New Racing Rules For Local Yachts

In order to give a fair chance to every boat entered in future cup races, the Charlottetown Yacht Club has decided to hold a classification race some day this week. That is, a race whereby each boat will be given the necessary time-allowance on the faster or larger craft.

The idea is to give the smaller boats a fighting chance against their larger rivals and make the sport more interesting not only from a spectators viewpoint but for the owners of the contesting yachts as well.

Recommends The Union Commercial College

The following letter received by Prin. Moran of the Union Commercial College from a former graduate will be of interest to those who are undecided about Business College.

Dear Mr. Moran:—

I have a splendid position in a law office with a prominent Regina firm. The work is difficult, but owing to your excellent training I have no trouble with it, I now fully appreciate the thorough course you give and I can recommend you college to any one desiring an up-to-date Business training. Miss McPhee another graduate has a splendid government position in Edmonton.

Thanking you for your interest and wishing the college every success, I remain

Yours very truly,

(Sgd) HAZEL I WARREN.

What the Union Commercial College has done for Miss Warren it has done for hundreds of others. Write today for full particulars concerning the course. 11

—BUSY HAYING.—Haying has commenced in some sections of Prince Co., and the crop is said to be one of the best for years, it having advanced 25% in the last three weeks with the frequent showers. Grain and root crops give strong promise of a bountiful yield. H.

—BURGULARY AND FIRE IN KENSINGTON. — On Saturday evening, July 21st, during the temporary absence from home of Mr. Leslie Tait, "The Rawleigh Man", some one unknown entered the house through a window in store room went up stairs and stole his silver watch, Mrs Tait's gold wrist watch and it is supposed in searching in the closet on the landing set fire to some old men's clothes hanging there, and Mr. Tait returning home discovered the fire which with the aid of the fire engine and many willing friends was soon extinguished. A traveling clock was also missing from down stairs also a case of 24 cans of cinnimon. The cinnimon was found buried beside the railway track some 500 yards east of town by some little girls picking berries and returned but as there are no police in Kensington nothing was done to discover the person who hid it and who undoubtedly started the fire. The time pieces were highly prized but of no great money value and cannot be replaced. Any one finding same or giving information which will lead to their recovery will be suitably rewarded. Mrs. Tait and the children were away from home on a visit to Baltic at the time. And in the meantime the miscreant is at large.—Com.

—DROWNING ACCIDENT AVERTED—What might have been a sad drowning accident happened at Goose Harbor Tuesday evening July 24th when David Boyle and Zenith Lewis left the ... by motor boat on a fishing trip. The weather being thick they lost their bearings and struck the outer point of the south bar. A heavy swell that was rolling in at the time swamped the boat and, but for the presence of mind of two fishermen, Messrs Thomas Skerry and W. Lewis who were near by at the time a drowning tragedy would likely have happened. The motor boat which is a total wreck was the property of Mr. Boyle whose loss no doubt will be keenly felt.

—SILVER WEDDING.—An interesting event took place at the home of Mr. and Mrs. Peter McIntyre, Kensington, on Thursday evening July 19th. when a large number of friends gathered to congratulate them on the twenty fifth anniversary of their marriage. A short program was carried out which consisted of vocal and instrumental music, readings, etc most worthy of mention being a solo by Rev. J. J. Mac Donald, also one by Mr. J. B. Croken. Another feature of the evening was the lunch which was served by the young ladies to describe would take to long suffice to say it was thoroughly enjoyed by all. A few appropiate remarks were made by Rev. J. J. Mac. Donald, Rev. F. Sinnott and other gentlemen present and on address was read by MR. Basil Croken. MR. MacIntyre with a few well chosen words thanked the guests on behalf of Mrs. MacIntyre for their good wishes and flattering remarks and expressed the desire that the would often meet at his home. Soon the sweet strains of the violin were heard and all gathered to the dance room to see that most wonderful of dances the Wedding Reel which was danced to perfection, after which the regular dance was begun and continued by the young people while their elders indulged in "Auction Forty-Five" every one enjoying him or herself to the utmost. A unique incident was the presence of the original bridesmaid and groomsman to take part as they did twenty-five years ago. Before leaving all joined in singing a number of the Old Favorites including Auld Lang Syne, Good Night Ladies, For They're Jolly Good Fellows, and God Save the King, then all departed to their homes happy and with a sincere wish to be present on the occasion of the Golden Wedding.

KENSINGTON, EMERALD BASE BALL

The Emerald baseball nine went down to defeat last Tuesday evening at the hands of the Kensington Rangers by a score of 13 to 3. W. Acorn of Boston College did the pitching for Emerald M. White of Emerald was at the receiving end Charles Kennedy and George Sutherland were the Kensington battery. The game was umpired by Dr. W. P. McBride of Kensington in a most impartial manner, and was absolutely devoid of strife and contention which is so often experienced at "bush league games." The game was attended by a large number of spectators, who had good baseball manners.

Kensington has been successful against all "tank town teams, and has almost got its nerve worked up to the point of having a try out with the Pioneers of Summerside.

Line up as follows:

Emeral		Kensington
	Catcher	
M. White		Geo. Sutherland
	Pitcher	
W. Acorn		C. Kenved
	1st. Base	
J. Allen		J. Pennergas
	2nd. Base	
A. Lyons		A. Murphy
	3rd. Base

Another Comment On P. E. I. Election

The Toronto Mail and Empire editorially commenting on the Conservative victory in P. E. Island says:

In the Provincial general election held in Prince Edward Island on Thursday the Conservative party scored even a greater victory than it did in the Provincial general election of Ontario a month earlier. In this Province the Conservative candidates returned were more than twice as numerous as the successful candidates of all other parties. In Prince Edward Island the Conservatives elected were about five times as numerous as all the other candidates elected. In both cases the Conservatives were a small minority in the previous Legislature. In the last Ontario Legislature the Conservatives were only about 24 per cent. of the total strength of the House, and in the last Prince Edward Island Legislature they were less than 17 per cent of the total. In both provinces the Conservatives were turned out of office in general elections held in 1919, the election in Prince Edward Island Province being held in July of that year, whereas that for Ontario was held in October. Whether at the time of those Provincial elections not at the time of the Dominion general election near the end of 1921 was the public mind in the tranquil state desirable for passing judgment on governments or political questions. People everywhere were still agitated by the unrest that followed the war and that continued throughout the period of reconstruction. Sober sense has returned, and the electors have come to rue the recklessness of their voting in those years. Last winter the Provincial election in Quebec showed that a very large number of the voters had changed their minds since the last polling day. In Montreal Island, the principal stronghold of Sir Lomer Gouin, the man of greatest sway in the King Government at Ottawa, thirteen seats were won from the Liberals. The Conservative party, which was so small in number as almost to be of negligible account in that respect, is now a very considerable force numerically in the Quebec Assembly. In Manitoba it is generally expected that the Conservative party will be the ascendant one after the next Provincial election. The revival of Conservatism does not puzzle or mystify anybody. It is the clear consequence of the people's experience of former good government at the hands of Conservatives and recent bad government at the hands of parties opposed to the Conservatives. In Prince Edward Island as in Ontario the people were sickened by extravagance by imposts, especially by a poll tax, by debt accumulation and by lack of frankness on the part of the Government in regard to the financial affairs. Of course in a Province of about a hundred thousand people the public finances cannot be on any such scale as in Ontario, but the burdens are all the heavier when they have to be borne by but a few people. The great turnover in Prince Edward Island is another bad blow to the Ottawa Government, whose woeful failure and slippery courses are bringing discredit and defeat on Liberalism and its allies in all the Provinces.

BIRD'S Art Craft Roo

RED OR GREEN

Canada's Most Beautiful Roofi

IT'S ART CRAFT. At a distance you think it was a costly tile roof, yet it inexpensive enough to meet everybody purse.

ART CRAFT is a roll roofing, non-fadi red or green, slate surface, with an attra tive and permanent tile design. It not on costs less to buy and to apply, but it can applied either over old wood shingles directly to the roof boards for new work.

ART CRAFT is water-proof, won't cat fire from flying sparks, and cannot deterio ate. In fact you can forget all about you roof once it is covered with ART CRA

You will be surprised at its economy. L us give you an estimate—free of obligatio

RAILWAY SHOPMEN ASKING FOR AN INCREASE OF TEN CENTS AN HOUR

MONTREAL, July 31.—Fifteen representatives of railway employees met six representatives of the railway companies here this afternoon in a preliminary conference relative to the demands of the shopmen of Division Four, Railway Employees' Department of the American Federation of Labor, for an increase of ten cents an hour in wages with certain changes in working conditions. The conference lasted about two hours, when it was adjourned until tomorrow. Certain preliminaries were gone through, and it is expected that the serious work of the discussion will be commenced tomorrow.

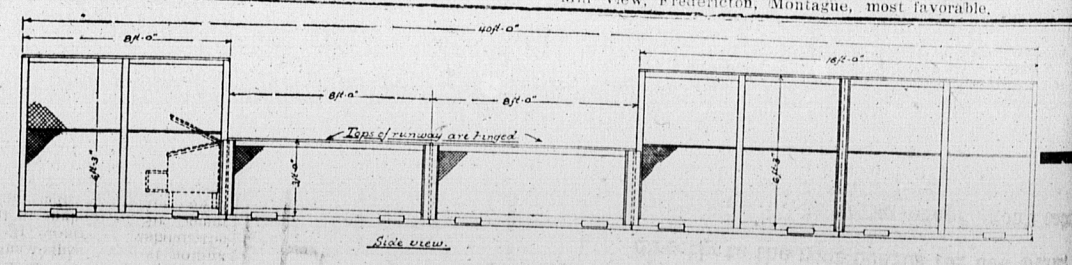
FESTIVAL ENJOYED.—Strawberry and ice cream festival held in King Square last evening by the ladies of Memorial L. was well attended and very much enjoyed. A well lighted booth erected for the purpose on square and the weather most favorable.



Proven Facts Regarding Redi-made Runway FOx Pens

If you are Considering the Purchase of Additional Ranch Equipment do not Overlook These Facts

Last winter, in the heavy storms, hundreds of valuable foxes were lost from old style ranches. From the 300 REDI-MADE pens in use, NOT ONE FOX ESCAPED.

Most old-style pens were clogged with snow. With the REDI-MADE Runway Pen the foxes were given a sheltered retreat, warm, roomy and safe in the worst storms. In NO case were the runways filled with snow.

In the ordinary pen during a stormy winter the foxes frequently escaped over the top, or if the pen were covered, the fox was penned between the snow and top wire until shovelled out. The fox stays in the runway of the REDI-MADE pen during a storm and has tunnels in the snow to each cage.

By covering the breeding cage with boards or roofing during the winter, the pups at birth have a dry, secluded room. At breeding time the ordinary pen is usually slushy and unsatisfactory. With the REDI-MADE PEN there is always a dry, dark secluded cage connected by a long passage with an open cage.

The REDI-MADE PEN is the only one in which the protective maternal instinct of the animal is cultivated and in which the usual tendency of the mother fox to carry out her young will not arise.

The REDI-MADE PEN is the only one which can be changed at will from a breeding pen into two dog pens, or vice versa. The ordinary pen is either a dog pen or a breeding pen; the REDI-MADE is BOTH. By dropping doors in runway you convert the pen into two or more dog pens.

The REDI-MADE PEN is the only one that can be taken down easily and moved, on truck or railway, to a new location.

Nobody wants a pen half filled with snow and slush when the foxes appear. With the covered cage in the REDI-MADE the mother and pups have dry, warm and excluded quarters free from snow, making it the ideal breeding pen.

The REDI-MADE PEN can be bought at a price equal or less than the wire alone of the old-fashioned pen, covered with wire top and bottom.
