FINNISH RUNNER DEFEATED.

NEWARK, N. J., Jan. 16.—Hannu Kolehmainen, the Finnish champion distance runner, was defeated by a scant yard in a handicap race at the First Regiment Armory last night, when he made the remarkable last time of 14, 32 3-5 for three miles on a nine laps to the mile track. He had conceded 150 yards to Sydney Leslie, who won, but as follows scratchmen he had will Kramer the cross country title holder and Louis Scott, the four mile record holder. Kramer gave up after the second mile and Scott was outrun by the Finn's sensational sprint to overtake Leslie in the last half mile.

SNEED IS AGAIN ON TRIAL

MEMPHIS, Texas, Jan. 13.—John Beal Sneed, banker, and B. B. Epting an employee of Sneed, entered pleas of not guilty, today, to charges of murder, respectively, in connection with the killing of A. C. Boyce, Jr. Sneed was brought to the bar, after a jury had been obtained, to hear the trial of Epting, by his attorneys, who filed a motion, asking that he be tried first, or in the event his request was not allowed, that he be tried jointly with Epting. The court will rule on the motions tomorrow. The killing of Boyce, a ranchman, at Amarillo, last September, was a sequel to his elopement to Winnipeg with Mrs. Sneed, some months previously.

WARNING TO BOARD OF TRADE.

CHICAGO, Jan. 16.—A note of warning to board of trade exchanges and brokers to confine their transactions to the strictest interpretation of the law was sounded today by J. C. F. Merrill, president of the council of grain exchanges at its annual meeting here. The council is composed of nineteen of the largest grain exchanges in America. Referring to the address of President-elect Wilson in Chicago last week, in which Mr. Wilson pointed out what he intended, doing with monopolies and speculative industries, Mr. Merrill said his ideas are modern and they will be enforced. The members of boards of trade who see this and will not heed the warning will be forced to heed it.

GIRL LIVES AFTER FIVE STORY LEAP.

NEW YORK, Jan. 15.—Because of her failures to receive replies to letters to her parents in Russia, Annie Katz, eighteen years old, leaped from the roof of the five story tenement house at No. 233 Monroe street today. Although the girl fractured her skull, broke both hips, her right leg and her right foot, she was still living when taken to Gouverneur Hospital, though the doctors say she could not recover.

Stomach Always Balked Had Constant Indigestion

Smell of Cooking Made Him Sick—Bilious Two Days a Week. Cured by Dr. Hamilton's Pills. Mr. Clemmons' experience is not unusual. Nowadays poor stomachs are more the rule than the exception. But the proper treatment is sure to make a quick cure. You can always depend on Dr. Hamilton's Pills, they reach the trouble at once, go right to business, work while you sleep and have you feeling better if not cured next morning.

"My food seemed to decompose in my stomach," writes Ralph Clemmons, of Newbridge, P. O. "I had a stomach that failed in some way to perform its work. Digestion seemed more or less arrested and I grew thin, yellow, nervous. The stomach became distended and impeded apparently the action of the heart, for often at night it would do great stunts. At time I would vomit a mucous mass, and at these times my head ached most terribly. A friend who had been cured of a similar condition, advised me to take Dr. Hamilton's Pills regularly, which I did. The result in my case was simply marvelous. Dr. Hamilton's Pills removed the cause, strengthened the stomach, excited the liver to normal action, the kidneys were released of excessive work. Health soon grew within me. I can eat, sleep and live like a live man."

Be advised—use Dr. Hamilton's Pills—they are sure to do you good. 25c. per box, five for \$1.00, at all druggists and storekeepers or by mail from The Cataractose Co., Buffalo, N. Y., and Kingston, Canada.

GRAY HAIR TURNS ITS NATURAL COLOR AFTER APPLYING SAGE TEA

Mixed With Sulphur It Darkens Beautifully and Takes Off Dandruff.

Almost every one knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also cures dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays skilled chemists do this better than ourselves. By asking at any drug store for the ready-to-use product—called "Wyeth's Sage and Sulphur Hair Remedy"—you will get

a large bottle for about 50 cents. Some druggists make their own but it's usually too sticky, so insist upon getting "Wyeth's" which can be depended upon to restore natural color and beauty to the hair, and is the best remedy for dandruff, dry, feverish, itchy scalp and to stop falling hair. Folks like "Wyeth's Sage and Sulphur" because no one can possibly tell that you darkened your hair as it does it so naturally and evenly, says a well known downtown druggist. You dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. This requires but a few moments, by morning the grey hair disappears and after another application or two is restored to its natural color and looks even more beautiful and glossy than ever. E. A. Foster, Central, Sulphur Hair Remedy—you will get Drugstore Ch'town.

THE DRINK CURE

By the REV. HUGH B. CHAPMAN, Chaplain of the Chapel Royal, Savoy.

From "The Daily Mail," London, England. By the kindness of the proprietors of The Daily Mail, I have been permitted on three previous occasions to report upon the progress of the Normyl treatment in treating victims of the drink and drug habit. The Normyl Association is now entering upon the fifth year of its existence, and in this, my fourth, annual report I rejoice to say that my news is full of increased hope and genuine satisfaction as regards the treatment. The good done and the happiness bestowed, as shown by our records, steadily grows each month, and that without advertisement, which goes far to show the inherent merits of the undertaking. Over 5,000 slaves to the drink and drug habits have undergone the treatment during these four years, while the number of failures known is slightly less than 8 per cent., and in nearly every instance of failure it has been admitted that the conditions of the treatment were not faithfully carried out.

The Normyl treatment was introduced into this country by a Roman Catholic priest, for its discovery we and the large number of happily restored beings whose reclamation is an unanswerable testimony to its virtues have to thank a Canadian, Mr. Hutton Dixon.

The discovery was practically an accident. Mr. Dixon many years ago had occasion to treat neurotic patients; a sine qua non of the treatment was complete abstinence from alcohol, and to Mr. Dixon's surprise a number of his patients told him that they felt a distinct disinclination to take alcohol while taking his prescription. This led him to prepare a combination of drugs with this prescription as the basis, and after many experiments extending over ten years it was pronounced by all who saw its effects to be a powerful and permanent antidote to alcoholism.

Early in 1905 the formula was shown to a British physician of the highest repute, who, after a thorough investigation, was satisfied that the preparation was absolutely harmless. Upon this guarantee, and with the kind support of a body of gentlemen who are deeply interested in the reclamation of the drunkard, the Normyl Treatment Association was formed. With Mr. Cecil Chapman, the magistrate for Lambeth, as its Chairman, Mr. Owen Seaman, the editor of Punch, as its treasurer, and a number of well-known, earnest-minded gentlemen as its committee, the bona fides of the association cannot for one moment be called into question. Not one penny's profit is drawn from the sales of the treatment, the founders of the association being actuated by none but purely philanthropic motives and their recognition of the deplorable havoc played by the curse of drink and the sore need of some efficacious remedy. The moneys realised by the medicine are applied solely as royalties to the discoverer and for the upkeep of the office in Victoria Street and the payment of the staff. The price of the

Every day the "Normyl" treatment is coming to be recognized by the medical profession. At its inception not half a dozen doctors would identify themselves with it; today over a hundred and fifty of them are prescribing it in their practice, which is a significant fact, considering the natural professional aversion of the faculty to an unpublished prescription. In concluding I wish to repeat my thanks to The Daily Mail for its courtesy, and also for its courage, in allowing me again the use of this column, and to exhort all who have the stamping out of one of the most flagrant evils of our nation at heart to apply to the offices of the association for fuller particulars of the treatment and striking proof of its efficacy. More than one thousand outpourings of grateful hearts are in the hands of the secretary—names, of course, are always suppressed—and I can only trust that the extraordinary happiness which has been brought to many homes may be enormously increased, as must follow when once the value of this great opportunity is recognized by the public. All inquiries, which will, of course, be treated with the utmost confidence, will be immediately answered, and where it is required any personal service which I can render shall be at the disposal of those who apply. (REV.) HUGH B. CHAPMAN, Hon. Secretary Normyl Association. Mr. Dixon Jr. is at present in Canada for the purpose of forming a similar association here, and full particulars regarding the treatment can be obtained by writing to him. His address, for a short time only, will be Mr. J. C. Dixon, P. O. Box 592, Lethbridge, Alta.
