FINE PORTRAIT UNVEILED IN LEG. CHAMBER

Oil Painting Of Sir William MacDonald Presented By Mr. And Mrs. W. M. Stewart.

A magnificent oil portrait of the late Sir William Christopher MacDonald, noted Prince Edward Island born philanthropist, was unveiled in the Legislative Chamber in the Provincial Building yesterday by Hon. B. W. LePage, President of the Executive Council, who formally accepted the picture on behalf of the Government of the Province.

The portrait is the gift of Mr. Walter M. Stewart of the MacDonald Tobacco Company, Montreal, and Mrs. Stewart. It is the work of Mr. Kenneth Forbes, R. C. A., a distinguished Canadian artist.

The unveiling ceremony which took place at 3 p. m., was attended by the members of the Government and others.

In a short address, Premier Campbell said the suggestion had been made some time ago that a portrait of Sir William MacDonald should have permanent place on the walls of the Legislative building, along with those of other distinguished Islanders.

It was hoped that the generous Mr. and Mrs. Stewart would be present at yesterday's ceremony, but they were unable to do so. It is expected, however, that they will visit the Province informally in the near future.

The Premier referred to the many benefactions of Sir William MacDonald, who was born at Glendale, Prince Edward Island in 1831.

Sir William was a son of the Hon. Donald MacDonald, president of the Legislative Council of Prince Edward Island, and Ann Matilda Brecken. He was educated at the Central Academy, Charlottetown, and in 1854 began business as a commission merchant in Montreal. He later became a tobacco manufacturer, and acquired a very large fortune. He was a general benefactor of McGill University and the Ontario Agricultural College at Guelph. He founded and endowed the MacDonald Agricultural College at St. Anne de Bellevue, Quebec. For many years he was Chancellor of McGill University. He died, unmarried, at Montreal on June 9, 1917.

Sir William will be remembered in this Province as the founder of the MacDonald Consolidated School and the donor of the wing to the old Prince of Wales College which housed the model school and assembly hall. He also financed the establishment and maintenance for three years of manual training in Charlottetown and Summerside.

The portrait by Mr. Forbes is said to bear a remarkable resemblance to the original. It hangs on the wall facing the Speaker's chair in the Legislative Chamber, to the right of the door as one enters.

Turmoil In U. S. Labor Ranks Foreseen
 (By Scott Hershey, Associated Press Staff Writer)
 NEW YORK, Oct. 11—A period of "long-range hell" in the United States labor movement, beset by turmoil, strife and personal quarrels, was foreseen today by Benjamin Stolberg, for almost 20 years a reporter and worker of the labor scene and author of a book, "The Story of the Committee for Industrial Organization."

Stolberg contends John L. Lewis, chairman of the C. I. O., does not want peace. He believes that while William Green, president of the American Federation of Labor, "more or less wants peace," he is surrounded by leaders of big A. F. L. unions who do not want it.

WARTS ON THE SOLE OF THE FOOT ARE CAUSED BY A TINY ORGANISM
 We are hearing and reading much about ringworm of the feet (athlete's foot) and of the measures taken to prevent it in the gymnasium, swimming pool and shower baths. It is believed due to a fungus or tiny parasite.

Another ailment long unsuspected of being due to an organism is the little wart or warts that occur on the sole of the foot and heel—plantar warts.

Dr. R. M. M. MacKenna in the British Medical Journal tells us that there is little doubt that plantar warts are caused by an organism so small that it passes through the filter used to strain out organisms. This tiny organism gets into a small abrasion or scratch that cannot be seen by the naked eye.

"When plantar warts reach an average size they interfere with the activities of the person affected owing to the pain caused by pressure on the warts whenever he attempts to walk or run. The warts develop without person's knowledge the first sign being a tiny flat wart on the heel or ball of the foot but may appear on any part of the surface of the sole of the foot. It is considered that when it is about one-fifth of an inch across. It is a roughened very hard piece of tissue greyish yellow in color. It is only when it is pressed that a knife that its wart-like structure can be discovered."

The difference between a plantar wart and a callous is that there is little or no pain when a callous is pressed whereas when a plantar wart is pressed the pain is quite severe.

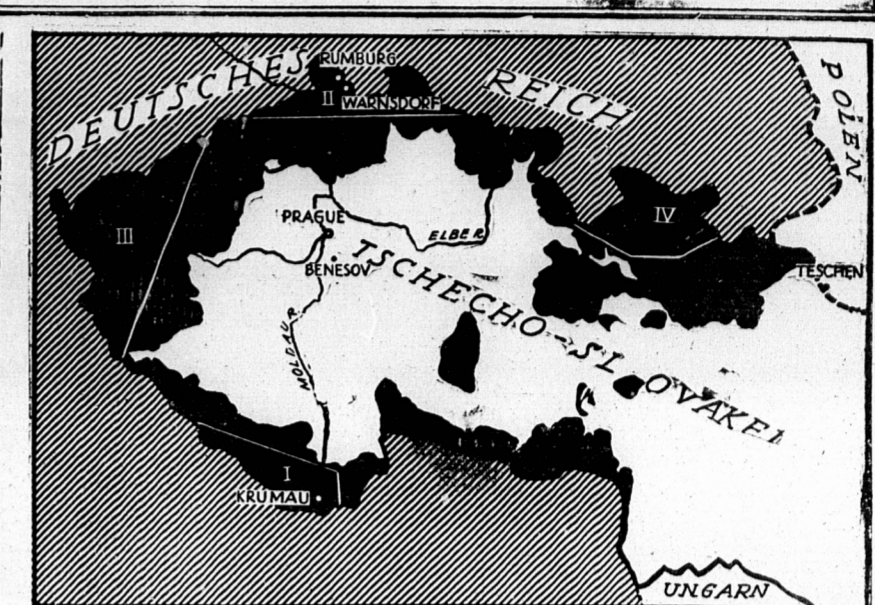

The first thought about plantar warts as the ringworm of the feet is prevention. Those suffering with plantar warts should not use the bathrooms or pool used by others. The infected person must tread with bare feet where an unaffected person will step.

Benes Asked To Run For Rectorship
 (A. P. by Guardian's Special Wire)
 GLASGOW, Oct. 11—Eduard Benes, Czechoslovak statesman who resigned as president of his country last week, has been invited to be the Scottish national candidate for the honorary rectorship of Glasgow University, but he has not accepted.

The Czechoslovak legation in London denied an earlier announcement here that Dr. Benes has agreed to be a candidate, stating he had "not even considered the invitation yet."

William Powell, Scottish journalist and author, had told a meeting of 500 university students that Dr. Benes had accepted. The rectorship is an honorarium, carries no salary, and entails no residential duties. Scottish university rectorships have been held in some years by distinguished foreign statesmen.

At present there are three candidates for the post: Sir Archibald Sinclair, leader of the Liberal opposition in the House of Commons; Sir Henry Lum, vice president of the League of Nations Union; and Laurence Housman, author and pacifist.

Czech newspapers published this map as the official version of land to be occupied in Czechoslovakia. The German names are so originally published after the map was redrawn from a radiophone. Districts are numbered as they will be occupied progressively. That number III is the one where Hitler made his entry Oct. 3. Plebiscites are to be arranged in the remaining dark areas.

W.M.S. Meeting At Kensington

The regular meeting of the W. M. S. of the United Church was held in the Y. P. Room on Thursday evening, Oct. 8th, with a large number present. Mrs. W. Cotton, the President, occupied the chair, taking the lead in a service holding in memory of the celebration of the Honan Mission Jubilee. Owing to the war in China it is impossible to have a jubilee celebration in Honan itself, but the war has not destroyed nor stopped the Christian work which began there so many years ago.

Fifty years ago, missionary work in Honan, China, began as a tiny stream. It has grown through the years, in the face of almost insurmountable difficulties, until now it is like a mighty river carrying the water of life to waiting, needy people. Eight million people of the province of Honan are being enriched through various channels, hospitals, schools, rural reconstruction work, child welfare clinics, Christian homes and best channels of all, through individual Christian lives. The scripture reading in part was, "In the wilderness shall waters break forth and streams in the desert. There is a river the streams whereof shall make glad the city of God. And He showed me a pure river of the water of life. And let him that is athirst come and whosoever will, let him take of the water of life freely. Everything shall live whither the river cometh."

After singing "Where Cross the Crowded Ways of Life," a brief historical sketch and a presentation of the phases of work carried on at the present time in Honan were given by Mrs. Ramsay, Mrs. MacKenzie and Mrs. Simpson.

Concluding, Mrs. Cotton made a stirring appeal to all members of the society to do their share. "Sacrifice" is the keynote of the lives of the missionaries in Honan today, as was stupendous sacrifice the portion of the great souls who made an entrance there at the beginning, but whose courage and faith was of the kind that could move mountains. Shall we be weaker than they? The Chinese Christians are not weaklings, shall we, in this favored land, away from all the strife and horror of war—be less than they?

The consecration hymn "Lord, in the strength of grace" was sung, then the meeting was open for business.

Worthy of special note, Mrs. Inglis from the Mission Band reported their allocation raised, also plans are maturing for a Thanksgiving special service on the 14th. At this meeting fruit and vegetables are to be brought in, later to be sent to P. C. Hospital, thus implanting in the minds of

S'ide High Preparing For Rugby Season

For the past two weeks football players of the Summerside High School and Academy have been out practicing and are rounding into shape rapidly. Although several players have been lost through graduation, Coach Lidstone expects an even stronger team than last year to take the field when the opening whistle is sounded.

Many newcomers are out this year trying to catch a berth with the western team and it wouldn't surprise this corner a bit if there is a lot of new faces to take the field for their opening game against their ancient rivals, W. K. S. Lou Campbell who has coached many a team from the capital can always be depended on to field a strong team which is hard to beat.

Members of the Academy team of last year who will again help to carry the colours of the western city are: "Hum" Hogan, Hume Ellis, Murray Willett, Edward Gallant, Art Wright, Tanton McNeill, Bill Woods and Freddie MacDuff. This year's team has lots of confidence and expect to turn the tables on their rivals from the capital.

The first game of the season will likely take place on Friday of this week when West Kent play hosts to Summerside High. It should be a battle along the way and teams are expected to start where they left off last year when West Kent defeated the western team 3-0. The points having been made on a penalty kick. It might be a good suggestion to start a league between P. W. O. second team, Queen Square School, West Kent and Summerside High. This would help to boost the game on the Island. Word from Summerside has it that they would be willing to enter such a league. Why not the rest get together on it and start the ball rolling.

No Invitation Received For Visit To States

LONDON, Oct. 11—(CP)—Reuters News Agency reported tonight it was authoritatively informed that the King and Queen have not received an invitation to visit the United States following their tour of Canada early next summer.

Their Majesties are returning to London from Baltimore Castle early next week. Reuters said and nothing definite on the subject of their North American trip is expected before then.

The Agency advised, however, that the idea of a visit to the United States has not been ruled out in court circles, where it is thought a visit to Washington and the New York World's Fair may be arranged. The invitation normally would be forwarded through the British Embassy at Washington, it was pointed out.

Barns Razed By Fire At Lot 16

Mr. Abel Clark of Lot 16 suffered a heavy loss by fire on Monday when his barns and entire crop including large quantity of potatoes were destroyed.

The fire started shortly after noon. Mr. Clark's son had been in the barn and had latched the doors to plough the field near the barn. Shortly after he had been in the field he looked back and saw the barn in flames. He quickly gave the alarm and neighbours responded to save the implements which had been housed in the shed near the main barn. Through strenuous efforts the house was saved.

The loss included two barns and a shed, the entire crop and part of the potato crop. There was no insurance.—S

Fear Injuries May Prove Fatal

YARMOUTH, N. S., Oct. 11—(CP)—Angus MacDonald, Canadian National Telegrams' line-man, was critically injured today when he jumped from his motor trolley as a second machine heavily loaded with mail, overturned his vehicle. The line-man was picked up in an ambulance and rushed to hospital in Yarmouth, where it was feared his injuries might prove fatal.

Embattled parishoners who have not the rev. Simon Borkowski a prisoner for seven weeks in Vulcan, Mich., rectory because they don't want him transferred to another post, served notice they mean business when they routed a group of Vulcan business men who sought to free the priest. Here are two scenes from the "battle front." Left, above, Father Borkowski leaving the rectory for a brief period of freedom before he was "recaptured" and returned to "prison." Right, one of the liberators, coming from his back, is ejected from the rectory by angry parishoners.
