years of age. Specialty at college, Mathematics.

4. Literary studies. Between 11 and 14 read Shakespeare and Dickens avariciously, besides other lighter works and general newspaper reading, and continued reading heavy literature. Seldom in after years read light literature.

First winter when with McLeod and Bentley read nearly all the works of Robert Louis Stevenson in order to compare him with Scott whom I had previously read considerably. Never read any literary book after that because of pressing of financial difficulties and over crowding of work.

5. After long period of study decided on solicitation of D. J. McLeod to give up preparation for special course in McGill and to enter M. & D. C. McLeod's office and take up the study of law, against opinion of father as to the merits of office. Articles with D. C. McLeod and agreement with him to be paid $100. for two years and $150. next three years, payment to be made weekly or monthly as required. Made it distinctly plain to Mr. McLeod that it was absolutely necessary to be paid as I had no money, that I had made other provision for clothing and required that money for board. He had been looking for a student. I did not solicit the position.

6. Made provisions with friend at home for then present financial arrangements and for money to start business when I got through, and with brother Herb for clothing.

7. Settled down to life work thinking that I would be quite free to enjoy the work without financial embarrassments.

8. First year attended Judge Hodgson's lectures regularly. Mock Court and besides working on regular course read 4 volumes of Blackstone and Preston on Estates—the latter a work read by very few lawyers, but intended to give a thorough grounding in real property theories.

In latter years of course of study read Case law and other books not usually read by students.

9. Asked McLeod repeatedly for money, but he would not give it and carry out his agreement.

10. Mr. Bentley entered into partnership some months after I entered office and showed his animus shortly after by deliberately telling Prof. Shaw whom I was trying to borrow from that I was being paid right along, notwithstanding that up to

ADMIT CATTLE FROM CANADA

Members of the British House of Commons In Favor of It

LONDON, Jan. 22.—The Canadian Associated Press understands that the promoters of the movement for admitting Canadian cattle have been canvassing the members of the House of Commons during recess, and that about 200 have promised their support. A large number of the members will ballot for the bill on the subject.

Eyestrain rarely accompanies very bad sight. The "nearly perfect" sight in its effort to secure "perfect sight" usually produces eyestrain. The proper lenses remove eyestrain by making the act of looking at things easier.

Heaviness, Lassitude, Drowsy and Dull.

Do You Feel That Way?

How provoking these symptons are! You sleep well, but when you awaken there is none of the exhilaration that sleep and rest should confer.

Instead of being alert, having quickness of apprehension, there is languour, dullness, a disinclination to do things.

Three causes for this feeling.

Lazy liver, lazy kidneys, and a mighty lazy stomach which does its work very poorly and compels the other organs to do things they are unequal to for any length of time.

Note the consequence—blood is filled with wastes—poisons weigh down the nervous system rebuilding processes are absolutely stopped.

You'll note an instant change when you take Ferrozone.

Appetite improves, digestion becomes good as ever skin grows ruddy and clear, all sense of languor, unsteadiness and depression fades away and finally disappears.

Ferrozone clarifies the brain, supplies tone and vigor, imparts clearness and strength. You feel like a new person, full of life, full of ambition, ready to do things,—and able to do them also.

Think it over. Ferrozone is a tonic that uplifts, upbuilds, that nourishes and restores the sick by supplying the elements their weakened system need.

It can't help but do you good. For men women and children, in fact anyone seeking strength and health, Ferrozone is invaluable; try it, sold by all druggists in 50c boxes.

WHAT CAUSES "NERVES?"

Most people say worry—they are wrong—the cause is in the blood which is thin and lacks nutriment. To cure "Nerves" more blood, sinew and flesh are required You get these quickly by taking Ferrozone. No health bringer is so certain, no nerve strengthener more potent, no system tonic so well adapted to the wants of the run-down, nervous or sleepless. Let Ferrozone build you up, let it fill you with vim, energy and surplus vigor. It has done this for thousands.

:Don't take any chance on having your prescriptions filled. We use only drugs of known freshness purity and strength. Our service has never known mistakes hence the record of nearly 6000 precriptions a year compounded by us. Let us fill your next prescription. MacDonald & MacKinnon Prescription Druggists.

WILL KEEP THE MORBID OUTSIDE

Sensation Seekers Will Not Be Pleased With Jerome's Effort to Have Evelyn Thaw's Evidence Given Behind Closed Doors.

NEW YORK, Jan. 21.—The most astonishing move that has yet been made by either the prosecution or the defence in the trial of Harry K. Thaw, charged with the wilful murder of Stanford White, came when District Attorney Jerome asked the court to exclude from the courtroom the public, including the newspaper writers, during the recital by Evelyn Nesbit Thaw of the story she told on the stand during the first trial. The District Attorney had given no hint of his intended action and even Mr. Littleton, of the defense, said he had not considered the matter before although he quickly added his request to that of Mr. Jerome. Justice Dowling did not rule on the point further than to say that he thought if such a motion was to have been made it should have been made at the first trial and announced that he would take the question under consideration and give a decision Monday.

At the first trial hundreds of people besieged the court room and used every artifice to secure admission while young Mrs. Thaw was telling her story on the stand. The lines were drawn very tight even then, only a few outsiders and those persons who had influence with the court officers securing admission. There were only a few women in the court room when the story was begun and Justice Fitzgerald stopped the testimony to give those of them who desired an opportunity to leave the room. Not one of the few women who had schemed so hard for admission took advantage of the opportunity but all remained until the story was finished. District Attorney Jerome has succeeded in getting a large portion of Mrs. Thaw's young life out of the record and it was believed that he would have attempted to keep her from repeating the story she says she told her husband about her relations with Stanford White. Whether the motion to exclude the public means that he has given up this idea is not known.

ANY DOWN WITH PLEURISY.

Doctors say the country is full of it. First comes a chill, then cold develops—the inflammation grows—you can't draw a long breath—lungs and sides get sore, and pleurisy sets in. A good home-cure consists in taking twenty drops of Nerviline every four hours. Supplement this by vigorously rubbing the sides and chest with Nerviline, and when warmth and circulation are established, put a Nerviline Porous Plaster over the aching spot. Nerviline Treatment is always successful in colds neuralgia, and pleurisy. Try it yourself.

FOR A BAD COLD

Nothing cures so quickly as the healing Pine essence in Catarrhozone. It fills the breathing organs with a healing, soothing vapor that relieves irritation at once Ordinary colds are cured in ten minutes. Absolutely sure for Catarrh, and in throat trouble it works like a charm. Catarrhozone is a permanent cure for bronchitis and throat trouble. Not an experiment—not a temporary relief—but a cure that's guarantee. Get "Catarrhozone" to-day. 25c. and $1.00 sizes.
