

ESTABLISHED 1891.

THE GUARDIAN, CHARLOTTETOWN, PRINCE EDWARD ISLAND, SATURDAY MARCH 31 1900

PRICE TWO CENTS

CANADA'S BRITISH

Because of Sir Wilfrid, says Nantel.

FRENCH TORY OPINION

Favors Higher Protection Princess Victoria's Horse—Oxford-Cambridge.

MONTREAL, March 30.—(Special)—Here the Working Men's Conservative Club Hon. G. H. Nantel declared that all the aspirations of French Canada had been shattered by the Laurier Government.

"Thanks to Laurier, Canada is still a Colony, under the orders of Downing Street; has been carried away by the spirit of imperialism and now seeks to destroy the great principle of protection that so greatly contributed to make Canada a great country."

"Canada should give no preference," he said, "but should adopt a more severe protection."

"England should be given to understand that Canada owes her no favors, but rather that she owes us rights."

PRINCESS VICTORIA'S HORSE WON.

LIVERPOOL, March 30.—(Special)—The Prince of Wales and a large crowd of fashionables attended the grand national race to-day and the Princess Victoria's horse Ambush II won easily.

Victoria is wonderfully popular among the people, and there was great waving of hats and cheering.

OXFORD DEFEATS CAMBRIDGE.

LONDON, March 30.—(Special)—At the inter-university athletic games to-day Oxford defeated Cambridge 6 to 4.

ROYAL Baking Powder. Made from pure cream of tartar. Safeguards the food against alum. Alum baking powders are the greatest menaces to health of the present day.

strong boots. For girls. Good solid stock—home-made. Sizes 11, 12, 13, 1, 2. 69c a pair. Goff Bros.

PERSONAL MENTION.

Mr. L. U. Fowler went west yesterday afternoon.

Mr. W. A. O. Morson went west yesterday afternoon.

Miss Larkins of Summerside, is visiting friends in the city.

Miss M. A. C. Stewart of J. F. Norton's, Cardigan, is in the city.

Mr. N. J. Grace, of the Dominion Line Steamship company who has been in the city in the interests of his line, went east yesterday afternoon and will cross by the Minto today.

Rev. G. M. Young, Chatham, N. B. the conference organizer of the Epworth League, wishes to meet all the members of the different leagues in the city on Monday April 2nd in the parlor of the First Methodist church. He will arrive in the city tonight.

A NEGLECTED COLD is very dangerous, and the farther it goes the faster it goes. A very small quantity of Adamson's Botanic Balsam will cure a "young" cough. An older one requires more Balsam to stop it—but no cough is too old for it to cure. 25c at all Druggists.

NEW YORK STOCK LIST.

Table with columns: Closing prices, March 30th. American Sugar 110, American Steel and Wire 56 3/4, American Tobacco nil, Brooklyn Transit 72, Burlington 131 1/2, Continental Tob. 32, Federal Steel 54 1/2, Federal Steel Prod 74 1/2, Louisville and Nashville 70 3/4, New York Central 137 1/2, Rock Island 112 1/2, St. Paul 123 3/4, Tennessee Coal and Iron 99, United Pac Pr'fd 70 3/4, United States Rubber 31, April Cotton per 100 lbs 0.37

CHICAGO MARKETS.

CHICAGO, March 30.—(Special)—The following are the closing rates: March, wheat, 66 3/4; corn, 37 3/4; oats, 23 3/4; pork, \$12.70; July, wheat, 67 1/2; corn, 38 3/4; oats, 24 3/4; pork, \$12.70.

Good enough for the rich, cheap enough for the poor. Bentley's Liniment, (ten cents) the modern Pain Cure.

Mr. R. J. Wood is selling salmon at 11 cents per can. Every can guaranteed. Money refunded if not satisfactory. —24 Sat. 31 pd

MARRIED

At Hamilton, March 28th, by Rev. J. M. Fisher, B. A., Frank Simpson and Lisale Mountain, both of Hamilton.

At the home of the bride's mother, by Rev. David Price, March 28th, 1900, William Howatt of Bradford, P. E. I., to Janie Robblee, Tryon, P. E. I.

DIED.

On Friday morning, March 30th, Mary E. Thorne, beloved wife of David Blake, in the 22nd year of her age. Funeral will leave her father's residence, Mr. Alfred Thorne's, on Sunday at 3 o'clock to People's Cemetery.

At Heatherdale, March 25th, Malcolm McPhee, aged 82 years. He was an intelligent and faithful Christian. The service was conducted by the Revs. Mr. McLean and Sutherland.

CLEVELAND FOR THIRD TERM.

WASHINGTON, D. C.—The possibility of his party uniting on Mr. Cleveland for third term attracts increased attention here, and his nomination, despite its exceptional character, is not an impossibility. Reciprocal trade relations with Canada and the admission into the United States free of duty of that celebrated Canadian product, Putnam's Painless Corn Extractor, on account of its painless action and certainty, would be a plank in his platform. Use Putnam's Corn Extractor. Sure! safe! painless!

Parlor Carpets. Rarely beautiful patterns, some in deep, rich greens with graceful scroll patterns, fashioned after that fine old style Florentine embroidery floral designs shading with glowing reds. Enchanting effect. Come and see them.—Jas. Paton & Co 23.1f

\$1.00 a pair for ladies' fine boots, regular prices \$1.50 to \$2.25. See our window to-day.—R. K. Jost. 31.1f

Haszard & Moore Printers, Book binders, Booksellers, Seedsmen, Fancy Goods. HASZARD & MOORE Sunnyside.

ARCHIBALD FORBES DEAD. THE FORESTS OF CANADA.

British Flying Squadron Sails from Gibraltar.

MAFEKING RELIEF EXPEDITION

British Force Retires From Fourteen Streams—Canada Will Not Advise About South African Settlement—Secretary Wyndham's Guarded Answer—French Soldiers Fighting Algeria.

LONDON, March 30.—(Special)—Archibald Forbes the famous War Correspondent died this morning.

ARCHIBALD FORBES' CAREER.

He was born in Morayshire, Scotland, in 1838. He engaged in journalism and first greatly distinguished himself as a War Correspondent of the London Daily News amid the stirring events of the Franco-German War of 1870, and afterward in the Russo-Turkish War, the siege of Plevna and other noteworthy military events. He was at once a pioneer in this feature of modern journalism and the most famous War Correspondent of his times.

He lectured extensively in England, the United States and the British Colonies and wrote several books detailing his experiences in the field and recollections of the great men he had met.

HEAVY FIGHTING IN AFRICA.

PARIS, March 30.—(Special)—French soldiers defeated the Touat tribesmen in Algiers in a sanguinary engagement for the occupation of Inghai Oasi. They lost 600 men killed, 1,000 wounded, and 600 prisoners.

BRITISH FLYING SQUADRON SAILS.

LONDON, March 30.—(Special)—The British special service squadron is ordered from Gibraltar to the Canary Islands. The squadron is composed of four of the fastest cruisers in the navy and the new

move excites curiosity.

THE QUEEN TO MRS. JOUBERT.

LONDON, March 30.—(Special)—The Queen has instructed Lord Roberts to convey to Mrs. Joubert her sympathy at the death of her husband telling her that the British people always regarded him as a gallant soldier and an honorable foe.

A VERY GUARDED ANSWER.

In reply to a question in the Commons today as to whether any expedition is on the way for the relief of Mafeking Secretary Wyndham said the Government could not disclose military plans.

EN ROUTE TO MAFEKING.

The Boers bombarded the British Camp at Fourteen Streams north of Warrenton on March 28th and the British withdrew.

The belief is that Lord Roberts has made preparations for advance and it is thought that a Mafeking relief column is well on its way.

CANADA WILL NOT ADVISE.

OTTAWA, March 30.—(Special)—The understanding is that Canada will not make any official representation to the Imperial Government on the settlement of the South Africa trouble, taking the ground that Lord Salisbury's Cabinet know their business and are fully alive to the necessities of the case.

THE WEATHER.

WASHINGTON, March 30.—(Special)—Rain or snow, clearing, generally fair, variable winds, becoming fresh north westerly.

SURPRISE SOAP. Lasts long—lathers freely—a pure hard soap—low in price—highest in quality. ST. CROIX SOAP MFG. CO., St. Stephen, N.S.

NOT A FEW—BUT—A BIG STOCK.

The only tailor-made suit worth the name is the one that fits. Fit is the vital feature, the life of every ladies' tailored garment—one wrinkle ruins the effect.

We have the kind that fit—not a "pull" not a "draw" at any point. Each yard of cloth has every bit of "stretch" and "shrink" taken out of it before being cut—a fact which insures a lasting fit.

Every seam and edge is perfectly finished—no bumps, no welts. Only the very best of materials are used—finest imported cloths, guarantee silk linings throughout the coat, good buttons, genuine hair cloth stiffenings, satin padings, etc., and price right.—Jas. Paton & Co. 23.1f

Eastern Holidays.—The P. E. I. Railway issue excursion tickets on the 11th, 12th, 13th and 14th April, 1900, good to return on the 16th April, 1900. A special train is also to be run between Tignish and Charlottetown on the 14th April, and special cheap fares will be in force on all trains on that day. See hand bills. 31.1f

Carters' for Wall Paper. Know all men that this is Tie Day at Stanley Bros. —81.1f

Another lot of those \$1.00 boots for ladies. See our window to-day.—R. K. Jost. 31.1f

Dr. Saunders and Prof. Macoun Deliver Instructive Addresses.

What is destined to be a most important organization for Canada is the Canadian Forestry Association, the inaugural meeting of which was held recently in Ottawa. His Excellency the Governor General has accepted the presidency.

Among the speakers were Dr. Saunders and Prof. Macoun. Both gentlemen are well known as far east as Prince Edward Island.

PROF. MACOUN.

Prof. Macoun gave a most instructive address dealing chiefly with the possibility of reforesting the great prairies of the Northwest. In days long gone by those immense territories were covered with trees, and the day would soon come with the application of proper methods, when they would be clothed again in the same way. It was said that trees would not grow there because of the climate, and the soil being unfavorable, but that was a myth. They had nothing to do in the matter of the growth of forests. The chief thing was moisture. If settlers would make ponds on the prairies with bottoms impervious to water, a moisture would be caused in the immediate neighborhood, and it would not be long

before willows and shrubs would be seen sprouting up around the edges. They would create a shade and thus retain the moisture in the ground and give rise to the growth of other trees, until it would not be long before the growth would expand amazingly. All that was wanted was for the settlers to start the ball rolling and nature would do the rest. He had experimented with success in this way.

EXPERIMENTS AT THE FARMS.

Dr. Saunders then gave some valuable information on the result of the experiments in forestry carried on at the Experimental farms. They carried out the theory advanced by Prof. Macoun, that moisture was an essential to the growth of trees. In twelve years they had twenty thousand trees on the farm, with observations noted on their growth and the existing conditions. Most valuable information had been obtained, and such an association as that just formed would no doubt encourage people to make use of this information to the best advantage.

An interesting discussion followed in which His Excellency took a prominent part after which the meeting closed.

The Indian Famine.

SIR,—As your influence is always on the side of right and righteousness, I thought perhaps you would advocate the claims of the starving millions of Hindoos who are dying because they have no bread. I am well aware that many of your subscribers have been called upon to help the Century Fund, the Patriotic Fund, the Hospital Fund, &c., all very good things, but louder than all these comes the cry for bread from famine-struck India. Is it true that forty or fifty millions of people are affected by this famine?

"The Lord of the harvest" blessed us with an abundant harvest in this land and I think all would give if they were appealed to. If all have not cash they have wheat or oats, and will give willingly, when they know the need.

Would you open a list in your widely circulated journal and solicit subscriptions for this good cause, or have you any other way to propose?

Yours truly, H. M.

The Beginning of . . . Heart Failure

This watery blood, and weak, exhausted nerves the real cause—Dr. Chase's Nerve Food the preventative.

Persons subject to thin blood and nervous exhaustion may well tremble at the mention of heart failure, as they have in their system the beginnings which lead to weakness of the heart. The vitality of the heart is amazing considering the immense amount of work it does, and so long as it is supplied with plenty of rich, red blood it plods on untiringly, rebuilding its waste as the blood passes through.

Once the blood gets thin and the nerves starved and exhausted the waste gradually becomes more rapid than the restoring process and finally some nervous system or other organ ceases to function and life departs.

Headaches, pains in the back and limbs, sleeplessness, weakness and irregularities of the feminine organs, palpitation of the heart and nervous disorders are sure indications of this weak blood.

Dr. Chase's Nerve Food forms new red corpuscles in the blood, puts vital energy into the nerves, and stops the wasting process that would ultimately end in heart failure, nervous prostration or paralysis.

It is the world's greatest restorative for men, women and children. In pill form, 50c a box, at all dealers, or EDMONDSON, BATES & Co., Toronto. Book free.

HEART HUMBUS.

It is fashionable to day to have a new heart scare every 24 hours. The commonest symptoms of dyspepsia or nervous trouble, such as palpitation, weak pelis, loss of appetite and poor circulation, are magnified and distorted into serious signs of heart trouble, with the object of frightening the public into taking this or that heart remedy. If a hundredth part of the heart trouble we hear about were real, the cemeteries would be filled in a month. A wrong construction is put upon common ailments in order to humbug the people into the belief that heart disease is prevalent, where as real heart trouble, which is so sadly and suddenly fatal when it does occur, is a rare disease. Lopsided arguments cannot convince an intelligent people. Iron is a vital element of the blood. Too little iron means weakness, lack of spirits, pallid cheeks, shortness of breath, sleeplessness, nervousness, loss of vital force, ending in general break down. The iron in Dr. Ward's Blood and Nerve Pills is in the soluble form you need, in combination with other curative agents in such a manner that disease can't resist their action. You feel yourself getting well when you take Dr. Ward's Blood and Nerve Pills. 50c per box, 5 boxes for \$2. All druggists, or am Williams & Co., Toronto, Ont.

156 DOZEN Flags. Received Yesterday. PRICES FROM 20c UP AT Carters' Bookstore.
