RADIO PROGRAMMES

Could our forefathers come back what surprises would they see—cinemas, autos and radios. They had to improvise a great deal, for we have so much more done for our comfort and entertainment. Surely one of the most wonderful inventions is the radio, but one often wonders if some of the programmes offered are conducive to the good of the listeners. Of course we have this compensation, we can turn off if we do not like what is offered.

PRINCE EDWARD ISLAND AUXILIARY
THE UNIVERSAL BOOK
"During its long history the Bible Society has been working on the assumption that the Bible is intended for all men and has been putting the Book into the hands of all who will receive it. Learned and simple, young and old, rich and poor, black and white—it matters not who men are, where they live or what their condition. The Bible is the Book for them. It is the universal Book, and the Bible Society has made it universally known and loved." - John A. Patten.
