Grain

WINNIPEG, Jan. 8. (CP) - Demand failed to match offerings and prices declined slightly in dull trading on the Winnipeg Grain Exchange Saturday. Shippers were responsible for most buying orders in oats and barley, but support was too thin to counteract steady local selling. Rye also eased on local sales and weak buying, with market trends sympathetic to Chicago losses. Closing futures: Oats: May 79 1.27; July 77 1.4E; Barley: May 1.25 3/4; July 1.21 3/4. CANADIANS HOLD ALFOE LONDON, Ont., Jan. 6. (CP) - Student officials at University of Western Ontario were informed by cable today that the National Federation of Canadian University Students has finally refused its bid to join the International Union of Students at a convention currently being held in London, England. The Canadian body charges that the I.U.S. is Communist dominated and that Communist infiltration "is too strong to combat." Last year Western students voted in favor of affiliation, holding that Communists could best be fought from within the organization.

Steel Production

OTTAWA, Jan. 8. (CP) - Iron and steel production was down last November from the same month a year ago. But the Bureau of Statistics reported Saturday that the grand total for the first 11 months of 1949 was higher than in the corresponding period of 1948. The November output of pig iron totalled 157,327 net tons as compared with 116,771 in November, 1948, while the 11-month total rose to 1,982,350 tons as against 1,946,676 a year ago. The November output of ferro-alloys stood at 14,755 tons, compared with 17,594, and in the 11 months, 199,750 tons against 164,693. Production of steel ingots and castings in November totalled 256,722 tons as compared with 277,978 in the corresponding month of 1948. The total for the 11 months was 2,922,981 tons, compared with 2,921,231 a year earlier. CLEVELAND, Jan. 8. (AP) - Steel prices, production and demand are all up. "Steel" magazine said today. Ingot production was up three points to 95.5 per cent of capacity last week, the highest level since the first week of May, the magazine noted. The magazine's weighted index of finished steel prices eased slightly to 156.13 from a revised index of 156.88 the preceding week, although the arithmetical price composite for finished steel went up to \$92.41 from \$92.18.

Maritime Potato Growers Send Brief To The U.S.

MONCTON, N. B. Jan. 6. (CP) - Maritime potato growers and shippers today sent a 1,000-word brief to the United States Interstate Commerce Commission urging that no action be taken in the protest by the Maine Potato Industry Council against proposed reductions in freight rates on potatoes shipped from Maritime points to United States destinations. The Commerce Commission's decision on the rates, which would put Maritime exporters into a more favorable competitive position, is expected next week. The brief said no case had been established by the Council for suspension of the proposed rates and asked that the Maine complaint be dismissed without further investigation. The brief was sent following a meeting here of representative Maritime potato exporters with Rand H. Matheson, chairman of the Maritime Transportation Commission, earlier this week. It was prepared and sent by the Transportation Commission on behalf of the exporters. The exporters' submission maintained that the proposed reductions, scheduled to become effective Jan. 14 would correspond with a similar 1949 reduction from Maine to other U. S. points. It would establish equalization which previously existed between the St. John valley and Maine border points.

Gov't Promises To Consider Chamber Brief

OTTAWA, Jan. 6. (CP) - Prime Minister St. Laurent today promised to consider a variety of legislative changes suggested in a brief, presented by the Canadian Chamber of Commerce. Robert A. Bryce of Toronto, president of the Canadian Chamber of Commerce, acted as spokesman for a delegation representing Boards of Trade and Chambers of Commerce across the country. With Mr. St. Laurent at the meeting were Trade Minister Howe, Senator James A. MacKinnon, minister without portfolio, Labor Minister Mitchell, Health Minister Martin, Justice Minister Carson and Solicitor General Lapointe. The brief said that while steps were taken at the last session to eliminate some of the element of double taxation on corporate profits, its additional action is needed to eliminate discrimination against business. "Any attempt to force profits back to prewar levels or any action aimed at preventing profits from keeping pace with increasing sales will result only in the drying up of the main source of investment capital," said the brief. "The inevitable consequence will be diminishing production, rising unemployment and, finally, business collapse." Advice to Labor Labor was told not to press for higher and higher wages. The brief said: "The Chamber believes that the present economic conditions call for the exercise of restraint and voices a warning that no economy can support a continuing upward spiral of wages or other factors which will result in a top-heavy cost structure leading to inevitable collapse." It also said social security should not become an end in itself. "We must beware of looking to the state to provide security to the extent that the individual loses incentive to provide for himself," said the brief. Privileges and protections of Canadian labor legislation should not be extended to any organization led or dominated by Communists, said the brief. Strikes should be prohibited until they have been authorized by a majority of all the employees affected in a government-supervised and secret ballot, held after the expiry of a "cooling off" period. The brief said a national advisory committee of leading Canadian citizens should be established to assist in the development of a long-range immigration policy. On trade, it said, the Chamber
