Anti-Automobile Meeting

A public meeting of the inhabitants of West Devon and vicinity was held in the School House on the 9th inst. with Mr. Cephas Grigg as Chairman and the undersigned as Secy.

This meeting was well attended although the weather was not agreeable.

After a number of those present had voiced their protests against the methods being used to open up the public roads to auto-traffic and stated that a petition had gone forward to the government carrying the names of those against their running to the numbers of fifty.

The following resolutions were put and carried unanimously:
Whereas a portion of the Western Road from Portage to McNaught's Corner, the Bras Road to the Chapel, the Beaton and Ashville Roads, has been canvassed for the opening of same to automobile traffic and those who were known to be in favor of their running were canvassed and signed the petition, while a number of those who were against their running on the highways were not given a chance to sign the said petition, which is unfair and un-British, thus making it easier to get the necessary 75 per cent.

Therefore resolved, that this meeting places itself on record as being opposed to such tactics, they are not neighborly and not what we would expect from those who circulated the petition.

And further resolved that we ask the government for protection from such methods.

SECOND RESOLUTION:

That whereas, the running of automobiles on our highways is not in the interest of the country.

Their running being destructive to the roads, as at present constructed, and to make them capable of withstanding the wear of the cars means increased taxes.

Their running on the roads makes it almost impossible for women and children of nervous temperament to have their rights on the roads, and are a continual source of annoyance to the farmer who is breeding horses and against his interests.

Therefore Resolved, That we place ourselves on record as being unalterably opposed to the running of autos on the public highways. Their record is a continuous violation of the laws, making additional cost to the individual of country for the maintenance of the laws.

And further resolved that we deplore the little respect shown by our Legislators for the Plebiscite taken at the School Meeting also the stand taken by some of the Representatives of the Farmers at the last session of our Legislature and especially those who signed a pledge to protect the farmers and reserve to him and his family their rights on the public roads untrammelled.

At the close of the meeting a Branch of the Anti-Auto Association was organized with Mr. Cephas Grigg, Pres. Mr. H. M. Ritchie, Vice-Pres., Mr. Ch. Moreshead, Secy., Treas., Committee: Messrs. Geo. Large, West Devon, John MacKie, Alaska, Holson Goff, Roxbury.

Great Rally Of Presbyterians

TORONTO, October 11.—The forces of Presbyterianism are planning a great convocation of men and women from all Canada who are prepared to fight to the last ditch the movement now inaugurated by the act of the General Assembly to destroy the identity of the church by the union with the other churches.

Delegates from all Canada from coast to coast have intimated their determination to be present at the convocation which will be one of the most important church gatherings that has ever taken place in Canada, and promises to be a historic gathering.

The convocation is to be held in St. Andrew's Church, King Street, beginning on October 17th and ending October 19th, and the session will be memorable.

The convocation will be opened by a solemn preaching service in the afternoon of Tuesday, when the sermon will be preached by Dr. D. D. Macleod, Barrie. Following the sermon one of the most important addresses of the convocation will be made by the Rev. Robert Campbell, of Montreal, on "The Future Policy of the Church."

At the meeting in the evening J. C. Brown, New Westminster, will speak on "The Contribution of the Presbyterian Church to its Policy and Decline to the Rights of the People and Civil Government." Rev. Robert Johnston, M. A., Halifax, will speak on "The Contribution of the Presbyterian Church to the Religious Life of Canada." Next day Rev. Dr. E. Scott, Montreal; Rev. J. D. Cunningham, Yarmouth; Rev. F. A. Logan, Gagetown; Rev. Dr. T. F. Walker, Charlottetown, P. E. I.; Rev. W. H. Fraser, Vancouver, and Mr. John Mackay, Toronto, will address the convocation.

Sir Mortimer Clark will preside.

Corporal Jeffrey went to England last fall and joined the Scots Guards, who have so greatly distinguished themselves.

BELGIAN SOLDIER MADE HIS ESCAPE
Montreal, Oct. 11.—If Canada was not there, I believe we would starve to death.

These are the words which Gaston Leonard, a Belgian soldier, quotes himself as having repeated many times when he stood in the line and received his bit of food from the Belgian Relief Committee. Leonard quotes himself as having used these words, writing to Louis H. Bourdon of this city.

Leonard was among those held prisoner when the German army first swooped down upon Belgium and for months he was in the occupied section until he was fortunate enough to escape and join the Belgian army.

Describing the scenes before his escape he tells of the numbers of cases he had seen marked "Gift of Canada" and how the Belgian people all extend their gratitude to those who have sent them. These cases are the same sent from Montreal and Halifax by Belgian Relief Committee of Canada, all purchased with the gifts of Canadian people.

This committee with its headquarters at 59 St. Peter Street, Montreal, is still keeping up to the work of feeding these people. The committee is looking for donations gifts of \$2.50 to keep a Belgian family a month or more or less as the giver may feel able to send to the Montreal office or to the branch in this town.

The Presbyterian Church Crisis

When the Assembly remits a matter to Presbyteries, those not voting are counted "nay." This is a law of the Church. By the same rule, when the Assembly remitted this question to the people, only one-third of our membership has voted "yes" and two-thirds "nay."

(3) A third fiction in that document is its attempt to reassure the unwilling by telling them that even if they should be driven out of their Church and into another against their will, they would find no change. That fiction is a specially unworthy one in that it is so patent an untruth. No congregation can be part of a Church without coming under its government and laws.

We would be exchanging a Church, broad and liberal, yet with Standards of Scripture truth to which it is pledged, for one which has thrown down all safeguards of Truth, by deliberately dropping out of the Basis of Union the one question which would pledge ministers to the System of Truth in that Basis. Ministers in the new Church would be pledged to no System of Truth, not with that of its own so-called Basis.

The ordained eldership, which has been a foundation principle in the Presbyterian Church, would, together with "Session" and "Presbytery" be little more than a name, a shadow of the reality.

Every congregation, from least to greatest, would at once come under the control of the Settlement Committee. No matter what time a congregation might become vacant, it could only call a minister at one time in the year, at the Annual Meeting of the Settlement Committee, and if that call should fail, or the Settlement Committee decline to grant it, the congregation would have to wait another year, and take such supply for the year as the Settlement Committee might choose to send.

The Settlement Committee would be a combination of wise pulling and despotism, to which the liberties and rights of both ministers and people would be sacrificed. We would be exchanging one of the freest Churches in the world for a system of ecclesiastical bondage.

If Germany were to win this war and the British Empire were merged into one world-dominant power, most of our people would eat and sleep, work and rest, buy or sell as before, and, according to Germany's claim, the imposition of her "kultur" would be for our good. But men and women of the British Empire, while desiring world-wide brotherhood, prefer to be Britons still, with all that the name implies.

In like manner the men and women of the Presbyterian Church while living and working in unity and harmony with all true Christians, will not surrender their Church which they love, for an ecclesiastical autocracy which is being thrust upon them, the spirit of which is even now manifest in its disregard of understandings and assurances, in its complete ignoring of the increased opposition of the people, and in the insult which ecclesiasticalism has thus offered to the membership of the Church.

(4) A fourth fiction in that document is that this merger is needed for the wider expression of Christian fellowship.

There are two kinds of togetherness, that of cohesion and that of compression; on the one hand brotherhood of spirit with outward variety and freedom, on the other hand unity with uniformity under central domination. In Europe's politics, these two principles are locked in deadly struggle, and liberty will win.

In the Church there is the same conflict. Some are working for a larger outward uniformity under one dominant sway. Those continuing the Presbyterian Church, stand for the liberty of diversity and for unity and fellowship with all true Christians of every name. The latter have the wider expression of Christian fellowship. The only thing that would be wider in the proposed change would be wider bureaucratic control and a wider kindling of division and strife.

Let all lovers of our Church take courage and rally to her help. She will continue as in the past in unity.

In connection with this majority (a) Majorities rule within the Church but, while any who wish may withdraw, no majority can compel people from one church to another.

(b) The so-called "majority" vote is only one-third of the entire membership. No firm can legally merge its business with another firm without the affirmative vote of at least a majority of its stock.

(c) Even that one-third vote was asked and given upon the assured understanding that no further steps would be taken unless there were "practically unanimous action." To use that vote as has been done by the Assembly, is a distinct violation of the understanding.

"CASCARETS" BEST IF HEADACHY, BILIOUS SICK, CONSTIPATED

Best for liver and bowels, bad breath, bad coals, sour stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels; sour, gassy stomach.

It loosens matter clogged in the intestines, instead of being cast out of the system, is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver, and carry out all the accumulated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head, clear, stomach sweet, breath right, complexion racy, and your liver and bowels regular for months.

The Big Show Is Here

Once a year retailers and newspapers all over North America concentrate in one week on one kind of a display window, it comes pretty near being The Big Show.

It is now going on. Many of our own merchants are participating as anyone can see by looking at the windows filled with newspaper advertised products and bearing the signs giving the reason for their presence.

When thousands of dealers in nearly 400 of the principal cities of North America concentrate in one week on one kind of a display window, it comes pretty near being The Big Show.

It is in fact the most impressive advertising demonstration ever held anywhere—the visualizing the super power of newspaper advertising.

This year Window Week shows a greater variety of products than ever before, for many more general advertisers have come into the newspapers in 1916 than in any previous year.

This year more readers are taking part because of their desire to convince manufacturers that the only kind of advertising that helps them is direct newspaper advertising.

This big show International Newspaper Window Display Week—is well worth the study of anyone interested in the great problems of advertising and merchandising.
