BLACKSMITHS ARE NOW ORGANIZING

Association Formed Last Night at Representative Meeting.

A meeting of the blacksmiths of Prince Edward Island was held in the O. O. O. Hall last night which resulted in the organization of the "Blacksmiths and Horse Shoers Protective Association of P. E. I."

Although the attendance was not large it was very representative there being delegates from nearly every section of the province.

Mr. Wilson of Toronto, Ontario, was present and gave an excellent address. He said the horse shoe was the emblem of good luck and there was no reason why the horse shoers of P. E. Island need grovel in the dust. The prices of work in Ontario were good and they should be the same here. The Horse Shoers of Ontario had Legislation and no person was allowed to open a shop without a Government certificate.

He had travelled from Vancouver to Montreal and the prices obtained by the Horse Shoers on this Island were the poorest he ever heard of. In any other part of Canada a horse shoer received from $1.50 to $2.00 for shoeing a horse and he stated that they received these prices, right across the Strait in Pictou. The work was not a trade but a profession of hard work and he hoped the horse shoers would organize and draw up a schedule of prices that would give reasonable remuneration for their work.

Mr. Barrett, of Kingston, was Chairman. He said that blacksmithing was not up to the standard of other industries. The prices obtained were too low. Getting better wages would not only benefit them but it would benefit the Island and its trade. It would be one of the greatest possible inducements to keep young men at home. It is now almost impossible to get an apprentice as they go away to other places and secured more pay. He showed where the returns from farm labor had increased almost 100 per cent. in the last ten years, whereas the rates for horse shoeing were still the same.

Other speakers all agreed that the prices obtained were altogether too low and one speaker was just about ready to give up the business if the prices did not improve.

Mr. Day, Wellington, said that the prices had been raised in his section, first by a few and now a good number have taken up the new schedule and they all do as much business as ever.

On motion the organization was effected and the following officers were elected:—Hon. President—Mr. David Arbing, Charlottetown; Pres.—Reuben S. Barrett, Kingston; Sec.—J. A. Henderson, Charlottetown; Board of Directors—Messrs. Thos. McNeill, Tryon D. J. Campbell, DeSable, Hon. Jas. A McNeill, Summerside; R. S. Day, Wellington; Thomas Cobb, Crapaud; Neil McPherson, Newtown Cross; D. J. McDonald, Vernon River; William Carver, Vernon; Neil McFadyen, Canoe Cove; Daniel McDonald, North Wiltshire; G. T. Doyle, St. Peter's; C. McKenna, Kelly's Cross; G. Gallant, Oyster Bed Bridge; William McCall, Freetown; R. G. Acorn, E. Gallant and M. McKenzie of Charlottetown; Mr. Brehaut, Montague; Mr. Duff, Mt. Stewart, and Mr. Nelson, Hampton.

NAVY AND CLOSURE IN PARLIAMENT

Both Sides Preparing for the Final Struggle. Opposition Will Fight Closure. Hon. T. W. White Makes Telling Speech.

(Special to the Guardian)

OTTAWA, April 8—Parliament has talked navy today in the House and closure out of it.

The Prime Minister's notice has been all day under anxious scrutiny by the best parliamentarians in the Liberal ranks. Every agreement that can be conjured up against it, every precedent that can be twisted into support for the Liberal attitude has been diligently scared out for use in the debate upon the Borden resolution.

The Opposition will fight the closure with every weapon that the rules will permit and where the rules are not wide enough the blockers are prepared to break them. The Opposition hoped for and expected a form of closure much more elastic than that proposed. They wanted and expected a chance to talk about gag and the right of British free speech. They were disappointed because there is no gag and because the right of British free speech is being amply preserved.

Liberals who want obstruction stopped, and they are many, secretly welcome the closure. Even the irreconcilables recognize in it a means of saving them from themselves.

Premier Borden will move the resolution tomorrow unless prevented by a slight indisposition from which he is suffering.

The House today discussed the Naval Bill for the last time under the old rules.

One admirable speech was made by Hon. W. T. White in which he reviewed the speeches of various Liberals. His criticism angered the Opposition and they interrupted him. Dr. Clarke and Mr. F. B. Carvell followed and the House adjourned at 10.10.

Hon. Robert Rogers announced that the closure resolution will be taken up tomorrow.

FISH AND GAME ASSOCIATION MEETS

The Prince Edward Island Fish and Game Association held one of the largest meetings in its history in the City Court Room, Charlottetown, last night.

The President submitted a financial report from the Secretary which was adopted. A letter was read from Mr. Carbonell in which he stated that owing to his continued illness he wished to resign the position of Secretary of the Association. The resignation was accepted and a hearty and unanimous vote of thanks tendered him for his faithful services in the past. Mr. J. A. MacMillan was appointed Secretary-Treasurer of the Association.

Considerable discussion took place regarding the putting of game in cold storage during the close season. A resolution was moved by Mr. W.F. Tidmarsh and seconded by Hon. Geo. E. Hughes and passed, that the association petition the Legislature requesting them to amend the game act, so as to make it illegal for parties to have game in their possession during the close season, and asking the Government to prohibit the discharging of firearms from motor boats in the harbours and rivers of Prince Edward Island. Messrs G. Gaudet and K. J. Martin were appointed a committee to frame an amendment to be submitted to the Legislature by a delegation from the association.

TO ABOLISH FISH DUTY

BOSTON, April 6—Free fish from the provinces threatens Gloucester, according to a telegram received from Congressman Gardner at Washington. Mr. Gardner says that the Democrats have decided to put fish on the free list, and Gloucester interests state that such action will spell ruin for them.

A feeling against free fish has always prevaded Gloucester, and the announcement met with the strong disapproval of hundreds of the fishermen.

According to the telegram, all green fish, fish dried, smoked, pickled, fresh or in any state of preservation, upon which a duty of three-quarters of a cent a pound is now being paid will be admitted free.

Skinned and boned fish, which now has a duty on one and one-quarter cents, will be cut in the new tariff to one-half cent duty per pound.

MEDICAL CARE FOR SUFFRAGETTE

Miss Zelie Emerson Taken to Nursing Home—Mother Anxious.

(Canadian Press)

LONDON, April 8—Miss Zelie Emerson, the suffragette of Jackson, Mich, was released from Holloway jail tonight.

She was taken by her mother to a nursing home for medical treatment.

Mrs. Emerson feels grave anxiety for her daughter's condition and will not permit her to see anyone.

Certain of the more militant friends of Miss Emerson, including a number of Americans who were displeased at Miss Emerson's abandoning the campaign to force intervention by the American embassy, planned to take away the daughter without themother's knowledge, in an automobile so that they might get an interview without the mother's moderating influence.

The Militants placed a relay of pickets to watch Miss Emerson's relatives but they were forestalled by the unexpectedly early release the Home Secretary having announced she would be set at liberty tomorrow.

Mrs. Emerson having been informed of her daughter's release through the American embassy, was on hand at the appointed time. She immediately took her daughter to a hospital.

AERIAL ATTACK PROTECTION

LONDON, April 6.—The London Standard says that by a jealously guarded secret invention, the British Navy may, it is claimed, be protected from an aerial attack. The inventor, Arthur Jenkins, an Englishman, and managing director of the Dakota, Kansas and Gulf Railway, told the Standard reporter that he believes the discovery will banish the fear of aircraft dropping bombs on a warship. He has been in communication with Winston Spencer Churchill on the subject. The Admiralty experts tested the invention and he alleges were convinced of its epoch marking qualities. Mr. Jenkins said he was not approached on the subject from the viewpoint of financial gain. He was an Englishman all through and the invention was for British ships only.

The other Powers are anxious to get the secret. Secret service men on behalf of the Russian and German Governments approached him once, asking him to name his own price.

MONTENEGRO WILL STAY IN SCUTARI

Until Driven Out by Brute Force Says King Nicholas. Declares Cause Just Before God and Man.

(Canadian Press)

BERLIN, April 8,—King Nicholas of Montenegro, answering a telegram to-day said, "We hold the profound conviction that our cause is just before God and man. Scutar was the ancient seat of our kings; it is indispensable to our national and economic development. Only the brute force of numbers can compel us to give up this city."

SERIOUS TURN IN POPE'S HEALTH

(Canadian Press)

ROME, April 8.—Pope Pius has had a serious relapse. The physicians in attendance have announced a serious condition. He is in a graver condition now than before. He is suffering intensely.

TUNNEL THROUGH KICKING HORSE PASS

WINNIPEG, Man., April 6.—The Canadian Pacific Railway will spend fourteen million dollars on a tunnel through Kicking Horse Pass of the Rocky Mountains so it is stated positively this morning. The tunnel will take seven years in building, being sixteen miles long, four miles longer than the Simplon Tunnel through the Alps.

MANITOBA FLOODS

NECHE, April 6—The Pembena river has overflown its banks here and is doing serious damage. The water has risen over 12 feet in 24 hours. Fifteen miles north of here the Altoona and Rosenfield districts are one vast lake. The water from the Turtle Mountains must yet find its way into the Red River of the north and great damage is feared. Many country roads in Southern Manitoba have been washed out and railroad trains on all lines have been delayed.

NEW SYSTEM OF WIRELESS SIGNALS

LONDON, April 6—A system of transmitting wireless signals from a ship in distress, invented by Raymond Phillips, was demonstrated in London today.

The ship in distress sends out a signal consisting of a continuous train of waves as distinct from the intermittent Morse code. This signal causes contracts to be made automatically on the receiving ship, which works an electrical sireen or bell and thus draws the attention of the operator. Should the receiving apparatus be engaged, the continuous train will cut out the Morse signals.

This system is intended to be operative within a radius of twenty or thirty miles, but it has not yet been applied to actual service at sea.

QUELL UPRISING IN MEXICAN PRISON

MEXICO CITY, April 6.—An uprising occurred to-day in the Puebla penitentiary among a number of political prisoners who had been arrested last night following the discovery of a plot against the Huerta government. The prisoners, led by a brother of General Gabriel Hernandez who was murdered in the Mexico City penitentiary by Enrique Zepeda, at tempted to overpower the guards, but were shot down. Many of them were killed.

TWENTY PERISH AS BARK CAPSIZED.

BAY CITY, Oregon, April 6. — Twenty-two men, including the ship's captain, the president of a wrecking company of Portland and the representatives of the marine underwriters, were trapt in the hold of the German ship Mimi, which capsized off the beach here early today, after having hauled off a reef on which she had been fast two months. How many perished is not known. Figures were seen on the bottom of the wreck at dark. It was supposed they had cut their way out. A heavy sea was pounding the wreck and life savers refused to attempt a rescue until it calmed. They said no boat could be launched and refused to let volunteers take their boat.

BOY OF 4 AND GIRL OF 3 ARE ELOPERS.

CHICAGO, April 5—He was a boy four years old and she was only three and so—

Sergeant Volt slowly unlimbered himself from his stool and craned his body half way over the desk of the Oak Park police station. Thus posed he was able to look down upon the upturned faces of the station's two visitors.

"I wanta be married," Davis Enderson piped upward, "an' she wants to be married too."

The tiny would-be bride hung her head modestly.

"Uh, hub," she whispered at the floor, "please."

"She's Mil-der Guterson," Davis explained, "an" if you'll hurry up, 'cause we've got ten child-rens an'—oh, yes, an' a piece of ginger cake an' a cup an' saucer."

Awed by such a remarkable preparation for wedded bliss, Sergeant Volt only could grasp out a single word, "Why?"

"'Cause she ast me to," the would-be bridegroom said with candor, and the little girl admitted it.

For twenty delightful moments Sergeant Volt listened to the philosophy of how to be happy though married.

"An' we'll have a nice house all painted up pret-ty," the happy bridegroom-to-be confided, "an' a baby that goes "squeek-squeek when y' squeeze 'is tummy."

Miss Mildred interrupted with, "An'—an' jes' lots of pretty mud pies."

The last bit of the planning was done by the would-be-bridegroom. He fondly called the sergeant's attention to the fact that in his household there would be no face washing any more.

"Or not b'hin' the ears, anyway," he was declaring positively, when George Guterson, stern parent of the would-be-bride, rushed into the station.

And thus the short honeymoon came to its warning. At the gate of her home, No 941 North Park Avenue, Miss Guterson raised her tiny lips and kissed her almost-husband a fond farewell.

RIOTING STRIKERS CAUSE BLOODSHED

Two Women Badly Burned—Young Boy Shot Perhaps Fatally.

(Canadian Press)

BUFFALO, April 8—Riots and bloodshed followed an attempt of the International Railway Company to run cars with strike breakers replacing motor men and conductors who had been on strike since Sunday.

Francis Murphy, a 13 year old boy, was shot in the hip and probably fatally wounded in the exchange of shots fired during the melee in which strike breakers, police and a mob of several hundred took part.

Two women were badly burned when the mob tore down an overhead trolly wire. In the down town sections incidents of stone throwing were numerous. Cars were stalled in all parts of the city when the mobs put the crews to flight.

A POLICE SENSATION

ST. JOHN, April 6.—Firebugs who have destroyed tnousands of dollars worth of property here during the last two weeks, added another to the series of crimes on Saturday night by burning down a barn in Pond Street, destroying horses valued at $300, several sets of harness, wagons, etc., all valued at nearly $1,000.

That night several other outbreaks took place in that vicinity almost under the eyes of the police and hundreds of pedestrians, and almost in the glare of the dietric light. The people who own large warehouses and stores there are terrified, and complaints have been made to the City Commissioners.

On Saturday it was decided to have a public investigation into the affairs of the Police Department, and it is said that evidence of the gravest character will be brought out, involving a dozen heads of the force, and nearly a score of the patrolmen.

WILL TOSS FLOWERS WHERE TITANIC WENT DOWN.

NEW YORK, April 5—Flowers will be tossed upon the waters where the Titanic went down by three women widowed by the disaster. This tribute will be paid at 2.15 o'clock on the morning of April 15, the anniversary of the foundering of the ship, by Mrs. Jacques Futrelli, Mrs. Henry B. Harris and Mrs. George Thorne. The three women plan to sail for Europe from Boston, April 13th.

When the ship passes the approximate position where the liner dived head-first to the bottom, they will sing "Nearer My God to Thee," the Titanic dirge, as their flowers fall upon the waves. Several other women survivors may join the pilrimage.

BIG TELEPHONE STRIKE IS THREATENED.

BOSTON, April 5—A strike of the 2,200 telephone operators and electrical workers connected with the New England Telephone and Telegraph Company's metropolitan system is threatened. Members of the Boston telephone operators union voted last night, without a dissenting voice, to break off all negotiations with the company in connection with demands for increased wages and a readjustment of hours.

A vote on the question of striking was ordered to be taken next Monday. Previous votes on the matter have been almost unanimously in favor. The operators' union officials say that should the girls decide to stop answering calls and connecting subscribers, they would be joined by the linemen, cable splicers, installers and other electrical workers in the district. Such a strike would tie up 552 exchanges in this city and suburbs within ten miles.

"Should it be necessasy, every telephone operator and electrical worker in New England, and there are several thousand of them, will be called on strike," said G. M. Bugnaziel, of New York, vice-president of the International Brotherhood of Electrical Workers.

WANT MARRIAGE SERVICE CHANGED

LONDON, April 7.—The spiritual military league for women's rights, with which Lady Aberdeen, Flora Annie Steel, the novelist, and other prominent women are identified, today issued a manifesto demanding that the government introduce a bill removing the "humiliations" in the marriage service of the Anglican church. It specifies fifteen so-called moral indignities to women, "in the subtle giving of precedence and prominence to the bridegroom" being the essence of all the complaints. Indignity number one is, of course, the word "obey." This, the manifesto declares, must be deleted or balanced by an equivalent to "obey" on the part of the man. The manifesto says: "It is a humiliating survival that the woman alone is given with all my worldly goods I thee endow."

This is denounced, because it is never true, and the government is asked to drop the ring ceremony and the formula or compel an exchange of rings and the promise from the bridegroom, "I will tell no economic falsehoods or give any moral offense."

"The seventh incitement to spiritual arogance and tyranny," the manifesto says, "is the minister's pronouncement of the pair as man and wife, the implication that the woman is wholly the wife and the man not wholly the husband. The petition that a man shall love his wife as Christ did the Church is declared to be "an appalling humiliation to the woman and a pernicious exaltation of the man." The manifesto quotes St. Paul's words: "Wives submit yourselves to your husbands," and says this is another indignity which must be counteracted by the addition of "and husbands submit yourselves to your wives."

REV. JAMES STROTHARD FOR N. S. CONFERENCE

FREDERICTON, April 5—Rev. Neil McLaughlin, president of the New Brunswick and Prince Edward Island Methodist Conference, will leave on Monday evening for Toronto to attend a meeting of the Transfer Committee of the General Conference of Canada.

The transfers in which the local Conference is involved include the following: Rev. Charles R. Flanders, of Sussex; into the London, Ont., Conference; Rev. James Strothard, of Summerside, P. E. I., into the Nova Scotia Conference; Rev. J. L. Batty, of Moncton, into the Manitoba Conference. Rev. Harry A. Goodwin, of Souris, Manitoba, has applied for transfer into the New Brunswick and P. E. I. Conference to take charge of the Central Methodist church, Moncton; and Rev. W. H. Barraclough, of London, Ont., Conference, o, the Cntral Methodist church, has applied for transfer, to take charge of Centenary church, St. John.

MEALS COST $2.50 A WEEK.

MADISON, Wis., April 6—Four adults leading fairly active lives can be supplied well-balanced meals at a cost of $2.50 a week each. This is the conclusion of those in charge of the "practice cottage" of the University of Wisconsin home economics department, where young women are taught practical home-making.

Four young women take entire charge of the preparation of meals at the cottage each week. The girls not only do all the cooking and serving, but also all the marketing and planning of the various meals.

A sample menu for one day shows that at such cost the girls are able to serve bacon, oranges, poached eggs toast and coffee for breakfast; cream of tomato soup, spaghetti with onion sauce, hot rolls, baked apples and chocolate for luncheon; and bouillon, beef pot roast, browned potatoes, fruit salad, fresh cake with whipped cream and coffee for dinner.

Minard's Liniment Cures Distemper.

PROVINCIAL ESTIMATES FOR 1913

The following are the estimates of expenditure for the ensuing year:

Administration of Justice.	$ 23,675.00
Board of Health	1,100.00

Total Expenditure	$500,361.50
Last Year's Expenditure	594,374.63
Estimated Reduction	$94,013.13

AUSTRALIAN MINERS ON STRIKE ENDANGER TRAFFIC

SYDNEY, Australia, April 6— The industrial problem in New South Wales is causing grave concern, the strike of coal miners in the Illawarra and south coast districts being unsettled. The situation is becoming seriously complicated moreover since the New Castle miners are showing great discontent. Should a strike be declared, commerce thru shipping would be considerably hampered and perhaps demoralized owing to the fact that all big ocean liners plying between the east coast of Australia and other parts of the world depend upon New Castle for their coal supply.

At Broken Hill, the great silver mining center, the strike declared a week ago continues. Transportation has ceased and the city is isolated. High prices in food commodities now rule and a serious situation exists.

STREET CAR MEN STRIKE ON LINE FROM BUFFALO.

BUFFALO, April 6—A strike was declared today on the lines of the Intercolonial railway company, which operates the street car service in Buffalo, Niagara Falls, Lockport and several smaller nearby towns. Eighty per cent of the motormen and conductors struck. The men demand an increase in wages of from five to seven cents an hour, a re-arrangement of working hours and recognition of their union.

Several disorderly scenes marked the opening of the strike and tonight President Connette, of the International, served notice on the sheriff, calling upon him to take all lawful measures to protect the property of the company. Application was made to Justice Pooley, of the supreme court for an injunction retaining the men from acts of violence and steps were taken to make a demand for troops if the situation warrants such a move.

Minard's Liniment Relieves Neuralgia

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC

One cent per word each insertion in this column. Cash must accompany order. Minimum charge twenty-five cents.

The regular monthly meeting of the W. M. A. S. of the Hazelbrook Baptist Church will be held at the parsonage, Hazelbrook on Thursday afternoon of this week at 2 o'clock. The annual business meeting of the Hazelbrook Church will be held at the same place at three o'clock.
