WINNIPEG, Aug. 25.—(CP)—Winnipeg wheat futures established lower seasonal lows and bottom prices since 1933 today before selling petered out and rallying power developed in the nervous trade.

Final quotations in Winnipeg were 5-8-1-8 higher, October 65 1-8, November 65 1-2, December 64 3-8 and May 67 7-8.

Good export buying, increasing sales over the 500,000 bushel mark, counterbalanced spurges of mid-season selling which carried prices down almost two cents.

It was the fourth successive day of price advances in the hour of continued talk of the United States subsidy plan breaking confidence in the market.

Cash wheat prices firmed following yesterday's drastic setback of more than five cents for some grades. Offerings failed to develop in large volume though No. 1 line spread was quoted 1-2 cent better. Other spreads were unchanged.

Coarse grains steaded. Export orders for barley offset hedging pressure which volume in other commodities was light.

CROP REPORT

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches.

Managers have knowledge of each local situation and are in touch with crop conditions in all sections of the districts mentioned.

General

With generally favourable conditions continuing as harvesting proceeds, fulfilment of earlier hopes for good crops of the main staples in every province of the Dominion seems assured. In the Prairie Provinces harvesting is well under way in Saskatchewan and southern Alberta and in Manitoba, where wheat cutting is being completed, threshing returns indicate that yields generally will be fair to good. Rust damage to non-resistant wheat has become more serious in eastern Saskatchewan, causing a further decline in prospective yields. Grasshopper damage has continued in Saskatchewan, and crops in affected areas are being cut early to avoid further loss. Hall damage is heavy at scattered points. In Quebec grain cutting is general with indications of good yields, and fodder corn, roots and tobacco are all doing well. Tomatoes are doing well, but the yield of apples will be light. In Ontario, where frequent rains have delayed harvesting operations during the past week, prospects are satisfactory, and good average yields of all the main crops, with apples somewhat below average. In the Maritime Provinces the fourth successive day of price advances in the hour of continued talk of the United States subsidy plan breaking confidence in the market.

Cash wheat prices firmed following yesterday's drastic setback of more than five cents for some grades. Offerings failed to develop in large volume though No. 1 line spread was quoted 1-2 cent better. Other spreads were unchanged.

Coarse grains steaded. Export orders for barley offset hedging pressure which volume in other commodities was light.

Province of Ontario

Harvesting operations are well advanced. Threshing of fall wheat nears completion, with above average yields of good quality. Cutting of spring grains is practically completed and threshing operations have been satisfactory. A heavy crop of hay of good quality has been stored and pastures have remained in excellent condition throughout the season. Corn and roots continue to make satisfactory progress. Tomatoes are doing well, but the yield of apples will be light. In Ontario, where frequent rains have delayed harvesting operations during the past week, prospects are satisfactory, and good average yields of all the main crops, with apples somewhat below average. In the Maritime Provinces the fourth successive day of price advances in the hour of continued talk of the United States subsidy plan breaking confidence in the market.

Cash wheat prices firmed following yesterday's drastic setback of more than five cents for some grades. Offerings failed to develop in large volume though No. 1 line spread was quoted 1-2 cent better. Other spreads were unchanged.

Coarse grains steaded. Export orders for barley offset hedging pressure which volume in other commodities was light.

Province of British Columbia

Cooler weather with occasional showers has been prevalent throughout the province during the past week. Threshing of grain at interior points is practically completed and harvesting on the lower mainland and Vancouver Island will be general shortly. Yields in all districts will be below average. The second cutting of alfalfa in the interior yielded a good average crop, potatoes are growing well and are generally free from disease. It is now estimated that the onion crop will be moving to market and canneries in volume and are of good quality. All other vegetable and root crops are satisfactory. Harvesting of early peaches has commenced from the Okanagan. Apples are sizing well and recent showers have improved the colour of the fruit. The following tree fruit yields are now indicated: plums and aprunes 95 per cent of average, peaches 80 per cent. Pastures are in poor condition and heavy rains are needed. There is a shortage of irrigation water in some districts, but as the weather moderates the situation is not considered serious.

Province of Quebec Eastern Townships and Ottawa Valley—Cutting of wheat and coarse grains is now general and early threshing results indicate a good yield of high quality. Harvesting of a better than average crop of hay of good quality has been completed under favourable conditions in most districts. Potatoes, corn and root crops have shown rapid growth recently and have a promising appearance. A large crop of canning tomatoes is being ripening fast and a good yield of sweet corn is anticipated. Apples will be a light crop. Tobacco plants are growing well and grass pastures continue in excellent condition. Lower St. Lawrence and Lake St. John District—Grain crops, which promise average and better yields, are ripening fast and in the wheat cutting has commenced. Haying in all but a few isolated sections was completed during the past week and a good crop of average quality is reported. Potatoes, turnips and other root crops are making satisfactory progress. Blueberries and small fruits

Small Losses Sustained On Montreal Mart

MONTREAL, Aug. 25.—(CP)—A light wave of selling broke over the stock market today, washing small fractions from most leaders.

Equipment were the first to weaken. Canadian Car dipped 3-4 point and the preferred 1-4 while National Steel Car eased a half. Constellation came in for their share of losses. Steel of Canada slumped 3-4 point, Dominion Tar 1-2. Gypsum 3-8 and Dominion Bridge 1-4.

Paper and metal issues held up well, quarter-point drops were marked up for Price Brothers and Noranda but St. Lawrence Paper preferred added a half and Nickel

1-8 while the others remained steady.

Among the utilities, Gatineau preferred and Canada Northern Power were unchanged while Montreal Power and Shawinigan drifted slightly lower.

Total sales: 96,800 shares; Industrials 17,300; Mines 79,500; Bonds \$1,750.

Canada Pictured At Toronto Fair

MONTREAL, Aug. 25.—(CP)—Picturesque Canada and the comfort of modern transportation to the numerous beauty spots will be featured in the handsome display prepared by the Canadian National Railway for the exhibition during the period of the coming Canadian National Exhibition at Toronto. In particular, the Columbia Icefield in Jasper National Park will form the subject of a spectacular display in which color and light will play large parts. The opening of the motor road giving direct and comfortable access from Jasper to the Icefield has enabled large numbers of visitors to view the Great Glacier and scenes along that dramatic driveway will be shown at Toronto. The main picture of the Columbia Icefield will be twenty five feet long by nine feet high and will be surrounded by choice close-ups of salient features of the drive and glacier.

There will also be shown a model of Jasper Park Lodge, village, canyons and lakes. This model will also indicate the many activities of Jasper, such as the fine golf course, the temperate open air swimming pool, the trails of the roads and other delights of this rocky mountain resort. The safety of travel by railroad will be stressed by large colored views of the newest types of passenger equipment now in service on the national system, including the fine air-conditioned coaches and other modern air-conditioned equipment in dining cars, sleeping cars and parlor cars which are included in the "International" and "Continental Limited."

Argyle Shore The farmers of Argyle Shore are busily engaged in harvesting the grain which is much superior to last year.

Mrs. A. A. MacDougall, accompanied her daughter, Mrs. Gordon Inman, and Mr. Inman, on their return to Providence, R. I., for an extended visit among relatives and friends.

The Young People of Bonshaw and vicinity enjoyed a very pleasant evening at Argyle Beach on Aug. 19th. After playing games a very sumptuous repast was prepared by the young ladies present after which all returned to their homes.

Miss Minnie Sellar spent the past week in Churchill the guest of her sister, Mrs. Percy MacDonald.

Mr. Andrew MacDougall, Cambridge Mass. accompanied by Mr. and Mrs. Charles MacDougall, Rice Point, were recent visitors to Argyle Shore.

Mrs. Lulu MacPhail and son Douglas, Miss Gemma MacPhail, Mr. John D. Campbell and Mr. John D. MacPhail were recent visitors to York and East Royalty.

Mr. Murchison Sellar has returned home having spent the summer at Meadowbank.

The school is progressing favorably under the capable management of our new teacher, Miss Margaret Crosby.

Use Minard's for burns.

TORONTO, Aug. 25.—(CP)—Losses were in the majority on the Toronto stock exchange today but McIntyre, Hudson Bay, Ford and Noranda bucked the general softening tendency to chalk up new 1938 highs. Utilities were best in the industrial list. Western oils were mostly lower. Transfers of 532,000 shares compared with 400,000 shares of 406,000 while McIntyre pushed up 1-2 to 48 1-4 but closed at 48 1-4 to gain 1-4 on the day. Pickle Crow gained five cents while Pioneer, Brier and Little Long lost that much. Hollinger, selling ex-dividend, was steady along with Dome, Teck, Hushes, Sylvanite and Bralorne. Wright Hargreaves

1-8 while the others remained steady.
