Lea Candidates Floored On Issue Of Claims Settlement

Have No Reply To Most Important Issue In Campaign, Namely, Our Subsidy Claims Settlement. MacMillan And MacLean Score Triumph At Vernon River Meeting.

MAKING OBJECTS TO MONEY FOR PROVINCES

Bill For Promotion of Vocational Training Is Given Second Reading in the House of Commons.

OTTAWA, July 24.—When a Government bill to subsidize the provinces in the promotion of vocational training was up for second reading in the House of Commons today, Rt. Hon. MacKenzie King renewed his protest against Federal money being used for provincial affairs. The bill would authorize payment of \$750,000 a year for a 15-year period.

He was in favor of the development of technical education and vocational training in this country. Mr. King said, he believed more would be achieved if the Dominion and the Provinces confined themselves to matters coming within their respective jurisdiction.

The former vocational training measures had been for a period of ten years. During the course of office of the Liberal Government representations had come in from industrial organizations urging the necessity for more highly developed research work. The former Liberal administration had looked upon the old bill for grants to technical education, which expired in 1929, as something to put the Provinces "on their feet" in the beginning of technical education. Before the act expired the former Liberal Government had intimated its intention to not renew these grants to the Provinces. Votes for a large amount of money for the development of research work on a larger scale than heretofore had been passed and the activity of the advisory research council was widened.

He had no desire to restrict the development of technical education, Mr. King said, but there was an extreme necessity for devoting money to matters within the Federal sphere. He was against the principle of one Government raising money by taxes and then turning the money over to other Governments to spend.

If the Provinces had not sufficient latitude in taxes then new fields of taxation should be given them. The fact was, however, that the Provinces had recently developed many new forms of taxation such as that from the liquor traffic, from automobile licenses and otherwise.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS ETC.

Wiltshire Club leading livestock Thursday, July 30th. 7705-11.

Emerald Club buying hogs, lambs and calves Wednesday, July 28th until 4 o'clock. 7710-7-25-21.

Dance in St. Margaret's Hall, Wednesday, July 29th. Orchestra. 7711-11.

Millview and Uigg Club leading livestock Tuesday afternoon, July 28th. 7706-11.

Warren's Mills, Burlington, will close August 8th until the new grain. 7670-7-24-41.

Hackett L. O. L. Hunter River, will hold an open air service on Sunday, July 26th at 3 P. M. in field between churches. Orange parade will leave Hall at 2.30. All Bro's cordially invited. Pipers and band in attendance. 7673-7-24-21.

Band Concert by Canadian Legion Band, Special Dinner Stanhope Beach Inn, Sunday, July 26th, 8 o'clock—\$1.00. 7703-11.

The parishioners of St. Anthony's Church, Bloomfield, Lot 5, will hold their Tea Party on Tuesday, August 4th. Come and enjoy yourself. 7612-7-21-61.

New Service Starts Sunday

S.S. Charlottetown Ready To Begin Regular Service Between The Island And The Mainland

(Special to the Guardian)
MONCTON, N. B., July 24.—The largest ice breaking car ferry in the world, S. S. "Charlottetown," goes into regular service between Prince Edward Island and the mainland Sunday, July 26th, according to an announcement made by W. U. Appleton, general manager of the Canadian National Railways here.

The "Charlottetown" arrived at Borden on Wednesday, July 15th, from Lauzon, Quebec, where she was constructed and has been making test trips between Cape Tormentine, N. B., and Borden, P. E. I., in order that adjustments could be made in the docking machinery at both terminals. The "Charlottetown" will replace the present car ferry "Prince Edward Island," which was built at Newcastle-on-Tyne, England, and brought over to Canada in 1915 during the war days. The new car ferry has special provision for the handling of automobiles, cars being run up a ramp under their own power and on to the deck with an ease not heretofore obtainable.

The new car ferry has capacity for sixteen railway cars and can carry from forty to fifty automobiles. The new ferry should do much to stimulate tourist travel to Prince Edward Island. The Canadian National Railways just recently opened a new hotel in Charlottetown, "The Canadian National," and already two conventions have been held there, one being of Rotarians from the Maritimes and Newfoundland and the other the annual national convention of the Catholic Women's League. The hotel was designed having in mind adaptability in the handling of convention parties.

Clark Still Sidesteps Explanation Of Alleged Political Interference

York Meeting Gives Conservative Candidates Enthusiastic Hearing—Liberal Hecklers Brought From Charlottetown Attempt Disturbance.

Despite attempted interruptions by Liberal hecklers brought from Charlottetown for the occasion the enthusiastic reception given to the Conservative candidates at the joint political meeting held last evening at York, proved that the people of that fine old Conservative district remain staunchly loyal to their political faith.

Messrs. J. Augustine McDonald and M. W. Wood received tremendous applause as they scored point after point over their opponents. Hon. Russell Clark and Mr. Mark R. McGuigan in debating the issues of the campaign.

Mr. Peter Brodie, who was the chairman, had difficulty in keeping the imported Liberal hecklers in order. At the close of the meeting he stated that although he had been a Liberal all his life, the way certain Liberals present had behaved was a reflection on Liberalism.

Hon. Russell Clark attempted no reply to the serious charge of political interference in the enforcement of the Prohibition Act which he had left unanswered at the previous night's meeting at Winsloe. He was given a cool reception by the electors of the district.

MR. WOOD'S ADDRESS
Mr. M. W. Wood, who was the first speaker, was greeted with prolonged cheers and applause. In opening he paid a tribute to Hon. J. D. Stewart, who when Premier, had fulfilled every promise which he had made. As the Government had no platform and was appealing to the people on its record, Mr. Wood dealt with that record, which, he pointed out, was not a creditable one. In some parts of the district the roads were in very poor condition. To prove the laxity of prohibition enforcement Mr. Wood cited instances of a large number of liquor containers found at

CONFERENCE HAILED AS A SUCCESS

British, French and American Delegations Agreed That Germany's Rush Toward Financial Collapse Has Been Checked Making Meeting Successful.

LONDON, July 24.—The seven power conference ended today after taking temporary measures to revive world confidence in Germany's financial and economic future.

As it was forecast, these palliatives were confined to a three month extension of the \$100,000,000 loan granted to the Reichsbank through the Bank for International Settlements, to concerted measures in all countries for the maintenance of existing credits in Germany and to recommendations dealing with Germany's future needs.

The final plenary session at the Foreign Office in Downing Street ended at noon with felicitous farewells which stressed the interdependence of nations, and welcomed the participation of the United States at the European council table.

While the conference was being generally hailed as a success, little enthusiasm could be found at the headquarters of the German delegation. Although admitting the Breuing Government has secured a breathing spell in its international financial crisis through the achievements of the London meeting, and also secured an internal breathing spell with the defeat today of Nationalist and Communist efforts to convene the Reichstag, Chancellor Brüning and Foreign Minister Curtius are still risking their political position, according to the German view, unless they return to Berlin with some tangible assurance of new credits. On the other hand, the British, French and American delegations were agreed tonight that the London meeting had accomplished its purpose as far as checking Germany's rush toward a financial collapse is concerned.

As far as new credits for Germany are concerned, all the London meeting did was to "note with interest" the joint guarantees recently placed by hundreds of German industrial concerns. Upon these great concerns, Germany, by a recent emergency decree, could have asked for credit amounting to \$500,000,000 and the German view is that unless some such deal is consummated, the Brüning Government will again be in danger of collapse.

It was also recommended that the World Bank for International Settlements establish immediately a committee to study the whole question of German credit needs, including the possibility of converting a portion of the short term credits into long term credits.

LETHBRIDGE, Alta, July 24.—Rye threshing has commenced in the Taber district with yields of from seven to eight bushels to the acre. Intense heat this week is ripening the wheat rapidly and wheat harvesting will be started by August 10.

Severe Penalty For Campaigning If Non Resident

Applause greeted the citation of the following Section 210 of the Canada Elections Act, 1922, as read by Mr. Alban Farmer, at the political meeting at Vernon River last night, in reference to the activities of a defeated Liberal politician, a resident of Montreal, now campaigning in support of the provincial Liberal candidates:

"Any person, not being a voter, who resides outside this Province and who, to secure the election of any candidate, canvasses for votes or in any way endeavors to induce voters to vote for any candidate at an election, or to refrain from voting, is guilty of an offence and liable to a fine not exceeding \$200.00 and costs and not less than \$100.00 and costs, or in default of payment of such fine and costs to imprisonment for a term not exceeding six months and not less than three months, with or without hard labour."

Liberals Make Nasty Charges At New Glasgow

Mudslinging Campaign Of McPhee And LePage Meets Ill Success. Jenkins And Bethune Cheered And Applauded At Crowded Meeting.

"Running amuck" is a mild expression for the astounding performance given by the Liberal candidates, Hon. B. W. LePage and Mr. Angus MacPhee, at the New Glasgow meeting in Second Queen's last night.

In his opening remarks, Mr. McPhee, the first speaker, had stated that he would refrain from uttering any personalities in any speeches he would make to the electors. Notwithstanding this announcement, Mr. MacPhee in his rebuttal made the most personal attack upon Mr. Jenkins, claiming that his Conservative opponent had said during the last campaign that "he had been fed whiskey by his mother from his infancy."

Mr. Jenkins indignantly denied the statement. Hon. B. W. LePage rising wrathfully, threatened to defend his Liberal colleague's statement by force. There was a considerable fuss, and blows were only prevented by the interference of Mr. Bethune and the chairman.

The disturbance so alarmed Mr. MacPhee that he promised not to refer to this at any future meeting, and after a few remarks, sat down without finishing the time allotted him for his rebuttal. Mr. Cecil Leard presided at the

meeting, at which the Conservative speakers received tremendous applause and scored over their opponents time and again.

Mr. MacPhee, the first speaker, said he hardly knew where to begin, but finally got started upon the roads. He claimed that more money should be spent upon these assets to trade. He admitted that the roads in the vicinity of New Glasgow hadn't been attended to as much as he would like, and that they were "not any too good." (Laughter.)

MR. MACPHEE: "Yes, you can laugh, but I hope I am talking to people who can see the roads." (Increased laughter.)

Mr. MacPhee went on to say that as all the planks in the Conservative platform had been already carried out by the Liberals, it was "the

Severe Penalties For Exposure Statement Re \$50,000 Payment

OTTAWA, Ont., July 24.—Persons who are "so scantily clad as to offend against public decency or order" will, if a bill approved by the House of Commons also passes the Senate, be liable to a penalty of three years in prison. It will be the duty of judges and magistrates to determine the degree of scantiness rendering an individual offensive under the law. The question of whether or not scantily-clad bathers at some of Canada's fashionable resorts might not be in danger of three years imprisonment under the act, was raised by Hon. Ernest LaPointe, former Minister of Justice. A magistrate might convict such a bather, and the convicted person would thereupon be liable to three years in jail, he suggested. Hon. Hugh Guthrie, Minister of Justice, who sponsored the bill, thought it was safe to leave such a matter to the good sense of judges and juries. What about performers in theatres? asked S. W. Jacobs, Liberal member for Carleton Place. Would they be subject to the penalties? The minister replied that they would be only if so lightly clad as to offend public morals.

Aimed at those Doukhobors of western Canada who every now and then scandalize communities by indulging in nude parades, the bill, in the form of an amending measure to the Criminal Code, imposes severe penalties for exposure while naked. Formerly persons guilty of indecent acts might get off with a fine and imprisonment up to six months. The amending bill sets forth in detail the offenses. It is forbidden to parade while nude, to be found in a public place while nude, to be found on private property belonging to some one else in that condition, or to appear on private property of the offending person so as to be exposed to the public view.

(Canadian Press)
TORONTO, Ont., July 24.—In a further statement regarding the payment of \$50,000 to John Aird, Jr., at the time of the purchase of the O'Brien interests in the Madawaska and Mississippi Rivers in eastern Ontario, Hon. J. R. Cotton, Ontario Hydro Electric Power Commission chairman, said today that the Commission took into consideration the facts that Mr. Aird had an option on these properties and had made "special investigations concerning the sale" in "arranging with Mr. Aird to utilize his services and technical information respecting the value of the properties." The system acquired by the commission, said Mr. Cooke, had developed sites of about six thousand horsepower capacity. In addition the power was distributed in Galena, Arnprior, Calabogie, Renfrew, Barryville, Burnstown and in Bagot, Blythefield, Horton and townships. The purchase included undeveloped sites on the Madawaska with a capacity of 85,000 horsepower which, added to the undeveloped sites held by the Corporation, would make a total of 150,000 horsepower available to the Commission.

Fire On Students

SANTIAGO, Chile, July 24.—Soldiers opened fire with rifles and machine-guns this evening on the University of Chile where anti-Government students barricaded themselves last night in defiance of an order to evacuate the building. It could not be learned immediately whether there had been any casualties. The first burst of fire was followed by a second and desultory firing continued thereafter.

Murray River Enthusiastic For Conservatives

The large and enthusiastic meeting at Murray River, last evening gave added optimism to the Conservative candidates of Fourth Kings. Mr. M. F. McDonald and Hon. J. D. McLeod, who were assisted by Mr.

J. F. Arnett, Summerside, were enthusiastically received by the electors of Murray River. A more extended report of the meeting will appear later.

to a Tory Province!" This was one of many strong points made by Mr. Shaw MacMillan and his colleague, George MacLean, Conservative candidates for the Fourth District of Queens, at the largely attended meeting at Vernon River last night—a meeting at which the Conservative candidates and their supporting speaker, Mr. Alban Farmer received a splendid hearing and enthusiastic applause.

On the important subject of the prospects of this Province securing a settlement of its subsidy claims if the Lea Government was returned, the Liberal candidates remained as mute as oysters.

The Conservative candidates, on the other hand, argued convincingly on the benefits of having the two Governments in line.

Supplementary Buttermakers To Join Pool

OTTAWA, July 24.—Plans are well advanced to have all the larger creameries of Western Canada join a pool to bonus the export of butter. The proposal is that every creamery in Western Canada producing 50,000 pounds or more of butter a year, pay one cent a pound into a fund and this would be paid to exporters of butter to supplement the price received on the world markets. Announcement of the proposal was made today by Hon. Robert Weir, Minister of Agriculture and followed a meeting of the principal creamery companies operating in western Canada which was held in Toronto today. The meeting in Toronto was an outcome of a long conference last Tuesday which representatives of the creamery companies had with Mr. Weir in Ottawa. Another meeting will be held in Winnipeg next Tuesday. The plan is dependent on a 100 per cent signature of creameries on the prairies producing over 50,000 pounds a year and those meeting in Toronto today, representing all but one important firm with western connections recommended the proposal. The final decision will be made at the meeting in Winnipeg.

(Canadian Press)
OTTAWA, July 24.—The supplementary estimates will be tabled in the House of Commons on Monday, Rt. Hon. R. B. Bennett told the House today.

OTTAWA, Ont., July 24.—Notice of a resolution to enable the Government to extend relief because of unemployment and because of crop failures in the West, was given in the House of Commons this afternoon by Premier R. B. Bennett. The resolution does not fix any definite sum which the Government may expend but it empowers the Ministry to pay such sums for these purposes out of the consolidated revenues of the country as it may from time to time deem necessary.

LONDON, July 24.—The Prince of Wales made a hole in one today, sinking his tee shot on the 220 yard sixth hole at the Royal Wimbledon course. He hit a clean one which went straight to the green, rose over the ridge at the edge of the green and trickled into the cup.

(Canadian Press)
SEVILLE, Spain, July 24.—Civil guards, troops and police stirred by the death of a civil guard captain in strike disorders, patrolled the streets of Seville today with their rifles at half cock while artillery units menaced another Communist syndicalist center as a precaution against disorders.
