

PRINCE EDWARD
TALKING PICTURE
TODAY and WED.

Charlie CHAPLIN in
CITY LIGHTS

Charlie as a city vagabond, then friend of a millionaire, then white wing, leather pusher, jail bird—
More laughs than Brazil has nuts—more tears than Bermuda has onions!
His Greatest Story.
Still the elusive, intangible genius of joy, Chaplin does not talk and yet speaks volumes with his deft pantomime in the greatest side-splitting sensation the motion picture has known.

FIELD CULTURE OF CELERY
(Experimental Farms Note)

Any good rich garden soil will grow good celery. It is a gross feeder and must have an abundance of fertility to draw upon if tender, well developed stalks are to be obtained. If the soil becomes dried out, even with an abundance of plant food present, succulent stalks are likely to devel-

PARIER DEVOTES CAREER TO PORTRAYALS OF HELL

PARIS, May 18.—(U.P.)—Hell in water colors has been so skilfully painted by one Amos Nattini, whose entire artistic career has been devoted to an interpretation of Dante's "Comedy", that a record crowd gathered at the opening of the exhibition of the Musée du Jeu de Paume and many had to be turned away.

All stages of torment is the delight of M. Nattini's brush and he has very successfully depicted the most gruesome scenes of Dante's imagination with academic reading and realism.

In order to get just the exact proportions and utter realism into his colossal work, the artist spent many months in studying the attitudes of coal-heavers and dock workers, stripped to the waist and disfigured by grime and sweat. Critics are pretty much agreed that Nattini follows no particular school of painting, and that his work gives evidence of isolated and individual aesthetic research.

SHRUBBERY ADDS CHARM

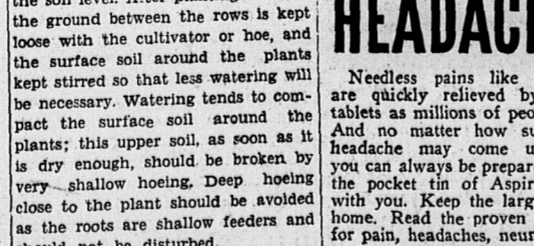

Carefully planted shrubbery adds charm and value to the home. Authorities agree that best effects are secured by confining the shrubs to the border and to the base of the dwelling, leaving an open lawn. In foundation planting shrubs of different heights should be chosen and the planting arranged irregularly and so placed as to conceal the alignment without completely covering the foundation.

Suitable shrubs are described by the Dominion Horticulturist in the federal Department of Agriculture bulletin No. 89, which also tells how to go about the planting.

Victorious Candidate (modestly)—"I'm sure the result has surprised nobody more than myself."

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets as millions of people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

TO PLANT VEGETABLES IN CANTON VACANT LOTS

CANTON, O., May 17.—Vacant lots in Canton would be utilized by unemployed to plant vegetable gardens under a plan recently evolved at a meeting of heads of service clubs and welfare organizations.

The plan provided for furnishing seeds by the Canton chapter of the American Red Cross. The lots were to be furnished by the real estate board.

Under the plan the unemployed would be allowed to use but not sell produce derived from the gardens.

Eastern News

"Hocky Folks"
"Back again."

Well, its commencing to look sunny, merrily, after our long winter and in the course of a few weeks our province will afford a feast to the eye. Some visitors from foreign parts have come to the province already and will see nature change the "Garden of the Gulf" from its present state to that of verdant beauty.

The farmers are quite busy now preparing the soil for the different crops. Early potatoes have been planted in many places. At Boughton Island potatoes were planted on May 1st. Farming in this section is still well under way.

Many spuds are still being shipped. This product seems to be inexhaustible. The present prices is very small, with a tendency to go still lower. The advanced season necessitates the farmer to ship at any price.

The lobster fishing is in full swing now along the coast. To the fishermen prospects for a profitable season are not too bright. There seems to be a falling off in the amount since the opening. However, there are many days to look ahead.

A new company was formed last year and erected two large buildings at Boughton Island, a factory and cook-house, which are located just west of the firm of Graham, Llewellyn & Co. However, this company of which Nathaniel Taylor of Albion is president, is not functioning this year, but will in all probability be completed in the fall and be in readiness for the season of 1932.

The firm of Graham, Llewellyn & Co., continue to amuck their lobsters to the plant at Murray Harbour to be packed there.

The Eastern Canneries Ltd. is still operating the main plant at Boughton Island. The number of fishermen has been depleted. No live lobsters have been shipped by this firm yet. Mr. William White, of Panmure Island, is again manager.

The Southern Canneries Ltd., at Boughton Island south is still going strong and is stronger if any this year. Some of its fishermen have loaded as much as seven hundred pounds in one day.

Mrs. Catherine Steele, of Sturgeon, faithful employee of the Eastern Canneries, is back again this year and is only 86 years young. This is surely a record, for does anyone doubt that there is an older person packing lobsters in the Maritimes? Mrs. Steele rises at an early hour each morning and goes to the packing room with the other employees, where she remains all day at her work, except the intermission for meals.

Mr. William Burke and family are residing at Boughton Island for the spring months.

Mr. Chester Llewellyn, of Boughton Island, was a recent visitor to Georgetown.

Mr. William White, Manager of Eastern Canneries Ltd., Boughton Island, spent Sunday at his home in Panmure Island.

Miss Emma Bourke and Mr. Wilfred Bourke, of the Southern Canneries Ltd., Boughton Island, spent Sunday with their parents in Launching.

Mr. D. J. MacCormac, of Boughton Island, was a recent visitor to Georgetown.

Mr. Howard Vatcher, of Lorne Montague, was in Boughton Island recently.

Mr. H. N. Murphy, of Georgetown, was a recent visitor to Newport.

The St. Georges' Dramatic Club are once again in action and are at present preparing a play to be staged in the parish hall in the near future. Let's hope its a good one.

It is understood a monument will be erected this summer on the school premises at Launching to the memory of the fallen heroes of the district. Launching school this year is right after the Hartz Trophy, and the Women's Institute is working hard. If captured this year, the trophy will remain in the district. However, there are many excellent schools throughout the province and many changes must take place.

Mrs. Joseph Dallon was a recent visitor to Boughton Island.

Messrs. Philip and Arnold O'Connor, of Graham, Llewellyn & Co. Boughton Island, visited their home at Sturgeon on Wednesday.

It is probable that a new wharf will be constructed at Boughton Island this summer, the work to start about the first week in July.

through our Divisions, believing that such a training may be secured there in, should realize what privileges and sublime ideals are ours. This, then, O ye, Sons of Temperance, Brothers and Sisters, is the purpose for which we stand. Are we to retrace our steps and consider as some would try to make us think, that there is no good in our order, that our weekly meetings are valueless. May this not be so, but on the other hand, let us go forward with persistent and indomitable courage, knowing our reward is sure, eventually.

Again the matter of having more Temperance Rallies was considered at our last Quarterly Session. Owing to the bad conditions of travelling the past few months nothing of this nature was done. However we must get busy on this work at once. Let us therefore plan on these meetings at an early date.

It would appear that some of our Divisions are losing heart. While we do not think for a second the task is an easy one, let us not for a second lose our enthusiasm in the great cause. For those Divisions whose task appears too great for human shoulders, may we lose our own strength in the w-falling powers of our great Master, and take renewed courage from His wonderful example.

I trust our Divisions are not overlooking the Budget for the year's work, but that all our various branches are busy on some plan to raise the amount allocated. Now that the summer is here our task will be easier. Let us therefore gladden the heart of our general Treasurer by forwarding him as soon as possible our amounts.

The matter of securing co-operation from the various Young People's Groups has to some extent been taken up and we are assured that the Temperance question is a vital concern in most of these splendid organizations, and being given due consideration and prominence. I submit a few recommendations for our consideration and that of the Committee on this work.

That we proceed at once to engage in a series of Temperance Rallies in our Division to stir up some interest in the public at large. Last year these proved exceedingly beneficial and should do so this year.

That we form a Grand Division choir to carry on in conjunction with the local Division members for the purpose of being assured of good inspirational singing at all our Public meetings. There is plenty of talent lying dormant which should be utilized for the good of others.

That we adopt the National Division example and have a voluntary registration-fee of say, 50 cents or less to be collected at each annual session. This of course not to be compulsory in any way, but would augment our Grand Division Funds to some extent.

That as many as possible attend the big Temperance Convention in Charlottetown on Thursday, May 14th as this Rally has to be a success and we can make this possible by our attendance.

Submitted in Love, Purity and Fidelity: Ralph B. MacCaull, J. Austin Jardine, Walter Craig, Rev. R. H. Stavert, Committee on State of the Order.

After the adoption of this report, the Committee on Resolutions presented the following report:

Grand Worthy Patriarch, officers and members:

Your committee on Resolutions beg to report that we, as members of, and representatives to the Grand Division here assembled extend to the residents of Middleton our hearty thanks for their welcome and hospitality extended at this our May session.

We place on record our commendation and thanks to the Grand Worthy Patriarch and Grand Scribe and other officers for their faithful services since our last session.

That we have a further series with music as a conspicuous feature of the program.

That we commend the Press for their generous space given to reports of Grand Division Sessions.

That we urge upon all members of the Grand Division to attend the coming Provincial Temperance Convention, and solicit others also to attend.

That we urge upon all members of subordinate Divisions the value of sending to the Press, local items favorable to the cause of temperance.

Submitted in Love, Purity and Fidelity: Benj. F. Pillman, Ira N. MacKay, Rev. J. W. A. Nicholson, G. Emerson Heustis, Mrs. Jessie Curtis, Committee on Resolutions.

The reports of the Grand Worthy Patriarch and Grand Scribe are hereby submitted.

Report of Grand Worthy Patriarch for quarter ending March 31, 1931.

Dear Brothers and Sisters: Looking over the past quarter, we have every reason to be grateful to the God of the Universe for His watchful care over us, and for His many acts of loving kindness. We have emerged from a winter season, and I hope are ready to again take up the work of temperance with renewed vigor and energy. Ours is a herculean task and demands all the nerve and force at our command. Ours is not merely a task to play with, but a work of educating, instructing and training boys and girls to become useful, noble-souled, high minded and earnest men and women, who, tomorrow will steer our ship of state through the sometimes stormy and perilous waters of life. This is no small undertaking, and requires much preparation. We,
