St. Joseph's Church, Vernon River was the scene of a very pretty wedding on Tuesday Jan. 27th, 1903, when James Monaghan, Hazel Brook, was united in the holy bonds of matrimony by Miss Gertrude Sullivan of Vernon River Bridge. The ceremony was performed by the pastor Rev. Dr. Doyle. The bride wore a very pretty and becoming white hat. She was attended by her sister, Miss Annie Sullivan while the groom was supported by his brother John Edward Monaghan. After the marriage ceremony the party drove to the bride's parents where a sumptuous dinner was served and after spending a few hours in pleasant enjoyment the young couple drove to their future home in Hazel Brook where they were received by their friends. The high esteem in which they are held was shown by the receipt of their many and costly presents among which may be mentioned a handsome cheque to the bride from her father, and a marble clock to the groom from the officers of the Hazel Brook Dairying Company. Congratulations.

THEORIES ABOUT FOOD.

Also a Few Facts on the Same Subject. We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the larger cities where no meat, pastry or coffee is served and the food crank is in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs; and almost make us believe that our sturdy ancestors who lived four score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind from bacon to scerns. A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetable meat furnishes the most nutriment in a highly concentrated form and is digested and is assimilated more quickly than vegetables and grains.

Dr. Julius Remson on this subject says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use.

The large class of people who come under the head of nervous dyspepsics should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are useless for indigestion as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

The new market house to be erected next summer will, no doubt, be modern and up-to-date and it is to be hoped that the City will consider the requirements of those who will occupy it. We think that stall-holders should be consulted regarding how it is to be laid off and sufficient space given them to meet their individual requirements and if they are willing to pay for it, why not give it to them? We are now established in the new market block, east end, next to Saunders & Newsom's meat market. Farmers and others when in town should call and take advantage of our cut on onions, 10 lbs for 25c and by the barrel low. The Americans have thousands of acres of glass devoted to the culture of lettuce. We are the only firm on the Island that have lettuce in the market at present, but our sale is so limited here that we are compelled to ship it to other towns, such as Sydney, when this place should consume all we raise. For winter vegetables we have parsnips, carrots, beets, turnips, cabbage, potatoes, onions, etc. In canned goods tomatoes, peas, corn, (sundries) beans, peas for soup, herbs, savory, sage. Cash paid for fresh killed rabbits.—J. J. Gay & Son. 23 Fri and Tues and w 2 wks
