Fleet of Eight Ships Manned by 1,400 Men Expect to Bring Back Record Kill.

ST. JOHN'S Nfld., March 7.—The coast of a grizzled veteran, too old now to go to the hills, was schooled by bolshievist crowds along the waterfront as vessels of the sealing fleet moved slowly out of their docks today and headed seaward.

Members of a parliamentary committee quoted Jean Chappelle, former Prefect of Paris, police, as saying former Interior Minister Eugene Frot planned a coup to gain leadership of the government during recent riots that formed a bloody sequel to the Stavisky affair.

Another development was that police in their efforts to find a "trail of higher ups" in the swindle, studied the mysterious symbols Stavisky used to designate circles in his secret payroll.

PARIS, March 7.—A scientist apparently has exploded the hopes of those who like to see their fairy tales come true. His verdict is that at least one of the "sea monsters" found near Cherbourg is, well, it is the truth must be told, just a glorified dogfish.

A huge dog-fish, granted Professor Pettit of the Museum of Paris, but a dogfish—or equal, is not technical in the same.
