Miss Wealthie D. Weatherbie has returned to her home in Vernon River after an absence of six months.

The Crystals of Summerside and Victorias will meet for the first time this season in the Arena on Friday, Jan. 31st.

Miss Edna Laird and Miss Edith Houston, of North Rustico, are on a visit to their many friends in Augustine Cove and Tryon.

The death occurred at Middleboro, Mass., Jan. 1908, of Maggie A. beloved wife of Harding C. Angus, and third daughter of Nicholas McNevin, Bonshaw. She leaves to mourn a husband, father, two sisters and one brother—Mrs. James D. Lamont, St. Catherine's, Mrs. Belle McLaughlin, and Malcolm at home.

Turkey dinners are the order of the day as well as the night around Hunter River by way of welcoming the recent arrivals from the West.

A delightful evening was lately spent at the home of Capt. P. A. McKenzie. The table was all that could be desired and highly creditable to the host and hostess.

The evening was enlivened with piano and violin music which added greatly to the enjoyment of a large number of invited guests.

The Mission Band concert given in the Presbyterian Church at Clyde River recently did credit to the children, and the ladies who took pains in training them.

The night was fine, the audience large, and the entertainment was in every way a success. The generous offering goes to the Mission Band fund. After the program two lately married ladies of the choir, Mrs. George Beer, and Mrs. Hector Darroch were presented each with a parlor table, and the minister with a purse of \$35 as tokens of gratitude, and good will of the congregation. Such expressions "lighten labor, and sweeten life."

Joe Page, through whom the Montreal A. A. secured Fred Logan as its representative, declaims having had any intention of stealing skaters from St. John. His position is as follows: Seeing Logan unattached to any club and liable to skate again for the Verona Lake Skating Club they desire him to skate under the colors of a Canadian association instead of an American one and so become eligible to skate at the Olympic game. As a result Page and Logan attached to the Montreal A. A. That association is also after other St. John representatives. Evans has been asked to give his reply this week. There is also a possibility of Bart. Duffy racing for the M. A. A. as arrangements with the Charlottetown people are said to be not exactly satisfactory. The Maritime Skating Association will also be represented at the championships.

The Tunnel Social held recently at North Wiltshire proved a success in every respect about four hundred people being in attendance. J. M. Nicholson acted as chairman in an acceptable manner. The program consisted of several choruses by the choir, comic songs, recitations and gramophone selections. Capt. Jos. Read who was present by special invitation delivered a very able and instructive address on the Tunnel which was listened to attentively on the part of his audience. Many and loud were the volleys of applause tendered the popular captain as he made point after point in connection with this vast undertaking which is becoming to be acknowledged as the only means of placing the people of this Province on an equal footing with their brethren on the mainland. A hearty vote of thanks to the speaker of the evening was moved by L. L. Jenkins and seconded by D. T. Fraser in suitable terms. The baskets were auctioned by D. E. Campbell in his own original manner, and realized high figures. The proceeds amounted to Mavouneen, Mavouneen, my sad ducing the debt of the Hall.—Com.

The Farmers' Institute of York met in the hall at Marshfield on Monday evening. The president, Major Crockett took the chair and introduced to the audience the speaker of the evening, Prof. Ross. In his remarks the professor said in reference to the dairy industry in this Province that he regretted it had fallen off in five years to half, and claimed that if the dairying business went down it would be most detrimental. The labor of running the dairy in this Province is much less than any other this side of the Prairie Province. The speaker also mentioned the superiority of the seed grown in this Province and of the large majority of prizes secured at the recent seed fair in Truro. He mentioned how well adapted this Province was for the Dairy industry and also said with the cheap labor and good soil any amount of seed might be raised. The president also made a few remarks recommending the speaker, whom he had heard on several former occasions but never had given a better address. Several other members gave their opinions and the different thoughts were ably discussed to the advantage of all present. The meeting closed with a vote of thanks to the speaker of the evening, moved by J. T. Ferguson, seconded by John Anderson, and carried unanimously and enthusiastically.

The speaker also mentioned the superiority of the seed grown in this Province and of the large majority of prizes secured at the recent seed fair in Truro. He mentioned how well adapted this Province was for the Dairy industry and also said with the cheap labor and good soil any amount of seed might be raised. The president also made a few remarks recommending the speaker, whom he had heard on several former occasions but never had given a better address. Several other members gave their opinions and the different thoughts were ably discussed to the advantage of all present. The meeting closed with a vote of thanks to the speaker of the evening, moved by J. T. Ferguson, seconded by John Anderson, and carried unanimously and enthusiastically.

The Farmers' Institute of York met in the hall at Marshfield on Monday evening. The president, Major Crockett took the chair and introduced to the audience the speaker of the evening, Prof. Ross. In his remarks the professor said in reference to the dairy industry in this Province that he regretted it had fallen off in five years to half, and claimed that if the dairying business went down it would be most detrimental. The labor of running the dairy in this Province is much less than any other this side of the Prairie Province.
