FUNERAL SERVICES - The funeral of Mrs. Claude T. Kenny was held on Tuesday afternoon from her home on Harvard Street, Summerside, to the People's Cemetery. Rev. L. B. Campbell conducted the service, which was very largely attended. The pall bearers were Messrs. Archie Sharp, W. J. Lidstone, Charles Ramsay, Willard Muttart, A. S. McKay and Joseph Hickey.-S.

AUGUST SITTING OF COUNTY COURT - The August sitting of the County Court at Summerside opens on Friday at 11 o'clock. His Honour, Judge Inman presiding. Over ninety summonses have been issued and in about two-thirds of the cases, judgment has been obtained by default and the balance will probably go to trial, which means that there will be about 20 to 30 cases before the Court.-S.

MRS. MARY J. WARREN - Many friends in Moncton will regret to learn of the passing away of Mrs. Mary J. Warren, at Boston, on August 2, at the home of her daughter, Mrs. E. Fish, with whom she made her home. The body was taken to her former home in Halifax, P. E. I., on August 5 for burial, accompanied by her grandson, Ingram Fish. Mrs. Warren, who had reached the age of ninety-six years, was well known in Moncton, where she frequently had visited relatives and friends.-Moncton Transcript.

LOBSTER SEASON OPENS - At midnight on Monday, the lobster season on the South Shore opened and the fishermen started out with their traps. The lovely moonlight night was ideal for their task. Some waited until dawn, but the most of the fishermen got underway shortly after midnight. The lobster factories have opened up in preparation for the first catch. It is said there are twice as many boats out this year than heretofore. There are about 30 boats at Borden, 25 at Cape Traverse, 9 at Chelton and 30 at Victoria. These are mostly local fishermen, but there are a great many from Canso and Antigonish. Fifteen boats were lying ready in Summerside harbour. Along the coast from Fifteen Point and Egmont Bay to West Point there are over two hundred boats. The fishermen are looking forward to a good season.-S.

Powerful Medicine - The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can testify as to its power in allaying pain, and many more can testify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Farm Notes

A DELIGHT OF SUMMER - Few people realize that new potatoes, in addition to being the most delightful of the mid summer vegetables, are also among the most nutritious, providing more energy, pound for pound.

There is an added value from a health standpoint in that new potatoes are usually cooked without paring. As most housewives know, all that is necessary before boiling is to wash them and remove the thin outer skins by rubbing or brushing. This leaves the inner skin intact, which ensures the retention of all the valuable mineral salts during the cooking process. The importance of these alkaline salts should not be overlooked.

Lowest Interest

The Premier pointed out, must be considered: The difference between the 6 per cent as against 5 1-2 per cent issue meant a direct saving of \$49,500, being additional proceeds derived from the sale. Thus the bank overdraft was reduced by the amount of \$49,500, which amount over a period of 15 years at 5 1-2 per cent. interest compounded annually for mathematical purposes, but actually compounded quarterly by the Bank, amounts to \$110,507.57. It is, however, recognized that the increase in interest rate of 1-2 of 1 per cent over a period of 15 years amounts to \$5,000, per annum, or in all the sum of \$75,000, which together with interest at 5 1-2 per cent. totals \$112,042.59. Thus the entire transaction results in an apparent loss of \$1,535.02 over a period of 15 years on an issue of \$1,000,000. But if the interest is considered as being compounded quarterly rather than annually the apparent loss of \$1,500, is more than accounted for, and the heavy bond discount between the two quotations has been amortized over the period of 15 years and not made a direct heavy burden on the year of issue, as would have been the case if the bonds had been issued at a lower rate of interest. The procedure followed complies fully with sound accounting principles as carried out in provincial and municipal financing.

By way of comparison the Premier cited the following bond issues made during the months of May, June and July, this year, showing clearly that the Provincial issue was obtained at the lowest rate of interest:

Table with columns: Month, Amount, Security, Coupon Rate, Maturity, Net Price, Approximate Yield. Rows for May 1932 issues in Manitoba, Saskatchewan, and P.E.I.

Need Of Economy

The Premier dealt fully with the matter of finance, showing the bankrupt state of the Province when the Liberals went out of power. The unsettled condition of the money markets made the incoming Government very uneasy, as they did not know from hour to hour when they would be asked for money to relieve the enormous overdraft at the bank. Had our Canadian banks found themselves in the same position as many of the banks in the United States the position would have been disastrous.

The Premier, at the opening of his remarks, referred to the tragic circumstance which had necessitated the nomination and spoke very feelingly of his late colleague, Hon. L. M. MacNeill, whose position in the Cabinet would be very hard to fill. The speaker regretted his inability to be present at the first meeting of the convention, which had been postponed for that reason. He congratulated the delegates on such a complete representation on the present occasion and also upon their choice of a candidate.

Mr. Stewart then dealt with the petition placed before him by Mr. Downing, in which the following suggestions, for relief of unemployment during the coming months, were made: the building of a concrete bridge and completion of pavement to the approach to the east end of Summerside, the extension of the pavement east as far as Read's Corner; the improvement of the existing roadway from the golf course to the South Shore Road; the grading and graveling of a mile and a half of highway between Miscouche and Muddy Creek; construction of a quarter of a mile from Miscouche along LeClair's Road; improvement to line road in St. Eleanors.

Work on the concrete bridge would be started next week. The other matters, the Premier said, would be given immediate consideration by the Executive Council.

Nominations

Saturday's convention, at which Mr. Gordon Dawson, Convenor, acted as chairman, was attended by a full quota of delegates from every poll. The nominations for candidates were as follows:

Mr. Thomas M. Linkletter, moved by Joseph Wood, Summerside, seconded by Urban Gillis, Miscouche. Mr. H. M. Downing, moved by Major F. F. May, St. Eleanors, seconded by Philip Arsenault, St. Nicholas.

Mayor Manson and Mr. Neil Durant were appointed scrutineers. On the vote being taken and Mr. Downing being declared elected as candidate for the district, Mr. Linkletter moved that the nomination be made unanimous, which was done amid enthusiastic applause.

After the business of the convention the meeting was thrown open to the public and the hall was crowded to the doors.

Mr. Downing, called upon, expressed his appreciation of the confidence of the convention in honouring him with the nomination. He complimented the Government upon the splendid manner in which it had shouldered its exceptional responsibilities in one of the worst periods of depression in world history, a period which he believed, was giving place to a new era of prosperity.

Mr. Downing also voiced the pleasure of the convention in having present Premier Stewart, and in the fact that the Premier had now been restored to his accustomed health and strength. He then placed before the Premier, on behalf of the electors, the petition referred to above. Mr. Downing explained that as the present depression and lack of employment is keenly felt in urban districts and the people view the coming winter with anxiety, a survey of public works which would relieve the situation had been made, and the petition represented what was considered needed improvements in the Fifth District of Prince.

A vote of thanks to the Premier, moved by Mr. A. S. MacKay, seconded by Major F. F. May and supported by Messrs D. B. MacDonald, H. M. Downing, T. M. Linkletter and J. F. Arnett, was passed unanimously.

The sad news has been recently received by relatives and friends in Charlottetown of the sudden passing to the Great Beyond of George Herbert Squarebriggs on the morning of August 13th, at his home 475 Lexington Street, Waltham, Mass. Although Mr. Squarebriggs had been in failing health for some time due to an auto accident three years ago, yet the end came rather suddenly.

His illness was borne with exemplary Christian fortitude and his life he was always characterized by cheerfulness and gentleness. He had spent the greater part of his life in the United States and was in the employ of the American

And after all, overalls are cheaper to wear in the long run, and some of them are quite natty.

TROWING PAPER A CRIME LONDON, Aug. 16—(By The Canadian Press)—For throwing a newspaper from a moving motor coach into the road, Lily Phillips of London was fined \$2 by the Ashford, Kent, magistrates recently. The summons, under a Kent County Council By-Law, was for depositing the paper in the public highway, "so as to tend injuriously to affect the public amenities of the highway."

The old lifting system found use in a new way when women of Eugene, Oregon, were asked to give one tenth of their home canned food to the unemployed in exchange for work on city improvements. The Women's City Club and the City Federation sponsored the tithing.

English Business Men Ban Scanty Attire For Typists LONDON, Aug. 16— Girl typists and clerks have been overdoing "sensible dress" ideas in the heat wave. Principals of several large business firms in Liverpool have put a stop to several of them. For instance a ban has been placed on: White dresses. Sleeveless dresses (sleeves must be elbow length); Skirts which did not reach at least two inches below the knees; and—Transparent nylons. The alternative laid down was, in most cases, the adoption of a suitable uniform overall. Hiking, tennis parties, and sunbathing on Saturday and Sunday afternoons may be commendable, said the employers, but decorum must be observed in business hours. There is not a little indignation at this dress dictatorship. Girls
