**"I was just a girl at the time" . . .**

this charming lady told us. "My father wasn't very prosperous. Mother watched every item of expense. Appearances had to be maintained. No extravagance, however small, was allowed to pass.

I well remember Mother checking up on the comparative value of laundry soap. She liked Surprise. But such was her rigid code that she didn't intend to cater to her whim if Surprise were less economical than other soaps.

But trial after trial showed that a cake of it washed more tubfuls than most soap. And Mother was satisfied that the things were cleaner. She always used it after that. I still use it to this day. I find it most economical and by all odds the most satisfactory soap I have ever bought."
