

THE KING'S COUNTY GUARDIAN

Offices in Montague, Capt. W. A. Johnsons, Manager, and in Souris, M. S. Acora, Manager

The latest news, first of all.

A picnic, in aid of St. Margaret's Church fund, will be held at Bear River Station, on Tuesday, July 27.

S. O. T. REPORT

(Continued from page 1.)

In the province of New Brunswick the temperance people were not altogether ignored by the Government. They were given a slight privilege which they made good use of. This took the form of amendments to the Liquor License Law. These resolved

The fourth meeting of the Quarterly Board of the Methodist church, Montague, met in Mrs. McDonald's Hotel on the evening of the 4th inst. There was a large attendance and the reports indicated one of the best years this circuit has ever had. The receipts showed a substantial increase over last year, and a splendid harmony prevails. After the business the members sat down to a social banquet provided for the occasion.

themselves into certain restrictions upon the holders of licenses, and the requirement of a three majority vote in local option decisions. The city of St. John was the first to put this new privilege into operation, with the result that in four wards where voting took place, three voted "dry" and the fourth had a narrow escape. This result followed a determined position on the part of the rum partisans. No doubt this was the beginning of a struggle that will eventually bring in the reign of Prohibition.

And what shall be said about our Island Province? What has taken place in the region of legislation is familiar to you all. But we do well to recount the steps in our advance toward what may now be termed

the highest temperance ground yet reached in this country! We can get some idea of the strength of our present attainments when we remind ourselves of what our Local Legislature was about to do, and of what was actually done. We do not say anything about what might have been done rather do we express our kindest gratitude for what has been enacted by our local lawmakers. If the Federal Government has power to translate the resolution passed by our Local House into law we may be enabled to "kill" the rum business in every shape and form. And according to the expressed opinion of Hon. Geo. E. Foster there is no reason to doubt the power of the Dominion Government as touching our resolution.

At all events the legislation enacted by our local house, not only in regard to the importation of liquors into Prohibition territory, but in regard to the soliciting of orders for liquors, is of immense importance. It strikes at what was becoming a great source of drunkenness. It shall put out of business the so-called "clubs," especially as they found favor among young men in many of the country centres of our province.

SUBORDINATE DIVISIONS.

Her Skin Was Blotchy

Scaly Like Pimples Over Her Face and Ruined Complexion.

A SPEEDY CURE.

"When my skin had always been so clear and ruddy. I found it very mortifying to see pasty and pimply patches coming over my face," writes Mrs. S. T. Ungerer, a well-known resident of Wheeling. "Great relief at last came on my chin, grew dry and scaled off. I think my stomach was at fault. Certainly my blood was poor because my lips were white and I had unpleasant fullness and ringing in the ears. "Noticing in the papers such strong recommendations for Ferrozone as a blood and strengthening medicine, I decided to use it. From the first tablet I took there was an improvement. I felt better and had such a good appetite, improved in color and the old rosy flush slowly returned to my cheeks. Finally the blotches began to leave and the skin grew soft and smooth. I have gained some in weight, look the picture of health and feel as if I had never been ill. There is no nourishing tonic so sure to build up and strengthen as Ferrozone. It contains concentrated vegetable extracts that supply every weakened system with the element it lacks. Health, vigor, happiness—these are the direct results of using Ferrozone regularly. Sold by all dealers, 50c. per box or six boxes for \$2.50. Get Ferrozone today.

A WONDERFUL GAS SAVING DEVICE

MONTREAL, June 6.—Very interesting demonstrations are being made at the offices of A. Robert, Montreal, by Mr. Mouvant, of Lyons, France, whose device for economizing gas is interesting scientists, manufacturers and householders.

For a quarter of a century science has been struggling with the problem of producing a maximum of light from the minimum of gas. Great progress has been made, but Mr. Mouvant has undoubtedly taken a wonderful stride forward in this matter. His new burner, according to Professor LeJan of the Polytechnic School of Montreal, saves fifty-four per cent. in the consumption of gas on other burners.

To the ordinary observer, the contrast between the new burner and the old kind is simply startling. Under similar conditions of pressure a light of far greater brilliancy is produced. What this means in the aggregate to the millions of users of gas in Canada can hardly be estimated. The burner is founded on the Benzen principle—the mantle is by a special chemical treatment converted into a solid sheath, which when heated to incandescence reduces the quantity of the gas consumed. The experiments made in Montreal were so simple and convincing that the manufacturers and others present went away convinced that a new era in gas economy has arrived.

A remarkable feature of this burner is that it is the only burner which can be used with acetylene gas, which with this burner is whitened and diffused so that every corner of a room is brilliantly lighted with a soft, white light.

Mr. Mouvant has also invented an acetylene gas generator which, he states, is free from all objectionable features of other generators and is absolutely non-explosive, under any and all conditions. Antonio Robert, well known as a successful promoter of high-class enterprises, has induced Mr. Mouvant to arrange for the establishment of a manufactory in Canada.
