**MAR. CHAMPIONS DEFEAT  
BOSTON COLLEGE TEAM 6-3  
Truro Bearcats Show Too Much Speed For  
Hub Collegians And Score Convincing  
Victory—Before 3500 Fans—Winners  
Run up Big Lead in First Two  
Periods**

BOSTON, Jan. 22.—Two thousand expatriated Canadians here tonight saw Truro, Maritime Hockey champions of last year, make their American debut with a convincing 6-3 victory over Boston College sextette, rated as one of the best amateur teams in the city. The Bearcats exhibited too much speed for the Americans in the first and second periods and were content to take it easy in the last session. The whole team took well with the crowd of 3500 who were present. Kuhn in particular by his flashy work drawing the plaudits. Murdoch and Smith worked hard and Guinan in the nets made some sensational stops. The Truro team meets the fast B. A. A. team here tomorrow and the interest created by the Truro team will no doubt attract a capacity house.

From the face-off Kuhn doubled through and shot on Fitzgerald, who turned it aside. Truro pressed for the first few minutes, Murdoch's poke checking breaking up B. C. rushes. Four minutes from a face off, Murdoch netted the disk on a shot close in.

Boston College pressed. Smith went head first into the board but renewed play. Hopper rushed but overskated the net. Smith scored but the goal was off-side. Ryan relieving Kuhn, Fitzgerald, Hopper, Murdoch through the defence but shot wild. Kuhn received a round of applause when he returned to the ice, and replied with lightning dashes through the defence, but missed his shot. Maloney went through but missed an open net when he overskated. Smith dribbled through but shot over the net.

With half a minute to go, Murdoch worked through the B. C. defence, and scored for Truro. The first period showed Truro much faster than B. C. and further scores were only prevented through the Bearcats shooting too far out. The B. C. defence were difficult to negotiate. Truro defence were lax at times, and B. C. were unlucky to score when Maloney was clean through.

Ryan started for Murdoch. Truro played two men forward and rammed the Boston net for the first five minutes. Ryan scored on a low shot from eight yards out. B. C. did not get past centre ice in the first ten minutes. On a bout of passing Kuhn scored from away out. Play roughened up, and in this department Truro more than held their own. Maloney rushed and shot dead on Guinan, but he turned it aside. Smith scored on a rebound hitting the puck over Fitzgerald who was on the ice. Twenty seconds later Kuhn scored on a pretty rush. The Bearcats were entirely too speedy for the B. C. sextette. Hopper was benched for a cross check. Fraser lost the puck in front of his own net and Gordon, B. C. Captain, scored the first for his team. Hopper went through but his pass from behind the goal went begging. Cronin star of B. C. dribbled through and fooling Guinan, scored a pretty goal. B. C. were now picking up and Guinan was lucky to save on two occasions. The period ended, Truro 6, B. C. 2.

Murdoch was benched for a trip on the first minute. With five men on the ice Kuhn went through but Fitzgerald caught his shot. Guinan made a marvellous stop on an outlet shot from Cronin. Murdoch missed a rebound by a hair. Smith, Kuhn and Murdoch all missed rebounds.

Both teams were tiring under the terrific pace, and B. C. substituted freely. Smith made a fine rush, but was held up by the defence and injured. He gamely continued, however. A deflected puck from behind the net passed over the net for number three, against the Nova Scotians. Smith kept up the attack, the other two forwards playing back as the period drew to a close. B. C. played five men up but failed to score.

Truro—Guinan, Fraser, Hopper, Kuhn, Murdoch, Smith, Ryan, Elliott.

Boston College — E. Fitzgerald, Maloney, J. Fitzgerald, Gordon (Capt.) Mahoney, Cronin, McGovern, Johnson and O'Brien.

Referee — "Red" Sennett, Charlie Stewart.

Goals: Truro, Kuhn 2, Murdoch 2, Ryan 1, Smith 1; B. C., Cronin 1, Ryan 2.

**Goal-Getters  
In The N. H. L.**

MONTREAL, January 22.—Nelson Stewart, Montreal Maroons, is now two goals in advance of Howie Moroz, Canadiens, his nearest rival in the National Hockey League scoring column. The former has a total of 17 counters and the latter 15.

The following is the scoring list: N. Stewart, Montreal, 17; Howie Moroz, Canadiens, 15; Cy Denny, Ottawa, 13; Billy Burch, New York, 12; Herberts, Boston, 12; A. Joliat, Canadiens, 9; Babe Dye, Toronto, 8; Adams, Toronto, 8; Cooper, Boston, 8; Siebert, Montreal, 7; Broadbent, Montreal, 7; McCaffrey, Toronto, 7; H. Smith, Ottawa, 7; R. Green, New York, 7; G. Boucher, Ottawa, 6; R. Smith, Pittsburgh, 6; Noble, Montreal, 6; Milks, Pittsburgh, 6; Nighbor, Ottawa, 6; White, Pittsburgh, 6; Langlois, New York, 5; Bellefeuille, Toronto, 5.

The following players have scored four goals: Leduc, and Boucher, Canadiens; Corbeau, Toronto; Conacher, Pittsburgh; Geran, Boston.

Three goals: Pete Lepine, Canadiens; Munro, and Kitchin, Montreal; McKinnon, New York; Neville, Toronto; Mitchell, Harrington and Red Stuart, Boston; McCurry, and Spring, Pittsburgh; Rochschild, and Dnsmore, Montreal; Gorman and Clancy, Ottawa; Drury and Darragh, Pittsburgh.

One goal: Hector Lepine, Mantha, and Holmes, Canadiens; Lowery, Montreal; O. Cleghorn, Pittsburgh; S. Cleghorn, Boston; Hitchman and Shay, Boston; Kilrea, Ottawa; Simpson, Randall, and Campbell, New York; Day, Toronto.

**WASHINGTON WON AND  
PLAYED FEWEST GAME  
IN SEASON.**

CHICAGO, Jan. 21.—Six hundred and sixteen games were played in the American League during the 1925 season and Washington, pennant winner, played the fewest contests.

The Senators traveled over a 151 game route to win, having tied games with Philadelphia and Boston that were never played off and a last of the season contest with the Athletics, which went into the discard because of bad weather.

The regular schedule called for 154 games, and there were four tied games to be played off. Detroit and New York each played 166 games, and each had two ties to play off. Boston had a game each with Washington and St. Louis. They were never played because of bad weather.

As a whole, the weather man was more generous last season than he was in the previous two years. There were fewer postponements, especially during the early part of the schedule. Boston appeared the hardest hit having suffered postponement on several "good" days. Two games in Chicago were cancelled because of inclement weather, being played off later in the week on double-header bills.

**Centreville Has  
Good Ice Racing**

CENTREVILLE, Jan. 22.—A crowd of about 700 was on hand to witness the ice racing on the local speedway again last week and everybody appeared so anxious for further racing that the committee has decided to stage these meets each Saturday.

In Class A the old reliable, College Swift, again showed his heels to the field, closely pressed by Fred S. Hal, Jr., who won the second heat. The remaining two entries, Donald Keith and Ashlyn Boy, displayed lack of work but should round into winners at future meets.

In Class B, Bustin Boy, considered an outsider, won in straight heats.

Class C was all between Lady Dill and Dan Murphy, the former taking first place with a slight advantage. Larry W., in this class, had an off day.

The summary follows:

**"Bruins" Outplay  
"Bolar Bears" by  
7-2 Score**

The second game of the season between the North River "Bruins" and the Cornwall "Bolar Bears" was played on the evening of Jan. 18th. In this game which ended with a score of 7 to 2 the Polar Bears were outplayed, outskated and outclassed in almost every stage of the match.

The game was handled by Mr. Gordon McMillan to the satisfaction of all.

**WHERE CREDIT WAS DUE.**

A Scottish farmer hired a man whose name was Sandy. "Here Sandy," said he, "gang roon" and gie the soos a cabbie to each, but J. min' ye, gie the biggest to the coo that gives the maist milk."

Sandy departed, and upon his return the farmer asked him if he had done as he was told. "Aye," answered Sandy, "I gied em a cabbage a head and hung the biggest on the pump handle."

**Renault Kayard  
Chilean Fighter**

TAMPA Florida, Jan. 22.—Jack Renault, Canadian heavyweight, tonight knocked out Clemente Saavedra, of Chile, in the second round of a scheduled 10-round bout. Renault knocked the South American almost through the ropes with a right hook to the chin.

In the first round the Canadian gave his Chilean opponent a boxing lesson, scoring repeatedly with lightning like left jabs. Shortly after the second round opened, Renault backed Saavedra into a neutral corner and landed the finishing punch with such speed that only a few ring-siders were able to tell which hand delivered the blow.

In the ten-round event, Marine Tolliver, of West Virginia, outpointed Homer Smith, of Kalamazoo, after threatening in three rounds to score a knockout.

**WATERING HOUSE PLANTS**

A good way to water houseplants is to carry them occasionally to sink or the bath tub and sprinkle them thoroughly, setting each leaf as with rain. To do this use a whisk broom and a pan of water. Dip the broom into the water and shake fine sprays over the plants.

With a good soaking once in awhile the plants do very well between times with a glass of water poured slowly on the roots, so that it will have time to soak in. The amount and frequency of watering needed by your plants depends upon the dryness of your rooms the size of the plant the amount of soil in its pot. You can tell by watching the plants whether they are doing well. They will die if you let them dry out too much. But they will turn yellow and the leaves drop off if they are kept water soaked.

**THINK.**

It's a little thing to do—  
Just to think.  
Anyone can think who  
Ought to think.  
Take a little time each day.  
From the minutes thrown away.  
Spare it from your work or play—  
Stop and think!

You will find that men who fall  
Do not think by guess.  
Half the trouble that we see,  
Trouble brewed for you and me  
Probably would never be,  
If we'd think!

Shall we journey bit-or-miss,  
Or shall we think?  
Let's not go along by guess,  
But rather to ourselves confess,  
It would help us more or less,  
If we'd think!

**Our Petroleum.**

The main source of Canada's petroleum supply at the present time is situated in the southern peninsula of Ontario, between Lake Huron and Lake Erie, the chief oil fields being at Petrolia, Oil Springs, Tilbury East and Bowbelle. New oil fields have been opened in Mont Township at Thamesville, Dutton and elsewhere. Oil has also been produced in New Brunswick and Alberta, but not, by any means, sufficient to supply the enormous demand, and great quantities are imported from the United States and elsewhere.

**The Boy's Answer.**

A schoolmaster had explained to his pupils the functions of a British consulate, and to find out whether or not they understood, him he asked—  
"If someone carried you off in an airplane and after a long flight dropped you a thousand miles away in a foreign country, what place would you seek as first of all?"  
"An eager hand was uplifted."  
"Please, sir, the hospital," came the unexpected answer.

**Murray Harbour North  
December meeting of the New In-**

stitute was held at the home of Mrs. Willard McClure with thirteen members and one visitor present. The meeting opened by singing Christmas Carols. After the usual routine business, the Secretary reported that the sum of \$26.90 had been made at the Christmas Tree Entertainment. Four women were appointed to visit the school and to clean the school room. The next meeting will be at the home of Mrs. Irving Miller when the programme will include a solo by Mrs. William McClure, a spelling match, and a New Year's Resolution as the answer to roll call.

**The Maritime  
C. N. R. Conference**

REPORTED TO HAVE ADOPTED  
PEACE TERMS AT MON-  
TREAL.  
Historical.

The press of New Brunswick and Nova Scotia, which we presume had members of their staffs present at the Maritimes and C. N. R. Officers Convention held last week in Montreal have favored their readers with the information that peace terms have been adopted by the Conference. This is very pleasing mankind as a white winged dove that descends to settle strife and instil brotherly love. It is a beautiful bird and is always a welcome calculation if the basis on which it alights is first laid broad enough and just enough to afford room for agreement.

The representation of each Province in this Conference is not distinctly stated nor is the scope of their mission just as clear as it might have been. For the most part, we think the great object of the Conference had reference to dissatisfaction with the routing and rating of grain freights on the C. N. R. sent east for shipment to the grain elevators at St. John and Halifax were prominent factors in the work of the conference, and if redress in the rates of freight can be adjusted to make things satisfactory over there the news will be received with applause here in Prince Edward Island.

But our minds are suddenly lifted in this Province from the announcement that the Maritime "Kick" was weakened at the start by two things: first by the promise in the speech from the Throne of a royal commission to investigate a royal commission to investigate freight rates and Maritime grievances; and secondly, by the depositions of two grain and shipping experts, which it appears were satisfactory to St. John and Halifax and did not concern this Province very much except to help our sister Provinces in return for their assistance in our behalf when our special interests are under consideration. We say, then, that if these Provinces are placated we have no reason to dissent in their case and we freely accord our assent also.

It remains, however, the bounden duty of Islanders to follow up its plea for justice and also invoke the co-operation of our sister Provinces and the sense of justice of the heads of the C. N. R. System in the allocation of the innuities of the Dominion, but such capital time to time. Also to accord us our full share of the inducements held out to immigrants. Strict equality in this respect should be meted out. All immigration should be fairly distributed among the different Provinces, and the C. N. R. should not be permitted to ignore the settler Provinces either in including immigrants to settle in Canada or settling in our Province. Moreover, if conditions here do not attract immigrants the C. N. R. System should enlighten us as to the reasons for it, making our conditions agreeable to the immigrants. There are other matters that might receive friendly attention in our behalf, but discussion of them will come later.

Above all, there is the great problem of Island development which the dove of peace has not yet been able to rest on, which the recent conference did not settle, neither did it weaken our case, and which never can be settled until the problem has been diverted to a Royal Commission, but that is only "stut your mouth and open your eyes" and see what the Lord will send you, it therefore becomes the duty of this Province to get hot foot after the Ottawa Government and give them to understand that we want action not side-tracking. If the Royal Commission comes well and good, but whether or no we must have a policy of development of our resources. This means grants for the promotion of manufacturing, on a large scale. This should include the development of our great fishery resources, and a subsidy large enough to carry this out and put them up in every form that is demanded by the home and foreign markets. The subsidy should also enable the operators at the outset to engage salesmen to push the sale of the Island brands in this and other products, to advertise the articles. Then there is propagation, canning and export of island fruit, such as apples, cranberries and blueberries, of all kinds. These might be multiplied in great number. We also see a large field open for wool growing and woolen manufactures. We need to have the industry supplied with ample power, and at a cheap rate. Lastly, we require as much paternal care—and perhaps we are entitled to more—as has been lavished upon the west and even the Maritimes westward that continue making loud appeals and are throbbing Governments, making and terrifying Governments—for fabulous sums of money, of which we are entitled to a large share.

**STOCK QUOTATIONS**

A group of neighbors, in a town where there is no public library, a good way to provide themselves wider range of reading than they could afford alone. Each one has a book a year and, one has read it, passes it on to another group. When each has finished the book comes back and is ready for the purchaser.

Such a plan might be tried here to make it even more effective. For example, the group might get together and decide upon some course of study. The university would offer advice as to what books are needed for such a course, and each might volunteer to buy one or more. This would afford special education.

In this day it is usually poor to arrange for a traveling library to the locality. There are, however, some advantages in possessing books in the neighborhood, a variety afforded by each choosing own without previous agreement also its good side.

**ORANGE SALADS.**

Oranges sliced or divided into segments with head lettuce, var. delicious salads. With them combined almost any fruits or vegetables. They may enclose a gelatin jelly; be altered with slices of red peaches or pineapple; mingled with almost any canned fruit, raw celery, stuffed dates, shredded feathered with coconut or other ground nuts. The salad will be artistic if some care is given to the arrangement on the plate, and if the pieces are distinct and well placed so that they must over
