of the Manitoba Government, proposals were made by the retail merchants association here today to control trade and industry within the province by means of codes and licenses.

Negotiations with a view to make the proposals effective by legislation were underway between the government and the merchants according to H. B. Scott, secretary of the Manitoba Division of the Retail Merchants Association. The present draft, he said, would be subject of further study and undoubtedly would undergo some changes before reaching the legislature.

Besides involving a new department of government, the proposals also would mean establishment of an advisory council to the minister. Appointment of advisory boards representing industries would be undertaken if found advisable.

In its present form, the draft legislation would prohibit unfair trade practices, fix minimum wages and working conditions and set a minimum price for the sale of goods in brief, it would place virtually every business under some form of government legislation.

The proposed legislation would apply to wholesale and retail dealers of all kinds, bakers, printers, restaurant keepers, dry cleaners, barbers, hairdressers, electrical contractors, painters, decorators, plumbing, heating and sanitary engineers.
