Where Eye Troubles Begin

Most eye troubles begin in childhood. A little abuse—a little strain in early life—means much more after maturity. The slightest symptom should be looked into. Often, if glasses are prescribed in time—actual disease is prevented—and they can be discarded as the child grows older. Ask your doctor or come to us and have your eye or girl's eyes tested, and fitted with glasses only if needed.

Forgot Where He Had Found Gold.

"There's a man with a hard luck story beside which our troubles look like 30 cents," said one human derelict to another as they stood in front of a cheap lodging-house. The man to whom he referred had just emerged from the building. He slouched along in a despondent way, with downcast eyes, stooped shoulders and that look of resigned hopelessness peculiar to those who have long been well-nigh penniless and never expect to be anything else. As he disappeared into a neighboring saloon, the man who had pointed him out to his companion resumed his story.

"I knew that fellow well when we were both prospecting for gold in Southwestern Arizona. He, like most of us, had been at it a long time without having any luck, and was down to hard pan, when one day he suddenly turned up with a bunch of nuggets rich enough in gold to make your eyes pop out of your head. He started in to whoop it up, and whoop it up he did until his stake was gone. Meanwhile he had told enough to convince us all that he had found a bonanza, but no amount of persuasion would induce him even to hint at its location. About the time he went broke the 'rot gut' he'd been drinkin' got in its work and he had the 'Willies' as bad as I ever saw a man have 'em. When he came to, his memory was gone. Not a single event in his past could he recall for months, when some portions of it began to come slowly back to him. The location of his bonanza, where nuggets of the richest kind could be picked up from the surface, could never again be recalled by him, not even a general idea as to its direction, and to this day it remains among the many lost gold mines of that locality."

"Gee, that's enough to make a man swear off forever, and I'd do it if I thought I could remember where there is a gold mine," said the second derelict as he and his companion followed the "man with a history" into the saloon.

HE CAN PROVE IT.

Mr Chalker is prepared to Substantiate the Truth of the Statements He Has Made.

HOUSEY'S RAPIDS, Ont. 27th.—(Special)—The open letter of Mr. George C. Chalker, of this place, published in the daily papers some time ago, has created quite a sensation and considerable inquiry from those who do not know Mr. Chalker. His friends are well aware that he would not put his name to any statement that he could not substantiate the truth of every assertion he made. In the letter he said— "I was laid up with Kidney Trouble and was so bad that I could not do a day's work. My back was very sore. I had heavy, aching arms and dull, bloated eyes, I was very weak and much reduced in weight. Six boxes of Dodd's Kidney Pills cured me completely and I have not the slightest trace of Backache or Kidney Trouble."
