Admiral Kolchak Gives Reason For Retreat From Omsk

WASHINGTON, Nov. 22.—Explaining the retreat of Siberian troops and the removal of the seat of the Government from Omsk to Irkutsk, Admiral Kolchak, in a message to the Russian Embassy, made public today, said the sacrifice had been made in order to preserve the army for a further struggle against the Bolsheviks.

"The high morale revealed by the troops in the heavy fighting of the last months," the Admiral said, "sustains in the Government the unshaken faith that after a rest and strengthening of the Siberian armies with men and equipment, the troops will again acquire a powerful impetus."

Extreme difficulties in supplying the armies on the front and the superiority in numbers of the Bolsheviks were the principal factors in the retreat and evacuation of Omsk, the message said.

The awakening of the national spirit in the Russian people in their struggle with the Bolshevik-Internationalists, and the strengthening in the population of hatred for the terrorists, Admiral Kolchak thought, permitted the Government to regard the future with confidence. As striking proof of the popular hatred for the traitors he pointed to the almost general flight of the population before the Bolsheviks in the recent advance.

Government Policy Not Settled Re Orders In Council

OTTAWA, Nov. 21.—No definite policy has yet been adopted by the Government regarding the continuance in effect of orders in council after the proclamation of Peace on Dec. 1st, with Germany and Austria. It is not probable that the treaty with Bulgaria will be signed in time to include it in this proclamation, leaving only Turkey our enemy belligerent country.

Owing to the doubt existing as to the fate of Turkey in Europe, there may be considerable delay in consummating Peace with that country. It is not believed that the Allies desire to retain in effect war restrictions for such an indefinite period as reconstructing the Turkish Empire will require, and that immediate steps will be taken to remove all restrictions, except those dealing directly with the only remaining belligerent power. The United States was expected to play an important part in the disposition of Turkish territory, and as mandatory power for some of the present subject races in Turkey. There was hope that the Bosphorus would be internationalized under the direction and supervision of the United States. The action of the United States Senate in refusing ratification of the Peace Treaty has upset the Allied powers' intention toward Turkey and they must adopt some other policy.

BANK OF MONTREAL ANNUAL REPORT SHOWS READJUSTMENT TO POST-WAR CONDITIONS

Outstanding Features Are Substantial Gains in Deposits and in Current Loans—Earnings Were At the Rate of 16.57 p. c. on Capital—Many interesting changes.

Montreal, November 21.—(Special.)—The annual statement of the Bank of Montreal for the fiscal year ending October 31st will be of special interest this year, as it indicates how quickly the bank is meeting peace conditions throughout Canada. During the war period the bank assumed heavy commitments to assist the financing of the Dominion and Imperial Governments, but since the armistice every endeavor has evidently been centered on getting back to normal line of business.

Peace conditions naturally make for greater opportunities of trade and manufacture, and in providing for them there is a big gain in current loans throughout the country. As was to be expected, there was a decrease in the total assets, as compared with a year ago, when war conditions were still in force, so far as the banks were concerned. On the other hand, there is a very substantial gain as compared with the first six months of the fiscal year, to April 30th. Total assets now stand at \$45,304,809, as compared with \$55,412,546 at the end of the previous year and with \$48,927,197 at the end of the first six months of the year.

Strong Position Maintained.

While the various readjustments were being effected, a strong liquid position has been consistently maintained, and a real liquid reserve amounting to \$37,980,858, being 67.99 per cent of the liabilities to the public. The expansion that has occurred in trade and commerce is reflected by an increase in current loans of approximately \$18,000,000 and these now amount to \$16,825,591, up from \$146,028,861 a year ago.

The various campaigns for credit, which were inaugurated during the war period, are apparently having a good effect. As a result, deposits bearing interest have gained \$3,422,655.96, as compared with \$28,707,111, at the end of the first six months, deposits not bearing interest also show a gain and now stand at \$129,468,671, up from \$124,736,111, at the end of April last.

Since the close of its last fiscal year the bank has also completed, without inconvenience to the public, the absorption of the Bank of British North America, both capital stock and rest account being increased to \$20,000,000 respectively as compared with \$16,000,000.

Larger Business Handled.

The Profit and Loss Account, in turn, reflects the larger business handled, and the total profit brought to the total amount to \$3,314,227, or 16.57 per cent on capital.

Added to profits were \$3,000,000 premium on new stock and a balance carried forward October 31st, 1918, of \$1,961,618, which brought the total amount available for distribution up to \$8,715,845. Of this amount there was paid in dividends for 1918 and 1919 to Rest Account \$4,000,000; reserved for bank premises \$300,000; war tax on bank note circulation \$190,956 and installment subscription to patriotic funds \$39,750, leaving a balance to be carried forward to Profit and Loss of \$3,825,845, as compared with \$1,961,618 at the end of the previous year.

The principal accounts of the Bank show as follows:

Total assets	\$45,304,809
Liquid assets	37,980,858
Savings Deposits bearing interest	31,565,964
Current Loans and Loans to Cities and Towns in Canada and elsewhere	16,825,591
Capital Stock	20,000,000
Rest Account	20,000,000
Profits for the year	3,314,227
Balance of profits carried forward	3,825,845

U.S. Factories Closed For Want of Coal

(Special to The Guardian.)
CHICAGO, Nov. 24.—Industrial plants all over the middle west continued to close down today. Fuel supplies to public utilities were curtailed further and regional coal committees advised individuals to save coal, as the nation-wide strike of the bituminous miners entered its twenty fourth day.

The only large producing centre reporting an improvement during the last twenty four hours was West Virginia at Indianapolis. Manufacturers agreed to close their factories three days a week beginning today until the coal shortage is relieved. In Chicago heat was shut off in street cars.

MARRIAGES

McHAHEY-CURLEY.—At St. James' Church, Freetown, on the 12th Nov. by Rev. F. McQuaid, P. P. Mr. George McHaley of Kelly's Cross and Miss Lucy Curley, daughter of Mr. and Mrs. Patrick Curley, Freetown.

DEATHS

DIXON.—At Dixon's Mills, Belfast, Nov. 18th, 1919, Daniel Dixon, aged 75 years.

McCABE.—At her home, Newton, Lot 26, on the 19th inst. Bridget, relict of the late William McCabe aged 67 years, leaving one son and two daughters, besides a host of relatives and friends to mourn the loss of a kind, Christian woman. R. I. P.

IN-MEMORIAM

In loving memory of our mother who passed away August 25th, 1919.

"Asleep in Jesus, blessed sleep Never more to wake or weep."

Inserted by her loving daughter Ruth.

SHOWER BATHS FOR MULES.

The Tennessee Coal and Iron Company provides shower baths for the mules that work in its mines. Emerging from the sub-surface workings, the animals halt under arches of spray pipes, and are bathed in water, which is at intervals medicated to exterminate parasites that otherwise might find the animals agreeable camping grounds.

This system of bathing the animals is in vogue at most of the mines and the mules have become so habituated to regular bathing that they no longer require to be led to the showers. They go under the arches of their own accord and wait for the water.

One of the unexpected results of the bathing has been a reduction of feed bills. This, however, has not been entirely due to the shower baths, but principally to the general campaign against winged pests. Free from flies, mosquitoes, ticks and other live annoyances the mules, it has been found, eat less and keep in better condition.

PERSONALS

Miss Annie Henneberg of Morell left last week on a trip to Ottawa and Montreal.

Mr. and Mrs. Michael Barron, city, left Saturday for East Cambridge, Mass where they will make their home.

Mr. Neil McLeod, K. C. Summerside, came to the city last evening and is the guest of Mr. and Mrs. C. H. Longworth.

The friends of Mr. Frank Fraser of the Telegraph Office, are pleased to see him able to be out again after undergoing an operation in the P. E. Island Hospital.

Reception by Lieutenant Governor and Mrs. McKinnon

His Honor Lieutenant Governor and Mrs. McKinnon will receive at 61 Grafton Street on THURSDAY and FRIDAY the 27th and 28th inst from 3 p. m. till 6 p. m.

Visitors are requested to register their names in the visitors' book in the hall and to give their names to the A. D. C. on entering the Reception Room.

EDW. PALMER, Private Secretary

FALL LITTERS OF PIGS

Fall litters, in my opinion, are as profitable as spring litters, if either can be called profitable in these times of expensive feed and labor.

Fall pigs should come the latter part of September, so they will get a good start and be weaned about the beginning of December.

Plan to have the pigs eating some skim milk and oat chop and chaffs of corn, a little corn, not too hard, three weeks at least before weaning. If this is done, the pigs will not stop growing when the sow is taken away. While pigs fed in the winter may take more care and feed, this is more than balanced by the farmer having more time at his disposal during this season. Pigs do not mind cold weather, if they have a dry pen free from draughts and a good bed to sleep in. Feed the pigs only twice a day, morning and night, but be sure they have all they can eat each meal, and no more. Harry Palmer, Elgin Co in the Canadian Countryman.

MARGARINE

Discussing the pronunciation of the word margarine at the family breakfast table, Pater familias exposed the vulgar error of pronouncing it margarine. He gave as his reason the invariable practice in the English language of sounding the g hard when followed by the vowel a, as in Margaret. The son of the house, though unable to produce an exception to this rule, protested himself unconvinced, but said that he got over the difficulty by calling the stuff "marge."

The logical parent, not to be led away from his point by this false scent, then appealed to authority. "When you go back to school," he said, "notice how your headmaster pronounces the word."

"Oh," was the reply, "he always calls it butter."

CHANGES IN RACING RULES

By W. H. Gocher.

The joint rule committee of the National and American Trotting Associations has recommended twenty-three changes in the uniform rules under which the members of those organizations conduct their race meetings in the United States and Canada. While a few of the changes are explanatory, the following will have an important bearing on light harness racing in 1920.

(1) Cancellation of all winraces of 2.16 or better over a half-mile track and 2.12 or better over a mile track, unless a horse has won within four seconds of same, over a half-mile, made prior to 1918.

(2) Change in time allowance for classes slower than above so that a horse racing under the same reclassification himself by performance.

(3) Licensed timers.

(4) Three year old allowed to race in hoppers.

(5) Dash races.

(6) Races up to three quarters of a mile without record or winrace.

All of the horses whose winraces are cancelled under the first changes become eligible to the 2.12 class if winraces were made over a half-mile track, while those who will be eligible to the 2.16 class on such courses until he acquires another winrace. The only horses excepted under this rule are those with mile track winraces made prior to 1918 and which have during 1918 or 1919 won within four seconds of same over a half-mile track. The list includes such horses as Adloo Guy, who made a winrace of 2.03 1/2 over a mile track in 1917 and won in 2.05 1/2 over half-mile track in 1919; and Hal Connor who made a mile track winrace of 2.11 1/2 in 1916 and equalled it over a two lap course in 1918.

This rule unshackles the fast horses and places them in the middle ground to compete with those which have been raced for a season or two in the slow classes as well as in the select group which is prepared each year for a trip in the early closing events on both the mile and half-mile tracks.

The change in the time allowance rule applies to horses with winraces slower 2.12 on a mile track or 2.16 on a half-mile track. Under it a horse with a time allowance can be started in the class to which he is eligible at the beginning of the 1920 racing season with his time allowance added to his winrace. As soon as he wins in time faster than that class, the time made by him becomes a new winrace and his eligibility is fixed by same to all events closing on or after that date.

The licensed timer is drafted to meet the alleged misrepresentation of time. One will be required at each meeting where the association does not use a visible timing clock.

HELP WANTED—FEMALE

LADY CANVASSER WANTED—GOOD opportunity for lady with initiative and resource. Apply Guardian Office, 2521-11-25-M1r

I. W. W. SMUGGLING LITERATURE

OTTAWA, Nov. 22.—Friends and sympathizers in Canada of the Red Radicals, the I. W. W.'s and other such bodies are smuggling into the country a lot of the red literature, so much in fact that the various police and secret service departments have been warned to keep a close watch of any that may appear, and to promptly arrest any who have this stuff in their possession.

Chief among the publications is "The Worker's Herald," which is known by those who read it closely as the "Robinskykiy Vistnik." There is an exhaustive pamphlet called "Soviet Rabotchykh Soldatskikh I Krestvanskikh Deputatov I Nashe K Nem Otvohenie," or a talk on the relations between soldier, peasant and deputy soviets. There are eight different publications in the Bolshevik literature referred to, and each is worse than the other.

Minard's Liniment Cures Distemper

Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 9th January 1920, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, 6 times per week on the route, Albany Rural mail route No. 2, from the Postmaster General's pleasure.

Printed notices containing further information as to conditions and blank forms of Tender may be obtained at the Post Offices of Albany, and at the office of the Post Office Inspector, JOHN F. WHEAR, Post Office Inspector, Charlottetown, Nov. 24, 1919. 2549-11-25-M1ues3j

GOLDS OPEN THE DOOR TO MORE SERIOUS AILMENTS

What He Found.

"Archimedes," read the young pupil aloud, "leapt from his bath, shouting 'Eureka! Eureka!'"

"One moment, James," said the teacher. "What is the meaning of 'Eureka?'"

"'Eureka' means 'I have found it.'"

"Very well. What had Archimedes found?"

James hesitated a moment, then ventured hopefully: "The soap, m'am."

DON'T PUT OFF

Allied Aid for Austria

(Special to The Guardian.)
PARIS, Nov. 24.—Decision to main-ain after December 31, Allied co-operation in re-vitalizing Austria was reached yesterday by the Supreme Economic Council, Italy's representative declared that country was ready to aid immediately after the conclusion of the financial agreement.

Eat Less and Take Salts for Kidneys

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER BOTHERS

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney, finishing any time.
