According to the correspondent articles six and eight will be virtually expunged and re-stated in a form confirming to Japan her Liao-Tung Peninsular lease, allowing both signatories greater military freedom in their respective spheres, precluding neutral nations engaging in Manchurian development and sanctioning the building of a new strategic railway, Japan, says the correspondent, will have confirmed all of her territory south of parallel 44, east longitude 116, giving and enabling her to dominate Peking, while Russia will have complete liberty of action in all of the Chinese territory to the exterior of the great wall west of the Japanese zone.

In the placing of refuse boxes on the different street corners in Charlottetown a long felt want, in keeping the city clean, has been supplied and those responsible for the improvement are deserving of much praise. At the closing of the store of S. A. McDonald, merchant, Charlottetown, on Saturday evening, the employees gathered together and presented Miss Mary McPherson with a fountain pen and an address as a token of their esteem. The Guardian was, on Saturday, shown a botanical curiosity, in the shape of a new flower, produced by a Charlottetown gardener. The plant was part rose and part sweet pea and was produced by grafting a sweet pea stalk on a rose bush. The grafting was done last spring and the new plant bloomed a few days ago. The blooms are largely rose but possess the characteristics shape of the sweet pea while the leaves are alternately rose and sweet pea. The newly created rosebud is a veritable curiosity and shows the possibility of skillful grafting.

TURKS ARE IN DIFFICULTIES. CONSTANTIENOPLE, July 19.—The grave nature of the government's difficulties is revealed in a proclamation of the sultan to the army which was read to the garrison here today. Addressing the army, the sultan, after referring to the appointment of Tewfik Pasha as grand vizier, the proclamation reminds the troops of their oath of loyalty and referring to demands made by certain officers as contrary to the constitution and supreme rights of the Khalifate, exhorts the army not to mix in politics but to devote itself exclusively to the defence of the country.

At a meeting of the Directors of the Prince Edward Island Dairy Association, held in the Secretary's office on Friday, the Directors present, Messrs. Dewar, Noonan, McDonald and Simpson, dealt among other matters, with a report from Mr. Morrow, the Dairy Instructor, on there being yet a considerable amount of bad milk coming in during the hot weather and that bad milk-cans were also causing some inferior cheese being made. In view of the price of cheese being extremely high and the make somewhat small, all interested should see that no losses should arise from the causes named. There is no excuse for offering off, flavored milk. The rules are simple and if followed losses can easily be avoided.

MAY STEROGATE FISHERY CLAUSE.

OTTAWA, July 19.—It is understood that the Department of Marine and Fisheries has under consideration the question of the abrogation of the Fisheries modus vivendi in existence between Canada and the United States, under which American vessels for the payment of a fee allowed certain privileges in coast waters. At one time the free admission of Canadian fish was a part of the agreement American vessels cannot fish within the three mile limit, but on payment of a license fee they can enter ports, secure scows, transit their catch. As Canada does not receive any real compensation for the giving of all these privileges, it is quite probable that the agreement may be abrogated.

Almost every day The Guardian receives orders to insert news matter of an advertising nature. In most of these cases the senders, who are frequently not known to any member of the staff and who have no account in the advertising department, write "Please insert the following and oblige," thus apparently implying that they think the items will be inserted free. Only a few weeks ago a reader wrote asking that his advertisement of Farm for Sale be inserted free from day to day until he cancelled it, as he is a subscriber to The Guardian. In this connection it may be said that the subscription price is not sufficient to even pay the actual cost of paper, ink, presswork, mailing, bookkeeping and other expenses of the Circulation department proper and thus subscribers have no privileges of free advertising and are on the same footing as non subscribers. Seldom ever does the sender state whether the item is to appear in the Morning Daily or the Rural Daily, whether for one or more times in either Daily, or in both, whether as a display advertisement, announcement, business local, classified ad or otherwise. When for church or charitable purposes they seldom ever say so, or do not enclose sufficient money to pay for same all of which will be returned by first mail in the event of the item not being chargeable, or if more money is sent than necessary to pay for the item the surplus will be returned at once, there being a greater discount for cash with order for advertising of churches & than for regular business. In all such cases the Advertising department communicates with the sender as quickly as possible by mail or phone, often paying the messenger service to get them to the telephone if not too far distant, thus saving all possible time. People write this office to know if News, Letters to Editor, etc., are charged for, and to all such there is but one reply—all items etc., of a money making nature, even though they be somewhat of a news nature, are chargeable. For instance, the advance notice or notices of a concert, lecture, pie social, picnic, etc., are chargeable if an admission fee, silver collection, sale of pies or sale of food or refreshments, etc. Advance notices of purely religious services, even of a silver collection is to be taken up, are not chargeable. The particulars of any of the above, after they have been held, are, however, news and thus not chargeable. The news of any past, present or future business, which is still being conducted, is chargeable, if it is important that the object is to make the business more widely known and thus increase it. Verbose accompanying death notices are also chargeable. Even items which are actual news and not chargeable but once in either Morning Daily or Rural Daily for more than once are chargeable for more than one insertion, as they are thus not news.

The above facts are given for the purpose of assisting persons who have items, etc., to mail to this office, so that delay and disappointment will be avoided.

The purchase of a piano is, in most homes, an event of a life time. The utmost care should therefore be used to select the right kind of instrument. The case of a "commercial" piano may be artistically modelled and beautifully finished, and if one bought a piano merely for its worth as a piece of furniture, judgment might well be based on excellence that appeals to the eye alone. But a piano should be more than an ornament in the home. A PIANO OF QUALITY is not merely so much wood and metal, but a thing of life—an instrument with soul. A PIANO OF QUALITY readily responds to the player's touch, thought and mood, making it possible to interpret the works of the great masters in all their sublimity, splendor, strength, brilliancy or delicacy. A Piano of Quality can be swayed by the will and skill of the Player—it will produce the delicate shadings of expression, the exquisite minor beauties of tone, which are priceless to the true lover of music. Be careful when you select your piano, apply this test, and you will have a piano that will give a life long satisfaction and will be a pride and pleasure to your entire family as well as your circle of friends. It is surprising the large number of people in Charlottetown who, when they want to inquire about their Morning Daily Guardian or subscription, ask Central for the News Phone No. 133, or for the Advertising Phone No. 132-3, instead of 142; or when they want to inquire about advertising ask Central for the Subscription Phone No. 132-3, or for the News Phone No. 133, instead of 133-3, or when they want the News or Editor's Department ask Central for the Subscription Phone No. 132-3, or for the Advertising Phone No. 132-3, instead of 133, although all those departments and their respective phone numbers are plainly given in the telephone book. Some people, instead of looking at the book, even phone our union suits priced at \$1 a suit of the above departments to find out. Brown's, 158 Queen St. 7-22M31
