

THE DREADED CARPET BEETLE NOW IN NEW BRUNSWICK

ST. JOHN, July 8.—Housewives beware! The dreaded buffalo bug or carpet beetle has at last arrived in New Brunswick. Wm. McIntosh, curator of the Natural History Society, has now in his possession four full grown specimens of this household pest which were sent him by a lady in Fredericton and which are the first to be discovered in this province. Some two or three years ago it was reported that the beetle was creating havoc at Woodstock, but a specimen submitted to Mr. McIntosh at that time was not the right species. The carpet beetle is a stout oval insect one-eighth of an inch long and somewhat resembling the ordinary lady bug, except that it is covered

with short bristly hairs. The pest originated in Asia and was brought to Boston in 1784, afterwards spreading over the whole continent. The carpet beetle breeds very rapidly and makes its home in woolen goods or dried animal matter, infesting hair-cloth and tapestry furniture, rugs, carpets, etc., but it is predilection for carpets which makes it so dangerous. The buffalo bug simply eats up the carpet, and when the man of the house begins to wield the carpet beater in the spring he need not be surprised to have the affected fabric drop to pieces under his blows. These insects may be detected when present in a very simple manner by simply lifting the carpet as they may be then seen running over the floor. A very simple remedy suggested by Mr. McIntosh is to wring a cloth in scalding hot water and then spread it over the infected carpet and press with a hot iron. The steam from the cloth will strike down through the goods and effectively destroy all living things underneath. Spraying with benzine will also remove the beetles. Mr. McIntosh has the four beetles under observation and will not destroy them until he has witnessed the different stages of development.

KAISER ELECTED PIERPONT MORGAN.

KIEL, July 7.—A local newspaper says that the kaiser overrode the customary formalities in making J. P. Morgan a member of the Imperial Yacht Club. The club is one of the most exclusive in Europe and the names of aspirants for membership must be posted for weeks in the club house, the ministry of marine and elsewhere. One blackball excludes a candidate. The kaiser waived every precedent. He simply entered the club and announced, "We have a new member obtain Rexall Remedies in this community only at our store—The Rexall Store. MacKinnon Drug Co. election on the record of the club.

Cupid's arrow touched the heart of another popular member of the Canadian Club of Oakland, says the Oakland Calif. Maple Leaf, when Alexander MacQuarrie, whose interest in the Club has long been universally acknowledged by the entire membership, took unto himself one of California's lovely daughters, in the person of Miss Grace Smith, a native of Jamestown, Tualumne county. The marriage ceremony which made the young couple life partners, was performed by Rev. T. Phillips at San Rafael, Cal., on Wednesday, June 14th. The bride is a graduate of the Gallagher-Marsh Business College of San Francisco, and up to the time of her marriage held an important position with an insurance company of that city. Mr. MacQuarrie is a native of Prince Edward Island, a son of John MacQuarrie of Bonshaw, and is one of Oakland's leading milk dealers. He has always taken an active interest in the affairs of the Canadian Club, and when misfortune or sorrow overtakes a member, is among the first to offer sympathy. After returning from their honeymoon at Del Monte, the happy couple took up their residence at the Laguna Vista Apartments, Twenty-second and Harrison streets, where the best wishes of many friends, for a long and cloudless wedded life, follow them.
