THE SONS OF ENGLAND OBSERVE DECORATION DAY

Impressive Ceremonies at the People's Cemetery—Floral Tributes and Union Jacks Placed on the Graves of the Deceased Brethren.

The first annual Decoration Day of the Sons of England Benevolent Society was observed yesterday afternoon with appropriate and impressive ceremonies.

The procession was one of the best among fraternal societies seen in the city for some time and evoked much favorable comment from the large crowds of on-lookers.

Arriving at the Cemetery the procession halted at a selected spot on the main pathway and formed a circle where a short service was held.

Circular wreaths with S. O. E. in red white and blue, and union jacks were also placed on vacant spaces in the family plot in memory of the late Bro Roland D. Taylor whose remains now rest beneath the South African veldt, Born 1878 joined the order April 1899 and fell in Battle at Paardeburg February 18 1900.

After the decorations the brethren returned to the spot where they first met and concluded the beautiful ceremony of the decoration service. The hymn "Lead Kindly Light" to the familiar air of Sandon with band accompaniment was sung with deep pathos and tender feeling; Professor Watts directing.

The President, Frederick W. Gill then said: "There is yet another grave we wish to decorate—to that grave let us now proceed." On arriving at the grave of Midshipman Watson the Secretary Hildreth Duchemin spoke the following words: "By the placing of this wreath and flag upon the grave now before us we pay our tribute of respect to the memory of Midshipman Watson who died far from home and native land upon H. WEST KENT ATHLETES WIN TROPHY

In the Annual Interscholastic Athletic Contest

WELL CONTESTED EVENTS

A Great Improvement in Both Schools Since Last Year in Military Drill.

The Interscholastic Sports on Saturday at the C. A. A. grounds were an immense success and the Principals of the schools participating other teachers who took such an interest in the contest, and the officials at the track are all to be congratulated upon the excellent day's sports furnished at the third annual interscholastic meeting.

The conduct of the boys was excellent and the good feelings existing among the contestants where competition was very keen, their marching, demeanor, and general appearance were highly creditable.

At one o'clock the pupils met at the City Hall and headed by the 4th Regiment Band marched to the grounds. Each school was in battalion formation in command of one of their number.

West Kent was in command of Webb Stanley and the movements of the Queen Square boys were directed by Andrew Butler.

The result of the inspection by Major Weeks and Captain J. A. McDonald was that 46 points were awarded to West Kent and 40 points to Queen Square. The drill in both schools was much superior to that of last year.

The contest in the different athletic events was good and many exciting finishes were witnessed. When the points were tallied up it was found that the trophy had been won by West Kent with 182 points, Queen Square scoring 124 points. The trophy will be held by the former school till next season.

THE EDITOR'S MAIL

A GOOD SUGGESTION.

Sir,—I read an article the other day on the love of speed. It is one of the weaknesses or something else, of human nature to love speed. Nobody loves a slow horse, a slow man or a slow town. Our citizens will gather by the thousands to witness the speeding of horses, bicycles, skaters, etc., leap upon their seats and shout themselves hoarse over the horse, the boy or the man that develops the greatest speed.

We have in our harbor to-day, three of H. M. S. of war including the Rock 4, a torpedo boat destroyer, capable of developing a speed of 27 knots an hour! Who among our citizens would not be delighted to witness an exhibition of the speed of this little giant craft? I have no doubt that Admiral Douglas if approached by the proper authorities would be pleased to afford our citizens the pleasure of witnessing what few, if any, have ever seen, viz., a craft rushing through the water at a speed of 27 knots an hour. Our harbor and river are admirably adapted for such an exhibition. If the Rocket should go outside the harbor, come in at full speed and run up the East River all the available points such as Victoria Park, Victoria Crescent, the wharves, etc. would be filled with enthusiastic citizens eager to see the racer. Can this not be accomplished Mr. Editor? Please speak to our worthy Mayor and it will be done. Loyal Citizen.

REQUESTS MAY BE GRANTED.

The concessions asked by the Boers were mainly of an industrial character and it is likely that most of their requests will be acceded to.

RESOLUTION OF SYMPATHY.

HEALTH AND HOPE.

"He who has health and hope; and he who has hope has everything." But hope lies at the approach of kidney disease with the dreadful pains which accompany it.
