*What value! A great card game and lunch, only 25c at card tournament, Holy Redeemer Hall Tuesday evening, 8:15 sharp. Register, also door prize. Chicken for freeze-out. 3077

NAVIGATION ON ST. LAWRENCE CLOSES THURS.

Abnormal Weather Conditions Necessitate Early Closing As Ships Are Ice Bound.

(Canadian Press)
MONTREAL, Nov. 27—Navigation through the St. Lawrence canal will be halted officially on Thursday night, according to an order issued tonight by the Department of Railways and Canals.

The order reads: "On account of abnormal weather conditions, and the difficulties and dangers of continuing operations, it is found necessary to close all canals from Lake Ontario to Montreal not later than 11:30 p. m. on the 29th of November."

While the official instructions closed the canals might be open for three more full days, indications here tonight were that 48 hours might see the system closed for the winter.

Under direction of Provincial Fire Marshal K. A. Rudland of Halifax, firemen and workers dug through wreckage of the three-year-old brick building that once contained the stores of Morris David and his nephew, Simon Atlas, victims of the Saturday night holocaust, searching for its source.

Accumulated sewer gas in an abandoned channel was advanced as a possible cause of the blast that also seriously injured Mrs. David, at the time recovering in hospital. With finding of the gasoline can, however, officials turned to a theory of a fuel explosion in the building basement.

But they were unable to gain any constructive evidence of Mrs. David. From her hospital bed she could tell only incoherently of the explosion, which shattered the building and belched 50-foot flames from its shattered interior.

His investigation completed, the Fire Marshall will return to the Provincial Capital where his findings will be released upon completion, perhaps next week.

Conservative Holds Strong Lead In Man.

(Canadian Press)
PORTAGE LA PRAIRIE, Man., Nov. 27—W. R. Sxsmith, Conservative, held a strong lead as the first count in the Portage La Prairie by-election for a vacancy in the Manitoba Legislature neared completion tonight.

With 11 out of 12 polls reports, the standing was: Sxsmith, 1,152; E. A. Gilroy, Independent, 627, and H. A. Ireland, Independent Labor Party, 587. The elimination of Ireland and the counting of the second choices on his ballots was believed necessary.

The vacancy was caused by election of Mr. Justice F. G. Taylor, former Conservative leader to the Manitoba bench.

Cuban Leaves For The West Indies

(Canadian Press)
MONTREAL, Nov. 27—Hon. C. H. Cahane, Secretary of State in the Dominion Cabinet, left Montreal tonight for Boston where he will board the Lady Hawkins for a cruise through the West Indies and to British Guiana.

Accompanying Mr. Cahane are his wife and his wife's mother, Mrs. M. J. Hulin. It is understood the journey is to be a holiday for the cabinet minister. He will visit Bermuda, the Lesser Antilles Islands, Barbados, Trinidad and British Guiana, places of call for the steamer.

URGES UNITED ACTION FOR DISARMAMENT

Stanley Baldwin Claims Nations Must Get in Direct Touch With Ger- many.

(Canadian Press)
LONDON, Nov. 27—(G. P. Cable) Stanley Baldwin, Lord President of the Council, tonight told the House of Commons Great Britain, France and Italy all must get in direct touch with Germany in efforts to settle the Disarmament question.

Mr. Baldwin was speaking in debate on a Labor amendment to the speech from the Throne affecting foreign policy.

Great Difficulties

The armament situation, he said, presented very great difficulties and three possible ends: first, disarmament of all nations to the level of existing German armaments. Second, limitation of armaments to a point excluding all large offensive weapons, which would mean partial disarmament of heavily armed countries and rearmament by Germany to that point; third, competition in arms.

BELIEVE FUEL CAUSE OF EXPLOSION

(Canadian Press)
NEW GLASGOW, N. S., Nov. 27—Hauled from beneath heaps of wreckage, a battered, discolored old gas-oil can tonight stood as the only constructive clue to the midnight blast that wrecked one building, killed two men and looted the entire New Glasgow commercial district.

Under direction of Provincial Fire Marshal K. A. Rudland of Halifax, firemen and workers dug through wreckage of the three-year-old brick building that once contained the stores of Morris David and his nephew, Simon Atlas, victims of the Saturday night holocaust, searching for its source.

Accumulated sewer gas in an abandoned channel was advanced as a possible cause of the blast that also seriously injured Mrs. David, at the time recovering in hospital. With finding of the gasoline can, however, officials turned to a theory of a fuel explosion in the building basement.

But they were unable to gain any constructive evidence of Mrs. David. From her hospital bed she could tell only incoherently of the explosion, which shattered the building and belched 50-foot flames from its shattered interior.

His investigation completed, the Fire Marshall will return to the Provincial Capital where his findings will be released upon completion, perhaps next week.

Port Officials Leave For Mar.

(Canadian Press)
MONTREAL, Nov. 27—(C.P.)—With the close of the Canadian Pacific's St. Lawrence season, which will be brought to an end with the departure of the Duchess of Richmond from Quebec on Thursday, officials of the steamship, railway and express companies are preparing to take up their winter quarters at Saint John and Halifax, where the arrival of the Duchess of Atholl this week end will usher in another Maritime port's season.

Some officials are already en route from Montreal or Quebec, while others will leave during the next few days.

Three Narrowly Escape Death

(Canadian Press)
TRURO, N. S., Nov. 27—Catching of one rear wheel on the broken rail of Salem Bridge saved a car from toppling 30 feet into 10 feet of water and carrying to possible death two companions. The car left the road, crashed through the rail, slid over the side but was jolted to a stop as the rear wheel gripped the shattered guard.

Soon To Revert To Colony Status

Nfld. Government's Acceptance Of Commission Report Announced In Speech From Throne.

(Canadian Press)
ST. JOHN'S, Nfld., Nov. 27—Newfoundland's return to her old status as a Crown Colony became virtually assured today as the Government told the Legislature of its plans for "giving immediate effect" to the recommendations of the Royal Commission that investigated the island Dominion's financial and economic position.

Sweeping changes in the country's Government structure held out the possibility of freedom from "unprecedented difficulties," the Speech from the Throne said, and Prime Minister F. G. Alderdice, in announcing the Government's stand, declared the suspension of the island's constitution and the substitution of government by Commission to be "in the best interests of the country."

There was no debate on the proposals today. After hearing the speech from the Throne the Legislature adjourned until tomorrow, when debate will begin. An amendment calling for a week's adjournment, proposed from the Opposition benches of the lower House by F. G. Brudley, was defeated.

Tense Atmosphere

A tense atmosphere prevailed as the Legislature opened its special session this afternoon. Since the Commission headed by Lord Amulree made public its findings last week, the recommendations have been the centre of spirited discussion in the Dominion. Although a number of prominent men in public life have expressed dissatisfaction with the report, general sentiment has favored acceptance of its terms.

Before the Legislature went into session the Government secured assurance from its majority of united Newfoundland members in the Legislative Assembly that they would vote to ratify the report. And from members of the Legislative Council came indications also the recommendations would be approved.

Condition Of Sir Arthur Currie Continues Grave

(Canadian Press)
MONTREAL, Nov. 27—(C.P.)—"Sir Arthur Currie is holding his own" read the official bulletin issued tonight by his physicians. "There has been no change in his condition in the last 24 hours," the bulletin continued. "As far as his condition is concerned it is just about the same as last night. His temperature of 104 degrees has not changed since late Saturday evening. His respiration remains between 24 and 40, which is about the same as Saturday. His pulse is between 100 and 110, also about the same. There has been no extension of pneumonia."

During the late afternoon and early evening the condition of the Commander-in-Chief of the Canadian Corps in France continued grave. He was still receiving oxygen as the 21st day of his battle for life from a critical illness, drew to a close.

At noon he had rallied slightly under the oxygen treatment. Pain hopes of his McGill University friends revived slightly. They felt that his robust constitution and sturdy spirit were bearing the brunt of the latest complication in his illness splendidly. Admiration was expressed by his doctors who declared: "Sir Arthur is making a wonderful fight. His condition is grave, however."

May Fly South Atlantic Route

(Canadian Press)
DAKAR, Senegal, Nov. 27—(A.P.)—The belief that Colonel and Mrs. Charles A. Lindbergh may soon attempt a South Atlantic homeward flight was strengthened today with their arrival at Porto Praia, Cape Verde Islands, a jumping off place for Brazil.

Whether the Colonel planned to make the hop of nearly 2,000 miles to Recife (Pernambuco), or zig-zag back to African coastal ports was not disclosed, but because of his statement last week regarding an intention to proceed westward from Cape Verde, a trans-Atlantic flight was considered more strongly indicated.

New Brunswick Benefits From Exchange Rates

(Canadian Press)
FREDERICTON, N. B., Nov. 27—If the present exchange situation between Canada and the United States continues, the province of New Brunswick will be relieved of large amount in exchange on bonds and monthly interest coupons payable at New York, according to information from the Department of the Provincial Secretary-Treasurer.

During the 1933 fiscal year, ending October 31 last, exchange cost the province upwards of \$200,000 and nearly as much for the previous fiscal year.

The Canadian dollar is now worth 17% cents more in United States funds than it was a year ago. Heavy interest payments from New Brunswick are due in January, as well as redemption of an \$800,000 issue of United States payment bonds on January 15.

As United States holders of these bonds receive payment in Canadian funds, the Province does not profit directly when the Canadian dollar is at a premium but is relieved of a substantial payment of exchange.

NEW FRENCH CABINET FACES HARD TASK

Must Disguise Econ- omy Measures to Win Support.

(Associated Press)
PARIS, Nov. 27—Members of Camille Chautemps' day-old cabinet put their heads together tonight to design a new dress for budget-balancing and franc-saving measures before re-introducing them before the stubborn Chamber of Deputies.

Finance Minister Georges Bonnet, Budget Minister Paul Marchandeau, and M. Chautemps tried particularly to disguise a project to cut civil servants' pay, a move which wrecked three cabinets in a year, including that of Albert Sarraut, last week.

Problems facing the young ministry—similar in personnel to Sarraut's government—were many: A fast-emptying treasury, widespread protest meetings, miners' demands for unemployment help, and tax troubles.

M. Bonnet told Bank of France officials that the government could meet its debts only until December 15. In banking circles it was said that France again was preparing to

BENNETT ADDRESSES PHYSICIANS

(Canadian Press)
OTTAWA, Nov. 27—"It will be a long time before we have state medicine in this country so far as the Dominion is concerned," Prime Minister R. B. Bennett told the Royal Canadian College of Physicians and Surgeons at their annual banquet here tonight. He could not conceive of a new and expanding country fostering that state of mind or developing a system of state medicine for the nation as a whole. What the Provinces do within their own jurisdiction was a different matter and difficult to ascertain, the Premier added.

The Prime Minister, in a felicitous vein and with many amusing asides, traversed the history of medicine and recalled with pride the eminent contribution made by Canadians themselves.

"Long after you and I are forgotten, the name of Banting will live," he said.

Quoting the oath of Hippocrates, the 4 slogans of Pado and the philosophy of Francis Bacon, the Prime Minister found therein the principles upon which the profession of medicine was founded and on which it had developed for two thousand years.

In 1600 the great English scholar had declared the duty of the medical man to be first, the preservation of health, second the curing of disease, and third, the prolongation of human life. Breaking into

Early Returns Of B. C. Election

(Canadian Press)
VANCOUVER, Nov. 27—(C.P.)—Early returns from today's voting in Vancouver Centre for the British Columbia Legislature showed the Liberal candidate, Hon. Gordon Sloan, Attorney General, and Gordon Campbell, a slight lead over other opponents.

Co-operative Commonwealth Federation candidates were running close in early voting, however.

Liberals were running well ahead in the west end polls but in the east end C. C. F. candidates were running level with them.

Early returns from Victoria showed Liberals and C. C. F. candidates running neck-and-neck with Rev. Clem Davies, Independent, up with them.

Kidnap Slayers Lynched By Mob In California

Pair Seized After 2 Hour Battle, While Cheering Crowd Of 6,000 Looks On.

(Associated Press)
SAN JOSE, Calif., Nov. 27—Thomas H. Thurmond and John M. Holmes, confessed kidnapper-slayers of Brooke Hart, were lynched here last night by a mob of 100 men who smashed their way into the county jail after a two-hour battle to seize the pair. A whooping, cheering crowd estimated at 6,000 persons looked on.

Thurmond, first to confess, was unconscious when dragged to St. James Park, 100 yards from the jail, partially stripped and hanged to a tree. Holmes, a powerful man, fought for his life in vain. Twice he wrenched his hands free and lifted the noose from his head, but the third time it was put there to stay and, still kicking, he was yanked into the air.

In the glare of torches and flashlights the bodies dangled for half an hour or so—a macabre picture for the thousands who had assembled swiftly after the news of the lynching movement had spread through the city. Then the lifeless forms were cut down and there was no further attempt to interfere with officers.

Thurmond's body had been slightly burned by flames from the mob as torches during the hanging.

The lynching, occurring only a few hours after the torn body of young Hart, son of a wealthy San

FIRST CASH DIVIDENDS SINCE JUNE '31

Ford Motor Co. of Canada Makes Reassuring Announcement.

(Canadian Press)
EAST WINDSOR, Ont., Nov. 27—Expressing confidence that future prospects are now so definitely improved as to warrant such action, the Board of Directors of the Ford Motor Company of Canada, Limited, today voted \$1 cash dividend payable Dec. 31 to stockholders of record Dec. 4. Edsel B. Ford, President of the Ford Motor Company, Detroit, attended the meeting as a member of the Board.

The dividend will be disbursed more than 28,000 holders of the company's 1,859,900 shares. The dividend payment is the first since June, 1931, when 60 cents a share was paid.

VICTIMS BURIED In Moncton

(Canadian Press)
MONCTON, N. B., Nov. 27—(A.P.)—The bodies of Morris David, and his nephew, Simon Atlas, victims of Saturday's explosion in New Glasgow, were brought here today by train and burial made in the afternoon at the Jewish Cemetery, Chartersville. The entire New Glasgow population attended the final rites which were conducted by Rev. J. Spiro, local Rabbi.

MINERS REJECT WAGE CUTS

(Canadian Press)
NEW GLASGOW, N. S., Nov. 27—Further discord loomed tonight in the mining fields of Acaadia Coal Company in Pictou County.

Its workers voted overwhelmingly to reject wage reductions demanded by receivers-liquidators who claim operation of the mines impossible without a drastic cut in expenditures. But only 206 of some 1,300 miners voted today in the referendum which showed 208 against acceptance of the proposed decreases of 13 1/2 to 25 percent, with only 58 in favor.

Members of the United Mine Workers, recognized official union, abstained from voting, and its members picketed ballot booths in the towns of New Glasgow, Stellarton and Thorburn. Only at one booth in New Glasgow did trouble occur, however, and with arrival of police peace was restored.

Still Too Much Wheat Is Report

(By Albert W. Wilson, Associated Press Foreign Staff)
LONDON, Nov. 27—An exhaustive survey of world wheat conditions by the International Wheat Commission brought no cheer today to Canadian and other delegates representing the big exporting nations.

After hearing a report by A. Cairns of Canada, the Conference Secretary, regarding his tour of European wheat exporting countries, several delegates expressed the opinion that international wheat market conditions were "not at all promising" because the problem of overproduction was still unsettled.

FIRE DESTROYS HOTEL

(Canadian Press)
PARNHAM, Que., Nov. 27—Ruins today were all that remained of the Morin Hotel here, completely destroyed by fire over the week-end. Damage was estimated at \$15,000. The blaze broke out late Saturday afternoon and residents of the hotel escaped easily.
