## DETAILS OF FATAL ACCIDENT

(Special to The Guardian)

The Jury empanelled to enquire into the death of Philip V. Arsenault, returned the following verdict yesterday afternoon at the inquest held in Bowness Undertaking Parlors before the Coroner, Dr. E. T. Tanton.

"We, the Coroner's Jury empanelled in Bowness Undertaking Parlors on Sept. 8th, 1932, to enquire into the cause of death of Philip Arsenault, find that he came to his death as the result of a fractured skull being struck by an auto owned and driven by Charles Cahill while under the influence of liquor, driving too fast and without lights. This accident took place opposite Sam Grady's store, West Water St., at 8 p. m. Monday. We recommend that wagons carry lights or reflectors after sundown and that the law be more rigidly enforced."

Signed—W. J. LeVone, Foreman; A. S. McKay, Thos. Johnson, J. P. Williams, Neil McLeod, J. A. Morrison, John Harding.

The Inquest

Following a charge of manslaughter being laid against Chas. Cahill upon the death of Philip V. Arsenault in the Prince County Hospital at noon, an autopsy was held on the body in Bowness Undertaking

## Must Give 30 Days Notice

(Canadian Press)

OTTAWA, Sept. 8.—The board railway commissioners in a judgment issued here today declined to give the railways discretionary powers to cancel freight rate schedules on less than the statutory 30 days notice, but pursuant to the provisions of the Railway Act, the board is prepared to consider individual cases involving such cancellation on less than that period of notice.

The question arose when the railways represented that unregulated motor truck and waterborne traffic had forced them to reduce their rates in certain instances in order to hold the railway traffic. Such reductions had been made on promise of shippers to forward their goods by rail. Difficulties developed, however. When meeting this competition on their side the unregulated carriers made further reductions. As a result of this inducement many shippers abandoned the railways thus falling to live up to their promise. In cases of this character the railways were required by the railway act to give 30 days notice before they could restore the reduced rates to normal. They desired authority in such instances to cancel the reduced rates on 5 days notice.

The judgment says that any individual application for cancellation will be considered on its merits upon less than the statutory notice.

## Demonstration Quashed In Newfoundland

(Special to the Guardian)

ST. JOHN'S, Nfld., Sept. 8.—(By the Canadian Press)—Practically the entire police force of St. John's arrived at the town of Carbonear tonight to find that the threat of their coming had stayed the hands of unemployed rioters.

The trial of a rioter charged with assault was allowed to proceed only after Magistrate John Casey had caused the riot act to be read and word of the city police's imminent arrival had reached the town. Thirty police remained in Carbonear overnight fearing disturbances tomorrow.

The trouble had its beginnings last week when a crowd of 600 protesting against a cut in the dole ration to unemployed put on a demonstration at the Court House. One of their number, Clarke by name, was charged with assaulting a police sergeant. But when on Tuesday police went to Perry's Cove with a warrant for Clarke's arrest his friends refused to turn him over to the court. They promised to deliver him today, but threatened that he would be released by force if punishment was meted out on the assault charge.

This morning a crowd of about 200 from Victoria village and Perry's Cove, nearby settlements, interrupted the court proceedings. Magistrate Casey was unable to give judgment and a hurry call was sent to St. John's. From the Capital one hundred and fifteen police left by special train for the town on the other side of Conception Bay. Meanwhile the Magistrate had instructed a Justice of the Peace to read the riot act. Word of the police reached Carbonear. The trial was resumed. Magistrate Casey found Clarke guilty and suspended

## IRISH TRADE TREATY WILL BENEFIT CAN.

Experts Say Dominion Has Made Shrewd Bargain With Free State.

(Special to the Guardian)

OTTAWA, Sept. 8.—Canada, in her Imperial Economic Conference negotiations with the Irish Free State, has made a shrewd bargain, according to information from an authoritative source. Instead of the British preference the Dominion has acquired a most favored nation standing with the Free State.

The Star learns that under the agreement with the Free State, details of which are withheld until the meeting of parliament, Canada not only gets the benefit of any preference which the Free State may accord to empire goods, but also any tariff advantage the Irish may extend to any other nation whatever.

Details of the agreement are closely guarded, but it is considered in official circles one of the best treaties yet negotiated by the Dominion, and under which Canadian trade with the Free State will be greatly augmented.

At present Canada sells \$2,660,000 worth of commodities to the Free State and only buys \$45,511, chiefly textiles and iron and steel products. A greater trade is looked for when the treaty goes into operation.

OTTAWA, Sept. 8.—(A.P.)—What is described as an "astounding drop" in business failures is reported by Bradstreet's weekly report covering the final week of August. Failures declined from 527 the preceding week to 435 for the week ended Sept. 1. It was the smallest total for any week since November, 1931.

NEW YORK, Sept. 8.—(A.P.)—Wholesale prices showed a fractional increase for the month of August, as compared with the previous month, this being the first advance since last November, it is reported by the Dominion Bureau of Statistics.

For the month of August the index number stood at 66.8 against 66.6 in July, and 70.7 for last November, when the last increase was recorded.

Increases in prices for non-ferrous metals, raw textile products, butter and eggs were responsible in large part for the rise in the index.

Animal products rose from 57.9 to 58.8, textile products 69.0 to 69.3, non-ferrous metals 56.1 to 57.3, non-metallic minerals 83.7 to 85.9, chemicals and allied products 82.7 to 82.9.

Vegetables products fell from 55.2 to 55.1, wood, wood products and paper 71.2 to 71.1 iron and its products 86.4 to 86.1.

OTTAWA, Sept. 8.—(C.P.)—Canada is maintaining her favorable foreign trade balance, according to figures covering the 12 months ended July 31 last. With a total trade for the period of \$1,043,255,092, Canada exported \$36,097,514 worth of goods more than she imported from other countries.

Total trade for the same period a year ago was \$1,511,199,490 and at that time Canada had an unfavorable balance of \$65,000,000.

BERLIN, Sept. 8.—While President Von Hindenburg was appearing Chancellor Franz Von Papen today, that he would support the Chancellor's government through thick and thin, Adolf Hitler, leader of the National Socialists, came back to Berlin to take personal charge of negotiations aimed at upsetting that Government with a coalition of his Nazis and the Centrist Party.

The Chancellor visited the President who has just returned to the Capital from his east Prussian home in preparations for Monday's session of the Reichstag.

Members of the Government took heart from a speech made in Munich yesterday by Hitler. The Nazi leader said in this address that he would proceed to reshape the constitution on a legal basis and that he cared nothing for titles or Chancellorships so long as leadership was in his hands.
