

For Lung Troubles

Ayer's Cherry Pectoral certainly cures hard coughs, hard colds, bronchitis, consumption. And it certainly strengthens weak throats and weak lungs. There can be no mistake about this. Your own doctor will say so. Just ask him about it, then do as he says. We have no equal! We publish the formulae of all our medicines. J. C. Ayer & Co., Lowell, Mass.

FOLLOWING is a copy of the address presented to A. Stetson of Marshfield as reported in our columns a few days ago. To Mr. A. Stetson:

We with deep regret learn that you are about to depart from amongst us, to take up your abode in the Great West of this Canada of ours.

You have resided amongst us since your boyhood, and we can faithfully say that we have always found you to be a man, and one that has taken a leading part in any movement that was for the betterment of the district in which we reside. Beside the industry that you have shown as a farmer we have found you to be neighbourly and kind, always willing to give a helping hand or a word of good advice when needed.

Since you have decided to move from beloved Prince Edward Island, we are pleased that you are still to live under the British flag, and help to build up that great heritage of this Dominion, the Canadian North West.

We trust that you will be successful in all your undertakings, and when you are called to that greater heritage beyond, your reward will be that of the faithful servant.

To Mrs Stetson and family, we wish every happiness in their new abode, and trust that God's blessing will rest upon you and yours wherever you abide.

On behalf of your neighbours we ask you to accept this purse as a small token of their esteem.

Signed JAMES WYATT, FRED TURNER, WM. GODFREY, DAVID FERGUSON, ALEX. STEWART, E. C. McDONALD.

STRANGE FACTS.

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat. It may be the weather, or it may be just the state of your general health, but in any case, there is only one certain, safe and positive method of cure, and that is the proper use of that universal remedy, for all forms of dyspeptic trouble or digestive weakness, whether in stomach, liver, kidneys or bowels—Stuart's Dyspepsia Tablets.

Strange, it is, that in such little tablets, to be taken a few times a day, may lie such wondrous potential possibilities, that by their use the course of a man's whole life—yes, of the world—may be changed.

Yet, who would not appreciate the fact that if Napoleon had not been suffering from Cancer of the Stomach he would have won instead of lost—at Waterloo!

And Stuart's Dyspepsia Tablets would have cured his stomach trouble had they then been invented, as they have cured thousands of others in the past ten years, who have suffered just as Napoleon did.

So you can readily appreciate that today, by curing all these people, Stuart's Dyspepsia Tablets is helping to get the world's work done, by people who would do worse work if they were sick, so they must be having a great influence, in a quiet way, on the world's progress.

They may, therefore, be classed as one of the triumphs of science, amongst other discoveries, in medicine, mechanics, transportation, etc.

Let this, then, remain in your memory, a fact upon which to act when occasion requires:—

When any organ in your vast digestive machinery gets out of order, you have at your command one of the great inventions of the age, in Stuart's Dyspepsia Tablets, to put your machinery in order again.

By so doing you will save much useless friction, add to the energy and working possibilities of your bodily machine, and relieve yourself from suffering, disease, weakness, premature old age and death.

All this is strictly in accordance with the most modern teachings of the best scientific schools of health, hygiene and medicine, and it will be to your advantage to lay these facts to heart.

Don't hesitate. Try Stuart's Dyspepsia Tablets today.

GLASSES, Cannot be Fitted by Rule.

A theoretical knowledge of the science of fitting glasses, is very necessary. The knowledge which the well grounded optician has gained from years of practical work, more than doubles the capability of such an one to do accurate refraction.

With the knowledge gained by over ten years of practical work, coupled with a good theoretical knowledge, and aided by the most modern methods of examination, we claim to be especially well qualified to serve the public optically.
