Wednesday afternoon the first conference at which interprovincial questions were discussed as they were within the sphere of activities of the Governors, took place at "Spencer Wood," followed by a garden party to which some five hundred guests were invited. A dinner is being tendered to the visitors by the Provincial Government at the Parliamentary Cafe on Tuesday.

was established at Brooklyn, Lot 61, on March 15th, 1913. But the first Egg Circle to export eggs in connection with the explanation given in connection with them, have produced on May 10th, 1913. It soon became evident that the rapidly extending business of the Egg Circles had to be centralized. In March, 1914, a Central Association was organized and incorporated by the Provincial Legislature. To this Central Association all the egg circles in the Island were affiliated. It is known as "The Prince Edward Island Co-operative Egg and Poultry Association." Under the superintendence of Mr. George Lightizer and others, the business of the Egg Circles has been greatly enlarged with additional profit to the farmers interested.

Co-operation on the part of the farmers of the Island has indeed resulted in a marked improvement in agricultural produce of every kind, and in the marketing thereof. The Experimental Farm Station and the demonstration areas are "eye openers" for farmers and inventives to improved husbandry.

Of beef cattle the late Mr. Fred G. Boyer, Georgetown Royalty was for many years a leading breeder and exhibitor, and his herd of Shorthorns was the source of many of the fine cattle now seen in all parts of the Island. The late Mr. John Richards, of Bideford, in Prince County, imported from Scotland a herd of Aberdeen Angus cattle equal in quality to any herd in Canada; and the late Senator Yeo, of Port Hill, imported and bred Hereford cattle of the best class.

Prince Edward Island is famed for its sheep, swine and poultry, no less than for its horses and cattle. The first importations of sheep were chiefly those of the Leicester and Southdown breeds. In later years Lincoln, Cotswolds, Cheviots, Oxford, Hampshire and Shropshire Downes have been imported, bred and distributed throughout the Province; and the Island's exports of lambs and wool are a source of wealth. Swine of the Yorkshire and Berkshire, Tamworth and White Chester and other breeds are also produced in perfection. Of poultry the classes are numerous and excellent. As a result of an investigation made by Mr. W. A. Brown, Chief of the Poultry Division of the Department of Agriculture at Ottawa concerning the poultry conditions of Prince Edward Island, the Department, with the concurrence of the Provincial Department, appointed a resident representative to give expert advice regarding the production and marketing of eggs and poultry. Mr. T. A. Benson, the representative appointed, after devoting some time to further investigation and delivering addresses in various parts of the Province, began to organize "Egg Circles." ROSS-MILLER BISCUIT CO. MANUFACTURERS

FOX AND DOG BISCUITS, STOCK FOODS Nutritional Biscuits For Children Charlottetown, P. E. I., Sept. 10, 1925.

Sales Letter

Dear Sir: We wish to introduce our new improved fox and dog biscuit, which we are placing on the market.

After many years experience in the manufacture of fox and dog biscuit, Ross and Miller have opened a large factory at Napanee, Ontario, equipped with all the up-to-date machinery used in the manufacture of biscuit, including one of the largest revolving ovens in Canada.

The biscuits contain pure cod liver oil and are thoroughly and uniformly baked under a low temperature to save the valuable vitamins. They are much relished by foxes and dogs and are guaranteed by the manufacturers to be sanitary and 100% digestible.

The biscuits are made of a strong flour, rich in gluten, together with a good percentage of whole wheat flour. The idea is to get back to the "Old Grist Mill" process of nourishing flour, containing the most valuable properties of the wheat. The pork and beef crackling used in these superior biscuit is sterilized, making it fit for human food. The ground bone meal is of the finest quality, rendering it easily assimilated.

The Ross-Miller Biscuit Company place these biscuit upon the market with the confidence that they will give every satisfaction. Our standard fox and dog biscuit, prepared under the direction of expert scientists, is certainly the last word in nutritional biscuit.

The testimony of ranchers who have tested this biscuit is favorable in every case. We ask you to test their merits for yourself.

Two wholesale distributors have been appointed to handle our goods, Carter & Company, Charlottetown, for Queens and Kings County, and, Brace, McKay & Company, Summerside, for Prince County.

Yours for service, J. K. ROSS, Manager. Phone 74. Box 446, Bank of Nova Scotia Building.

R. Brown, of Charlottetown; and from these there has been developed the prize winning herd of Messrs Royer Brothers, Charlottetown Royalty. Mr. Brown of Marshfield, the Rev. Dr. Walker, of Rollo Bay, and many others have been successful importers and breeders of Ayrshires, famed for hardiness, as well as for their ability to produce excellent milk. Mr. Walter M. Lea, of Bedouque, Mr. Walter J. Jones, of Bunbury Farm, and others have developed fine herds of Holsteins. Mr. William Clark, of North Wiltshire, is the owner of a herd of first-class Jersey cattle; and Mr. Frank Glynod, of Margate, makes a creditable show of the same excellent class of milk cattle.
